- **PRECAUTIONS** 1. Use Information The following equipment must not be connected to the remote control plug:

- The following equipment must not be connected to the remote control flux. Equipment exceeding the technical value of the remote control plus (2 sectional data). Equipment with motor capacitors dauch as refrigerators, etc.). Opening the device unaffered can cause fine or other damage (such as irons, etc.). In an emergency, you must have quick access to the remote control plugs so that they can be removed from the grounded control plugs in the verver of a hazard.

- be removed from the grounded contact plugs in the event of a hazard.

  2. Safely Information:

  1. Do not jug multiple development of the control of the contr
- overloaded (maximum 1800W).

  D not open the device. Improper assembly may cause electric shock, short circuit or fire.

  The range of the remote control plug is severely affected by structural conditions (such as reinforced concrete) or sources of electrical / electromagnetic interference (fluorescent lights, cordless phones or earphones, TV/monitors, cables, etc.). If necessary, remove disturbance

- renflored concrete) or sources of electrical electromagnetic interference (fluorecent lights, orrentees photose or septiments. (Nimotinic cashes, ed.); Infecency, remove distributions confices photose or septiments. (Nimotinic cashes, ed.); Infecency, remove distributions of the equipment installation at a distance of more than BOCM from the ground.

  \*\*Receip the equipment installation at a distance of more than BOCM from the ground.

  \*\*Come with a soft slightly dearn of with. Do not use clearly not solvents. Do not immerse in water.

  \*\*Come with a soft slightly dearn of with. Do not use clearly not solvents usingly or fire. Do not depose the theating to estimate importance south as direct sushight or fire. Do not dispose the battery or estimate interest the correct policy of and -), as already said place they dispose the battery or experiment.

  \*\*When regulating the battery, only use the same type of statery.

  \*\*If the battery is active rower it form the battery comparisons with the occurrence of the statery or the said or state of the statery.

  \*\*If you do not use the device for a long time, remove the battery.

  \*\*If you do not use the device for a long time, remove the battery.

  \*\*Received the sused battery from the device and battery.

  \*\*Received the used battery from the device and battery.

  \*\*Received the used battery from the device and battery.

  \*\*Received the used battery from the device and battery.

  \*\*Received the used battery from the device and battery.

  \*\*Received the used battery from the device and depose it immediately.

**PRECAUTIONS** 

For Both FCC & IC application:
This device complies with Part 15 of the FCC Rules / Industry Canada licence-exemp

Remove and immediately recycle or dispose of used batteries according to local regulations and keep away from children, Do NOT dispose of batteries in household trash or incinerate Even used batteries may cause severe injury or death If the coin-cell battery is swallowed or placed inside any part of the body call a local poison control center for treatment information. The non-rechargeable battery is not to be recharged. Do not force discharge, recharge, disassemble, heatabove 60°C (140°F) or incinerate Doing so may result in injury due to venting, leakage or explosion resulting in chemical burns.

Ensure the batteries are installed correctly according to polarity (+ and-). Do not mix old and new batteries, different brands or types of batteries. such as alkaline, carbon-zinc, or rechargeable batteries. Remove and immediately recycle or dispose of batteries from equipment not used for an extended period of time according to local regulations. Always completely secure the battery compartment. If the battery compartment does not close securely, stop using the product, remove the batteries, and keep them away from children.

Warning: contains coin battery
