- › Headphone jack and optical output
- › Wall mountable (VESA compliant)
- › Full function remote control

VISION **MADE** VIVID.

In the cutting-edge technology world of 4K Ultra HD TVs, Haier's 55E5500U is an exceptional value. With the 3840 x 2160 pixel screen, there is more depth and shades of color than you've probably ever seen before. And it exemplifies the razor-sharp clarity and pixel detail which 4K Ultra HD is known for — four times the detail of 1080p HDTVs. One of the key advantages of Haier's 2015 models is the latest version of HDMI that supports 4K video up to 60 frames per second. In addition, it supports HDCP 2.2 copy protection, which means you'll be able to enjoy 4K Blu-ray movies when they arrive in late 2015.

Model 55E5500U			
Design			
Cabinet Color	Black	Bezel Width	less than 1/2"
