

MA29-M Headset Microphone with PTT 2 PIN MOTOROLA

The soft plastic C-Ring earbud provides comfort and elegance for extended use throughout the day. The MA-29 model is designed to be worn on both ears, ensuring hygiene. The integrated PTT (Push-To-Talk) button facilitates communication even when the radio is not immediately accessible. The high-sensitivity microphone with noise-cancelling filter and HD speaker ensure clear and loud communication even in noisy environments, while the braided fiber cable prevents tangling.

The high-sensitivity microphone with noise-cancelling filter and HD speaker

Key points:

Elegant design

Durable material, ideal for extended use

Usable on both ears

Anti-tangle braided fiber cable

High-quality microphone and speaker, designed to meet the needs of professional users, with top-level components
