Battery Care

Fully Charge Battery Before Initial Use

- Do preserve battery life by switching off a device and removing the batteries when it's not being used, and is not expected to be used for extended periods of time.
- Do practice proper battery storage by keeping batteries in a cool, dry place at normal room temperature.

Properly Store Batteries

- Remove the battery from the device.
- Charge and discharge the battery to 40%-65% if it will not be used for 10 days or more. This can greatly extend the battery life.
- The battery should drop below 65% when it is idle for more than 10 days to prevent it from swelling.
- Store the battery in cool and dry environment that's less than 25°C.

Features of Lithium Battery

- Battery capacity will reduce after multiple charging cycles.
- The battery capacity drops gradually even without being used.
- Longer charging time is required in shady place.
- Charging and storing lithium battery in warm condition will short its lifespan. Please do not leave them inside the vehicle or near the heater.
- If the battery working time has reduced significantly, please replace the battery immediately in avoidance of fluid leakage.

Handling Precautions

- **Do not overcharge the battery**

Please stop charging if it can't be fully charged within required time. The battery probably overheats, smokes, bursts or suddenly be on fire due to abnormal charging process. When fully charged or not charged, please disconnect the charger and unplug it from the power outlet.

- **Do not discard battery in a microwave or high pressure container.**

The battery probably overheats, smokes, bursts or suddenly be on fire.

- **Do not expose damaged battery near any fire.**

If the battery is broken, leaking or has an abnormal odor, please remove it from flammable areas immediately. The fluid in the battery is flammable, which may cause smoke and fire.

- **Do not use abnormal battery**

If the battery is with odd smelly, discolored, deformed, etc., please stop charging or disassemble from the device immediately.

- **Please use authorized power adaptor**

To comply with warranty terms and avoid damages, charge the battery using a specified charger for best performance.

USB cable charging

Plugging the USB-C cable to the radio charging port and another end USB-A interface connect with power adapter LED indicator light on for charging after power supplied .

Accessory Installation

- 1 Install lanyard

2 Installing headset

Open the cover from the top of device to show the headset sockets. Headset will work immediately after being plugged in.
