- Nine oven functions including Bake, Fan Forced and Grill
- AeroTech™ technology for even heat distribution
- Designed to match Contemporary style appliances

DIMENSIONS

Height	598 mm
Width	597 mm
Depth	565 mm

FEATURES & BENEFITS

Multi-Function Flexibility

Each function is carefully designed to deliver the right heat for whatever you're cooking. With nine options, including Classic Bake, Grill and Pastry Bake, this oven supports a variety of cooking styles.

Generous Capacity

The spacious 85L total capacity allows for multi-shelf cooking, so you can prepare multiple dishes at once – ideal for entertaining or everyday family meals.

Even Heating

AeroTech™ technology circulates air evenly throughout the oven, helping to ensure consistent temperatures and beautifully cooked results across every shelf.

Design Freedom

With sleek Contemporary styling, premium materials and refined detailing, this built-in oven is designed to match the rest of the Fisher & Paykel kitchen suite.

Safe and Sound

The CoolTouch door features triple glazing and a cooling system that keeps the exterior safe to touch—protecting both your hands and surrounding cabinetry.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
