› Bring your life

Whether it's exploring spectacular nature in the great outdoors or travelling the world with family and friends, we all have a passion for enjoying an active life. At Thule, we share your desire to spend more time enjoying our passions – which means less time worrying about how to bring all the stuff we need. For 75 years, we have been totally focused on developing smart, stylish products that are environmentally sound, high quality, safe, and easy to use.

Wherever your passion takes you, whatever you're bringing.
With Thule products, you're free to live your active life to the full.

› Roof Racks

How to buy a Thule roof rack

Our roof rack systems are a starting point for carrying the extra special gear that lets you live your passions. We have made it easy to find a solution that fits your car and your needs. Just start by asking yourself – maximum loading area or a streamlined design?

With a Thule roof rack, you're all set to head off on your adventures and make sure you have everything you want with you. The Buyer's Guide at thule.com helps

you find the right system for your car – check your custom fit there or at your local Thule dealer.

Installing a Thule roof rack on your car roof is now quicker and easier than ever before. The Mounting Tutorial on thule.com is a vital part of the process, helping you get a great start to your adventures with our roof racks. It is a part of our commitment to usability at every step of the way.

- Identify your car model and year
- Identify your roof type

- Check your custom fit in this guide, at www.thule.com or visit your local Thule Dealer

We are constantly fitting new vehicles. If you cannot find your vehicle model listed in this guide, please find the latest updates in the Buyer's Guide at www.thule.com.

One roof rack – a thousand possibilities

Constantly aiming at staying one step ahead, and working closely together with the car industry, Thule offers two main roof rack lines: Thule Evo and Thule Edge.

Thule Evo – maximized loading area

Thule Evo is a highly flexible aerodynamic roof rack system that provides an exceptionally quiet ride, a maximized loading area, and easy installation of accessories. It supports variable load bar options.

Thule Edge – sleek, streamlined design

Thule Edge has a low profile that perfectly complements the car’s roofline. The streamlined design of Thule Edge also makes it the ideal solution for keeping the rack on the car even when it’s not in use. Combining high performance with a sleek fit, the design of Thule Edge is close to perfection.

How much can you carry?

Thule Load Bars – max load surface

			784/794	9582/9582B	757		N		
186014	N	7313020090054							Next generation Flush kit added

The product numbers represent the components you need to complete your roof rack.

Kit
Roof rack kit in a set of four. For car specific fit of the roof rack feet to the car roof.

If there is a letter on your specific bar in the Info column, be sure to find out what it means below.

B Max load 40 kg
C Max load 50 kg
D Max load 60 kg

If column is blank, load capacity is 75 kg. Please check the fitting instruction for information.

H The distance between the roof rack bar does not permit the fitting of a roof box.

K Holes have to be drilled in the roof.

L Only permits fitting of one roof rack bar.

M Without mounting holes in the door frame.

N WingBar Edge has an attractive low profile to the car roof. Therefore care must be taken when fixing additional accessories, such as roof boxes, so as not to interfere with any existing attachments (like antennas) on the vehicle.

In some cases we offer complete packed solutions.

Smart Rack
A complete roof rack in one single package.

The product numbers represent the components you need to complete your roof rack.

Foot + Short Roof Adapter (SRA)
Roof rack feet in sets of four. For detailed information, see page 8.

The SRA (*discontinued*) is an adapter for cars with short roof, to increase the distance between the load bar. (Only needed for some car models and only in combination with Thule Rapid System 754).

The product numbers represent the components you need to complete your roof rack.

Kit
Roof rack kit in a set of four. For car specific fit of the roof rack feet to the car roof.

If there is a letter on your specific bar in the Info column, be sure to find out what it means below.

A Max load 30 kg
B Max load 40 kg
C Max load 50 kg
D Max load 60 kg

If column is blank, load capacity is over 60 kg. Please check the fitting instruction for information.

H The distance between the roof rack bar does not permit the fitting of a roof box.

K Holes have to be drilled in the roof.

L Only permits fitting of one roof rack bar.

M Without mounting holes in the door frame.

N WingBar Edge has an attractive low profile to the car roof. Therefore care must be taken when fixing additional accessories, such as roof boxes, so as not to interfere with any existing attachments (like antennas) on the vehicle.

› Professional Racks

Your dynamic platform for heavy-duty purposes

Thule Professional is a fully integrated system, so tailoring it to your specific needs and way of working is quick and easy. All you need is the make, model and year of your work Van – then follow the recommendations presented in this easy-to-use fit guide. All products in this guide are tested on each specific vehicle model and Thule guarantees that the recommended products will fit your vehicle. If you follow our recommendations, we can assure you a high safety standard.

Car make
Look up the page where your vehicle make, model and model year are listed. All makes appear in alphabetical order.

Recommendation
The recommended solution for your vehicle includes all necessary parts for a complete Heavy-Duty roof rack solution. For some vehicles, we list solutions with 1, 2, 3 and 4 bars.

Thule Artificial Fixpoint 543

Universal fix point kit for fixation of Thule Rapid System 751 & 753 feet.

SPECIFICATIONS
Fits only 751 and 753 feet

FEATURES
■ Fixpoint kit to be fixated on covers made out of strong materials like glass fibre, aluminium, plastic or steel. ■ City crash approved for 75 kg according to ISO-norm. ■ Artificial fixpoint to be combined with Thule Rapid System roof rack feet 751 or 753 feet and suitable load bars. ■ All parts in contact with the car have soft coating to prevent marks and scratches.

Thule ProBar
The load bar with a unique tri-slot design for fitting of multiple accessories

SPECIFICATIONS
Available in six lengths: see below

FEATURES
■ The tri-slot design gives great flexibility and opens up the possibility of combining a range of different load accessories that can be used independently of each other or together. ■ In the top track, you can for example fit the Thule Load Stop, Thule Ladder Tilt, Thule Ladder Holder etc. You mount each accessory in just a few seconds. Just slide it in and lock in place. ■ In the rear track you can very easily alter between Thule Roller, Thule Foldable Load Stop and Thule Eye bolt. Or let them be mounted together. And you will have the top of the Thule Heavy-Duty Bar free for your load.

Miscellaneous			Fits railing sizes between 15–67 mm	Fits railing sizes between 20–68 mm					

¹ Maximum load is the maximum approved weight for each type of roof rack. Consult your car manual and the Thule fitting instruction for your car's maximum load limit.
² Foot height is the distance from the base of the foot to the contact surface of the bar.
Please note that: For distances to the top of the bar, add 22 mm for SquareBar and 37 mm for Professional bar. The car specific fitting kit is excluded in the height measurement.

› Rear Door-mounted Bike Racks

These racks can easily be mounted on the boot of a car with quick-mount attachments. Rubber frame holders keep the bikes firmly in place and protect the frames from scratches. When not in use, simply fold and store the rack in the car or garage.

Thule OutWay Hanging

Premium trunk mount bike carrier provides robust attachment and fits wide range of vehicles including those with a spoiler.

- FEATURES**
- Maximum vehicle fits including those with spoiler, with adjustable design to fit sedans, station wagons, CUVs and SUVs.
 - Maximum fastening security to your vehicle with steel cables.
 - Solid rack to vehicle connection with Thule AcuTight torque limiting tightening system that click when optimal torque is reached.
 - Firm carrier hold and vehicle protection with twin hook attachment and rubber protection pads.
 - Accommodates variety of bike frames/geometries including smaller kids bikes thanks to adjustable bike arms.
 - Bike protection and security with soft cradles that absorb road shock and vibrations.
 - Vehicle and bike protection with integrated anti-sway system that prevents bike-to-bike and bike-to-vehicle contact.
 - Bike arms fold down when not in use, and rack folds flat for easy transport and convenient storage.
 - Locks the bikes to the bike rack and the bike rack to the car (locks included).
 - Possible to open vehicle trunk without any mounted bikes.
 - This product does not have universal fit. Please use the Thule Buyer's Guide for information related to specific car models.

Thule FreeWay

Basic hanging-style trunk bike rack designed for hatchbacks and sedans.

- FEATURES**
- All parts in contact with the car and bikes are coated with rubber for extra protection.
 - Possible to attach Thule Light Board 976.
 - Use Thule Bike Frame Adapter 982 for fitting of bikes with non-standard frames (e.g. ladies' bikes, BMXs, downhill bikes).
 - This product does not have universal fit. Please use the Thule Buyer's Guide for information related to specific car models.

Thule OutWay Platform

Premium trunk mount bike carrier with raised platform designed to keep the rear lights and license plate visible, fits wide range of vehicles including those with a spoiler.

- FEATURES**
- Improved visibility of rear lights and license plate with raised platform design.
 - Maximum fastening security to your vehicle with steel cables.
 - Solid rack to vehicle connection with Thule AcuTight torque limiting tightening system that click when optimal torque is reached.
 - Firm carrier hold and vehicle protection with twin hook attachment and rubber protection pads.
 - Easy mounting of bikes with detachable bike arms with lockable Thule AcuTight torque limiting knobs that click when optimal torque is reached.
 - Accommodates up to 127cm/50" wheel base bikes and tires up to 3" in width.
 - Simple to fasten wheels, thanks to long wheel straps with pump buckles.
 - Compact storage with wheel trays that fold up when not in use.
 - Locks the bikes to the bike rack and the bike rack to the car (locks included).
 - No assembly required.
 - Possible to open vehicle trunk without any mounted bikes.
 - This product does not have universal fit. Please use the Thule Buyer's Guide for information related to specific car models.

Thule WanderWay

Top of the line trunk bike rack with raised platform dedicated for the Volkswagen T6.

- FEATURES**
- Quick and simple to mount thanks to fully pre-assembled and dedicated fit to the VW T6.
 - Possible to increase load capacity up to 4 bikes by adding a 3rd bike and a 4th bike adapter (adapters sold separately).
 - The raised position of the rack keeps the rear lights and license plate visible.
 - Easy mounting of bikes through detachable bike arms with lockable Thule AcuTight torque limiter knobs that click when optimal torque is reached.
 - Simple loading of bikes thanks to easy-to-adjust rails that slide from left to right.
 - Simple to fasten wheels, thanks to the adjustable wheel holders with pump buckles.
 - Platform folds up vertically against the trunk when not in use.
 - Locks the bikes to the bike rack (lock included).
 - Possible to open vehicle trunk without any mounted bikes.

Thule ClipOn

Easy-to-use, hanging-style trunk bike rack designed for station wagons and hatchbacks.

- FEATURES**
- Easy to mount to the rear door with a unique snap-on system.
 - All parts in contact with the car and bikes are coated with rubber for extra protection.
 - Quickly folds for easy storage.
 - Possible to attach Thule Light Board 976.
 - Use Thule Bike Frame Adapter 982 for fitting of bikes with non-standard frames (e.g. ladies' bikes, BMXs, downhill bikes).
 - This product does not have universal fit and it comes in two versions (9103 and 9104) having different tube diameters fitting different car models.

We have tested all the listed recommendations individually

Please note that if you don't find your car in this guide, it may have several reasons:

- 1. Your car has a plastic/weak/large spoiler
- 2. Your car has a plastic or a divided rear door
- 3. The car manufacturer does not allow the fitting of rear door-mounted bike racks
- 4. Your car is very new on the market (less than 6 months)

Please always check online at www.thule.com

Car manufacturers market their models with different features in different countries around the world e.g. a chrome part or spoiler is added on the rear door. Due to weakness in plastic spoilers, rear door-mounted bike racks are not allowed to be used on these cars, even if they are recommended in this guide. Thule does everything to take this into consideration but can not be held liable for these local deviations.

Look up your car make, model type and year.

This is the Thule bike rack model you need.

To fit it to your car, you need an Adapter Kit for some racks.

Here you can see if you need an extension adapter to fit additional bikes.

If a lock for the bikes is not included, we recommend securing them with our Thule Cable lock 538.

Depending on the car model, tail lights and turn signals as well as the license plate can be covered. In this case we highly recommend to use our Thule Lightboard 976 to replace them.

Accessories

Thule Lockable Knob 526/527 An accessory to make the bike frame holders lockable (if not standard). 526 = 2 pack. 527 = 4 pack. Fits Thule ClipOn and Thule BackPac.	
Thule Cable Lock 538 Plastic coated, 180 cm long steel cable that locks almost anything. With lock protection.	
Thule Wheel Adapter 9772 Protects the rim on mountain bikes and helps secure the wheels of road bikes. Place between the strap and the rim.	
Thule Bike Frame Adapter 982 For easiest possible fitting of bikes with non-standard frames (e.g. ladies' bikes, BMXs, downhill bikes).	
Thule Lightboard 976 Substitutes the most important rear lights on your car (7-pin connector). Fitted by using straps on the rear door-mounted bike racks. The car needs to have either a 7-pin or a 13-pin electric outlet to connect the light board to the car.	
Thule One-Key System 4504/4506/4508/4512/4516 Avoid the hassle of several different keys, upgrade to Thule One-Key System and get one key for all Thule products.	
Thule WanderWay Bike Adapter 9116 and 9117 With adapter 9116 the capacity of Thule WanderWay increases from two to three bikes and with adapter 9117 from three to four bikes.	
Thule Bike Protector 988 An accessory that provides additional protection for bicycles standing close together.	
Thule Carbon Frame Protector 984 An adapter to enable safe transport of bikes with carbon frames (only to be used with Thule bike racks with a torque limiter knob).	
Thule 3rd Brake Light 9904 Accessory for cars when the load and bike carrier cover the car's 3rd brake light.

› Thule Safety & Warranty

Tested the hard way for tough roads

We'll never know what adventures you'll be taking your equipment on. That's why we develop our products to manage any weather, any temperature, and any terrain in the whole world. We've come to the conclusion that nothing else will do. You can just imagine what our test centre looks like. Every new product is put through temperatures of icy northern cold and burning desert heat, long sessions of intensive UV radiation, a salt chamber for corrosion endurance, several pressure and capacity tests – and finally a machine that shakes it for a lifetime's worth, simulating two trips around the world in less than a week. Yes, it's kind of brutal. But that's the way the world is. And since we only give the sign of approval to products that have had the whole world against them (and survived it), it's no wonder we're international leaders in safety and durability – or that we even exceed the standards.

Thule Guarantee

The Thule Guarantee will cover any defect or damage affecting your Thule product. Even damage caused by normal wear and tear or the natural discoloration of materials for 2 (two) years from the date of purchase by the original purchaser. The Thule Guarantee gives you specific legal rights. It does not affect any statutory rights that you have as a purchaser of a defective product.

The Thule Guarantee does not cover defects resulting from conditions beyond Thule's control. These include, but are not limited to, misuse, overloading, or from failure to assemble, mount or use the product or its accessory in accordance with Thule's written instructions, guidelines, and safety text. Nor does it cover damage to the user's vehicle, electronic devices, cargo, or to any other person or property.

Thule Extended Warranty

Thule's Extended Warranty applies to products and accessories produced by Thule and sold to the original purchaser under the brand name Thule. The warranty covers defects in materials or workmanship and, depending on the type of product, applies up to a certain number of years from the date of the original retail purchase. Please see below the specific length of the total warranty (Thule Guarantee plus Thule Extended Warranty) for each product.

Subject to the limitations and exclusions described in this warranty, Thule remedies defects in materials or workmanship during the warranty period, by repairing or replacing (Thule's option) the defective component(s) without charge for parts or labor.

Carriers & Racks	2 Year Thule Guarantee	Thule Extended Warranty	Thule Extended Warranty (Total number of years)
Bike Racks	Yes	+ 3 years	5 years
Roof Boxes & Baskets	Yes	+ 3 years	5 years
Roof Racks	Yes	+ 3 years	5 years
Water Sport Racks	Yes	+ 3 years	5 years
Winter Sport Racks	Yes	+ 3 years	5 years

Please note the following restrictions applicable to the Thule Extended Warranty:

- Thule does not cover defects resulting from conditions beyond Thule's control. These include, but are not limited to, misuse, overloading, or from failure to assemble, mount or use the product or its accessory in accordance with Thule's written instructions, guidelines, and safety text. Nor does it cover damage to the user's vehicle, cargo, or to any other person or property.
- During the period of the Thule Extended Warranty, we will not cover damages and/or defects resulting from typical wear and tear (for example brakes, tires and tubes, electrical parts, surface issues, faulty zipper tape, damaged buckles, coating peeling off and discoloration of fabrics).
- Thule does not cover damages resulting from abuse (such as tears, cuts, and holes in the fabric) and cosmetic damage (such as scratched or stained fabrics).
- Other damage not covered is damage caused by airlines or other transit damage (such as pressure damage; tears, cuts, and holes in the fabric; damage to the wheel covers, handles and other hardware of the bag). Damage claims in transit cases should be filed against the carrier.
- The purchaser will be responsible for the cost of returning the component(s)/product(s) and the proof of purchase back to the place where the product was purchased.

If you have any questions, please let us know by using the Contact Us form.
