⚠ WARNING

CAUTION!

This monitor desktop mount must be securely attached to the horizontal desk. If the mount is
not properly installed it may fall, resulting in possible injury and/or damage.

Step 1 Install the Pole on a Desk

Option A: Clamp installation

1. Connect clamp support (c) and pole (a) with 3 pieces of M5x18 (f) and tighten it with wrench (i) (figure 1).
2. Connect clamp (b) and clamp support (c) with pre-positioned screws and choose proper hole sit according to the thickness of desk (figure 2). Tighten the plastic knob to fix the clamp (figure 3)

figure 1   figure 2   figure 3

Tighten and splice two poles into one, then tighten the stud with wrench to secure
Option B: Grommet installation

1. Connect grommet support (c) and pole (a) with 3 pieces of M5x18 (f) and tighten it with wrench (i) (figure 1). Insert grommet support (c) into desk hole whose diameter is over 1.65in/42mm (figure 2).
3. Connect grommet (b) and grommet support (c) with pre-positioned screws and choose proper hole site according to the thickness of desk (figure 3). Tighten the plastic knob to fix the clamp (figure 4).
