Compatibility

Supports Android 10.0/iOS 14 and above.

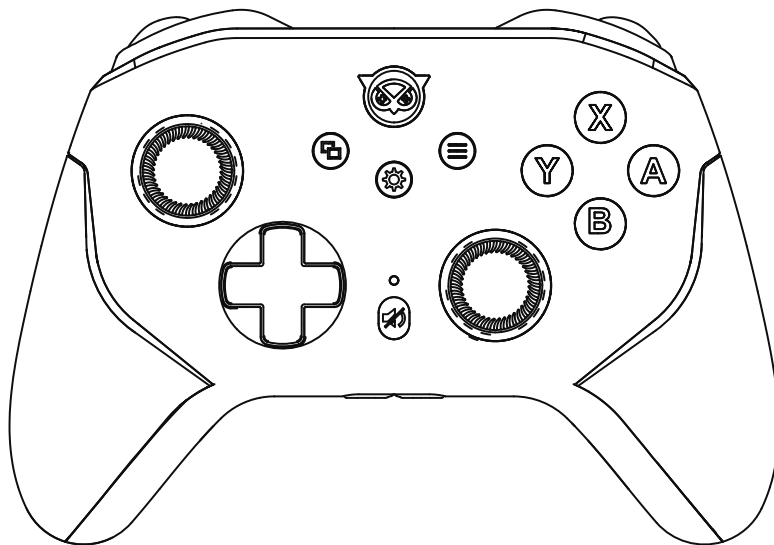

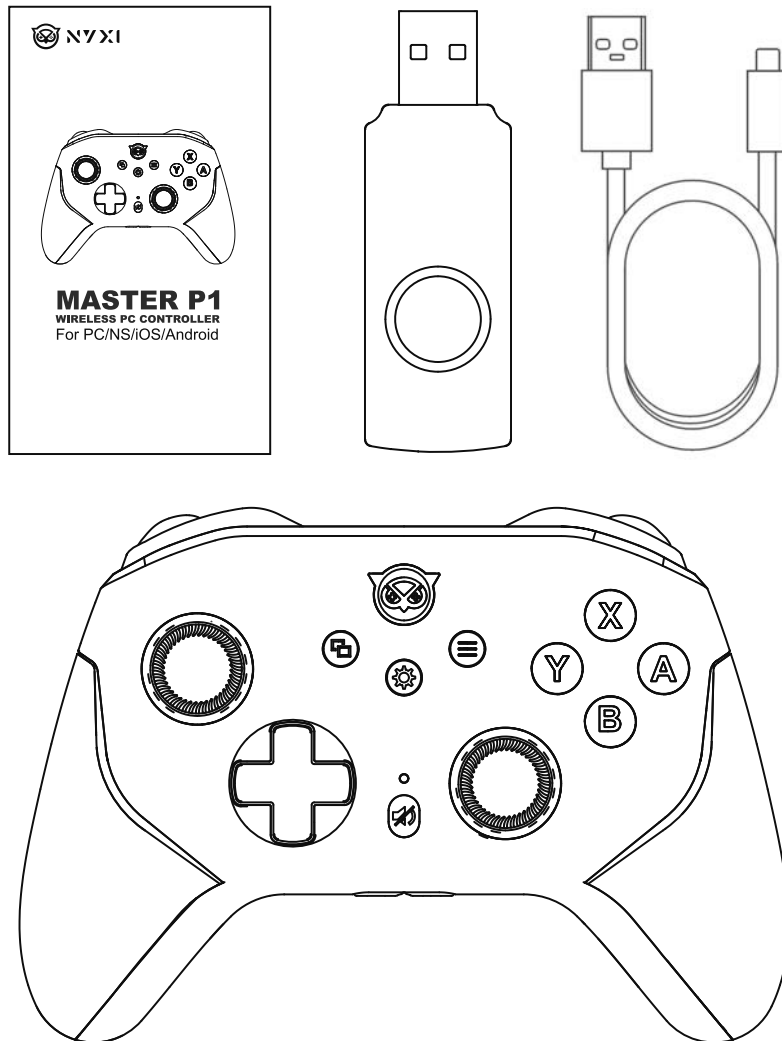

Supports NS 3.0.0.0 and above.

Supports PC (Win 7/8/10/11)

Packaging Contents

Game Controller *1, A-C Charging Cable 2m *1, Receiver *1

User Manual *1

Technical Parameters

Model: NP01

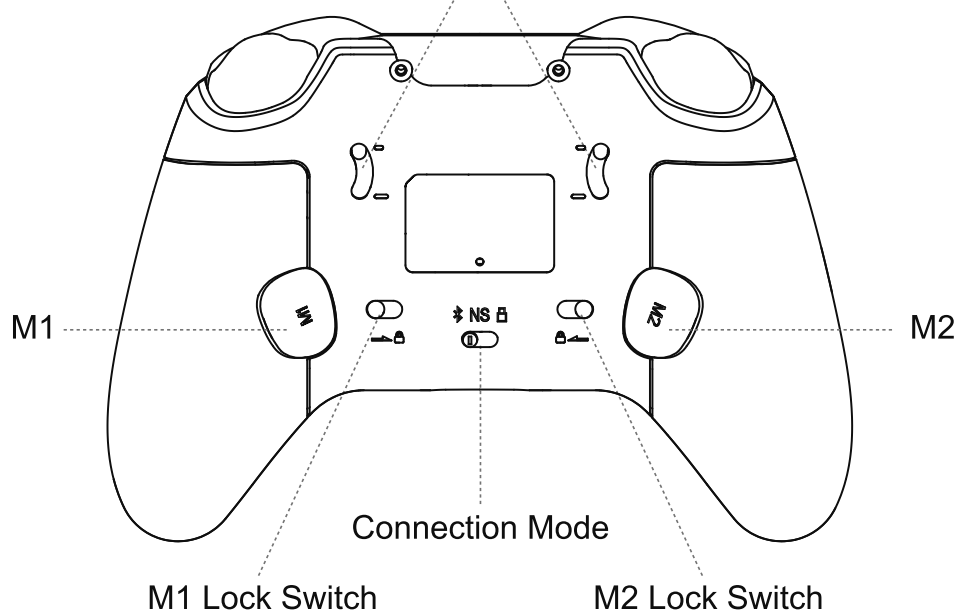

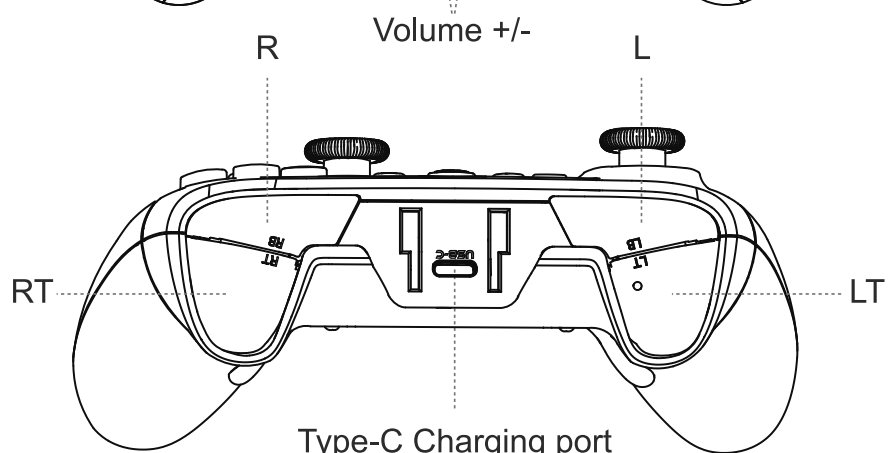

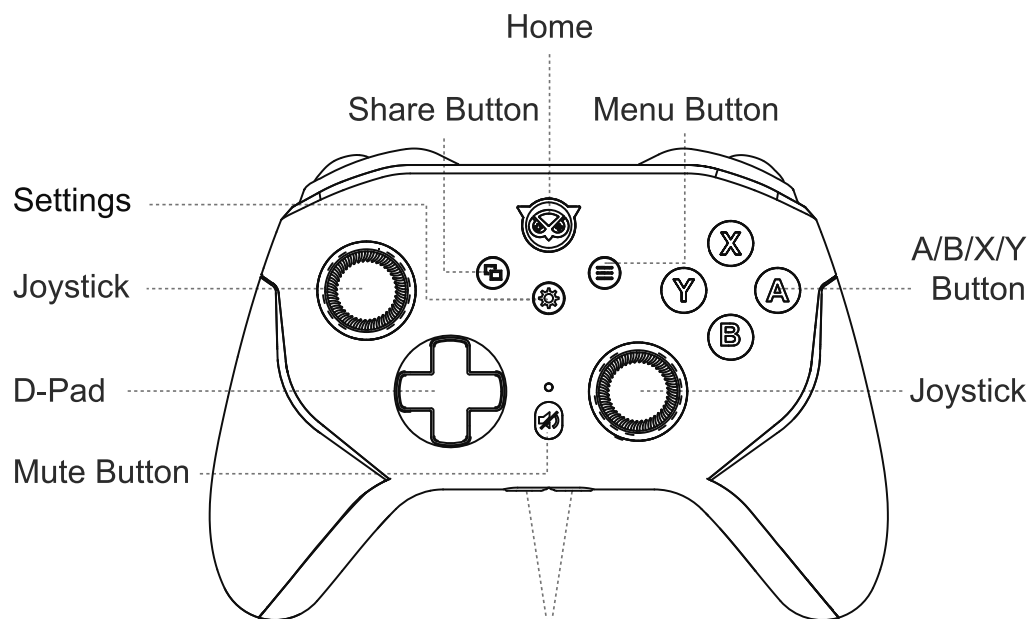

Input Parameters: 5V/0.6A

Material: PC+ABS

Battery Capacity: 600mAh

Charging Time: 2.5 hours or so

Battery Life: 8 hours or so

Instructions for Use

For detailed instructions and more product features, please scan the QR code below.

- First-time connection: The controller needs to be connected to the charging cable, and it can only be powered on and used after charging activation.
- Receiver connection: Switch the toggle to the receiver position, press the home button to power on and enter pairing mode. The receiver will automatically pair successfully.
- Wired connection: Connect the controller via the cable, and the controller will automatically power on and connect.
- Bluetooth connection: Switch the toggle to the Bluetooth position, then press the home button to power on. Next, search for the product name in the device, click on Master P1 to connect.
- NS connection: Switch the toggle to the NS position, select "controllers" "change grip/order" in the NS settings, then wait for automatic connection.
- Auto-reconnect: Press the home button on the controller to automatically reconnect.
- Forced pairing: When the controller is off, long-press the home button for 3 seconds, and the controller will enter forced pairing mode.

Ühilduvus

Toetab Android 10.0 / iOS 14 ja uuemad.

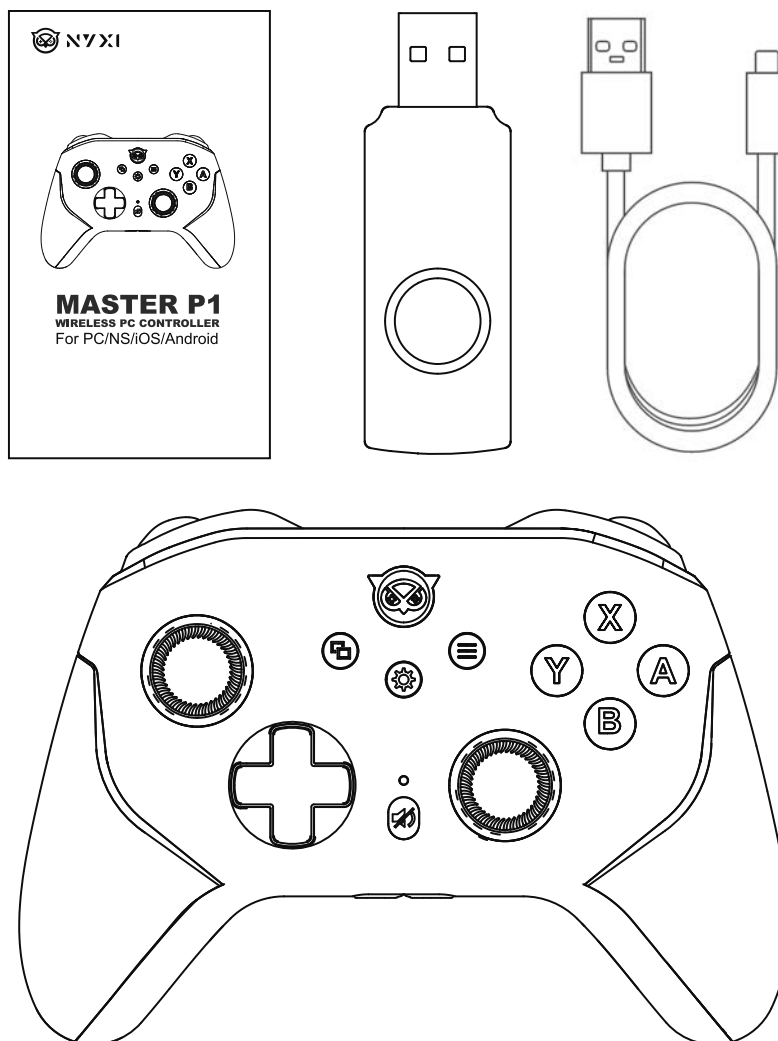

Toetab NS 3.0.0.0 ja uuemaid.

Toetab PC (Win 7/8/10/11)

Pakendi sisu

Mängukontroller *1, A-C laadimiskaabel 2m * 1, Vastuvõtja *1

Kasutusjuhend *1

Toote spetsifikatsioonid

Mudel: NP01

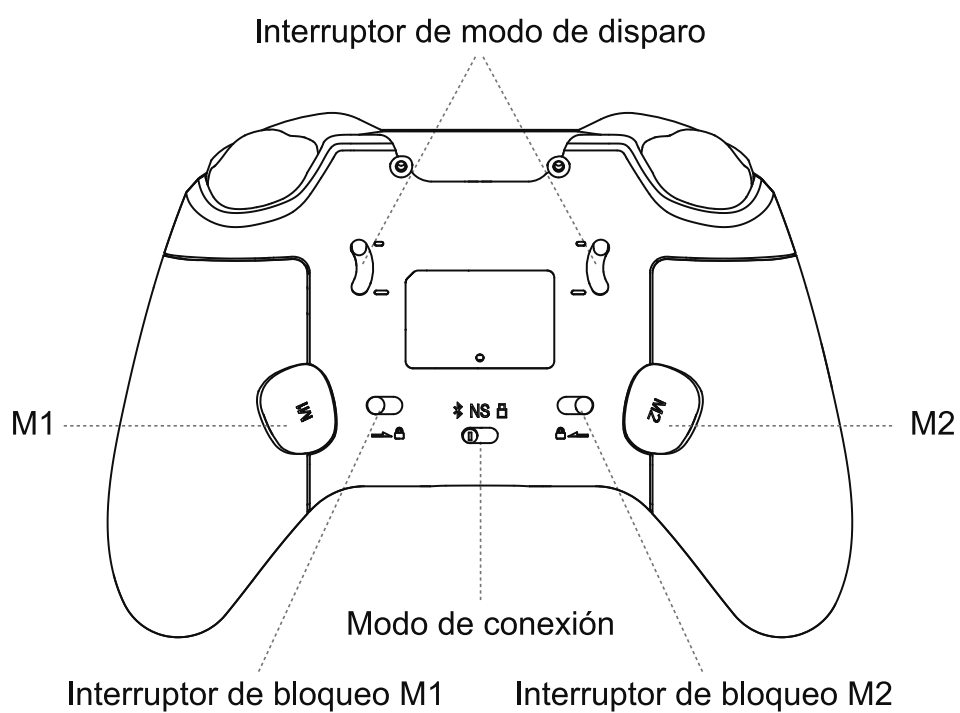

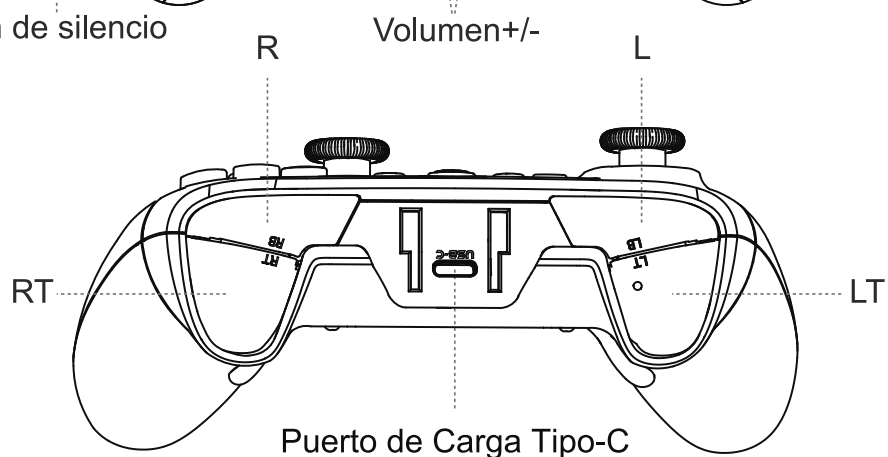

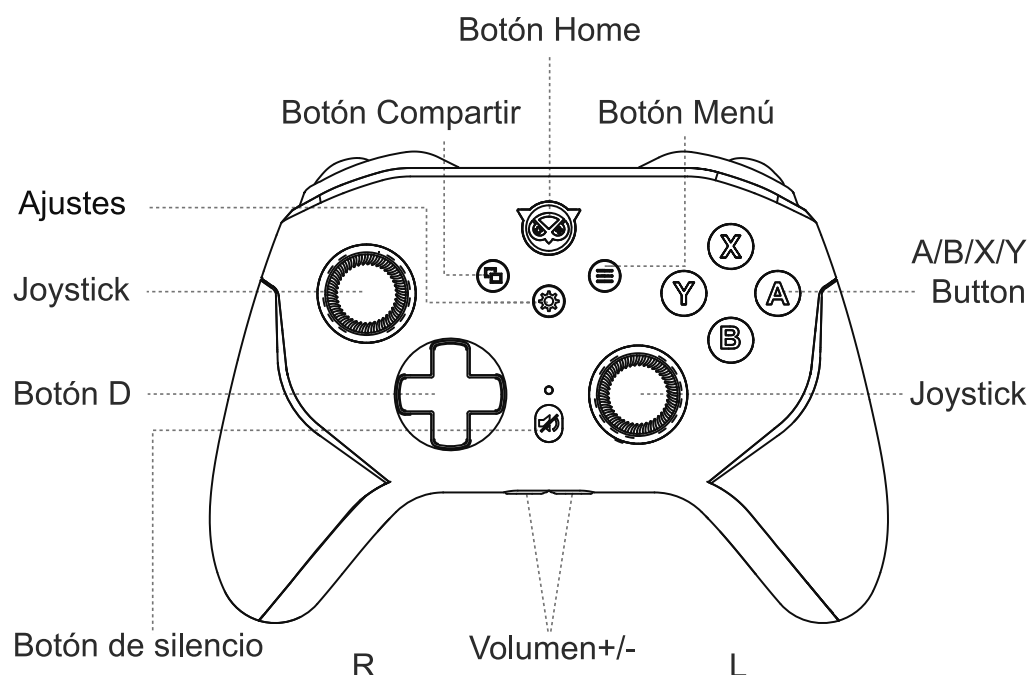

Sisendparameetrid: 5V/0,6A

Materjal: PC+ABS

Aku maht: 600mAh

Laadimisaeg: 2,5 tundi või nii

Aku kestus: 8 tundi või nii

Kasutusjuhend

Üksikasjalike juhiste ja tootefunktsioonide saamiseks skaneerige allpool toodud QR-koodi.

- Esimene ühendus: Kontroller tuleb laadimiskaabliga ühendada ning seda saab sisse lülitada ja kasutada alles pärast laadimise aktiveerimist.
- Vastuvõtja ühendus: Lülitage lüliti vastuvõtja asendisse, vajutage sisselülitamiseks ja sisestage paaritusrežiimi. Vastuvõtja pairitub automaatselt edukalt.
- Juhtmega ühendus: Ühendage kontroller kaabli kaudu ja kontroller lülitub automaatselt sisse ja ühendab.
- Bluetooth ühendus: Lülitage lüliti Bluetoothi asendisse ja seejärel vajutage sisselülitamiseks nuppu Home. Seejärel otsige seadmest toote nime, klõpsake ühenduse loomiseks nuppu Master P1.
- NS ühendus: Lülitage lüliti NS asendisse, valige NS seadetes "kontrollerid" "muuda haaret/järjekorda" ja oodake automaatset ühendust.
- Automaatne taasühendus: Vajutage automaatselt uuesti ühendamiseks kontrolleri kodunuppu.
- Sunnitud sidumine: Kui kontroller on välja lülitatud, vajutage kaua kodunuppu 3 sekundit ja kontroller siseneb sunniviisilisse sidumisrežiimi.

FCC ID: 2A88F-NP01

FCC Statement

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) The device may not cause harmful interference.
- (2) The device must accept any interference received, including that may cause undesired operation.

2. Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class C digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase distance between the equipment and receiver.
- Plug the equipment into a socket on a circuit different from that to which the receiver is connected.
- Consult your distributor or an experienced radio/TV technician for help.

The symbol means the product should not be disposed of with household waste but be brought to an appropriate collection point to enable recycling. According to local regulations, do not dispose of the product or rechargeable battery with normal household waste.

Appropriate disposal of used products and rechargeable batteries helps to prevent negative impacts on the environment and human health.

PRECAUTIONS

Do not expose it to liquid

Do not disassemble it

Avoid dropping it

Avoid extremely high or low temperature
