ABOUT US

Founded in 2015, we are a proud American company, based in the heart of Los Angeles, California, that is deeply committed to improving the lives of seniors and low vision individuals.

Our team of passionate individuals is driven by a strong sense of purpose, and we are dedicated to putting a smile on the faces of those who have struggled to read. We believe that everyone deserves the simple pleasure of reading, and it is this belief that motivates us to work tirelessly towards achieving our mission.

NEED HELP?

We invest heavily on product research and development to ensure **Magnipros** products exceed our customers expectations.

INSTRUCTION MANUAL

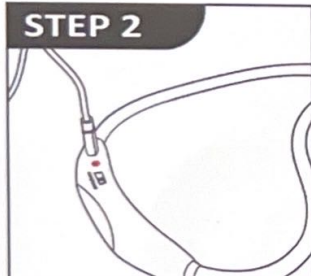

STEP 1

Please remove the protective film on the flatter side of the lens before using this magnifier.

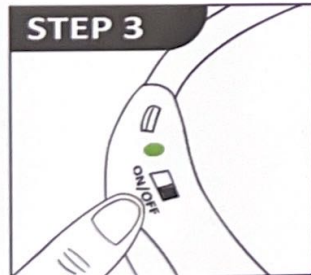

**One protective film only.*

STEP 2

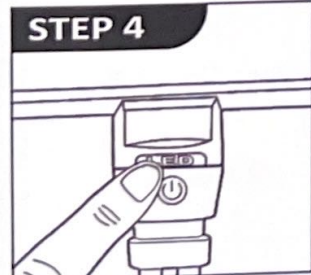

Before turning on the lights, charge the magnifier using the provided USB charging cable to ensure proper functioning of the lights
Red: Charging
Green: Fully Charged

STEP 3

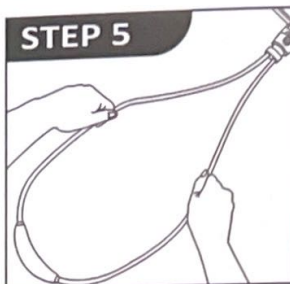

Please turn on the battery switch after charging to activate the light button function, which serves to prevent inadvertent activation and conserve power.

STEP 4

Tap the light button once to turn on or change lighting sources, long press/hold the button to increase or decrease brightness level to your desired lighting.

STEP 5

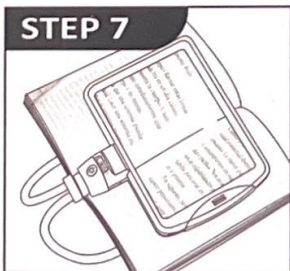

Extend the flexible gooseneck and shape it to meet your specific requirements.

STEP 6

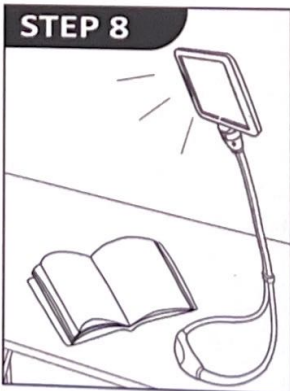

Drape the gooseneck around your neck or shoulder and modify the space between the lens and the objects you're magnifying for optimal results. The ideal distance may vary from 3-5 inches, depending on your specific needs.

STEP 7

Position the gooseneck so it stands independently from a flat surface for hands-free use, and place objects beneath the lens for the best magnification outcome

STEP 8

This LED page magnifier is designed with an adjustable flexible gooseneck, stands independently to serve as a magnifying lamp, enhancing your reading experience
