SHOP.STEELSERIES.COM

1. Allumez votre Nimbus en faisant glisser l'interrupteur de verrouillage situé sur le dessus de la Nimbus en position déverrouillée.

2. Les quatre LED clignoteront lentement pour indiquer que votre Nimbus est désormais en mode d'appairage. Dans le cas contraire, maintenez le bouton  d'appairage enfoncé pendant 3 secondes.

3. Pour appairer votre Nimbus à votre périphérique iOS, utilisez le menu **Paramètres > Bluetooth**. « Nimbus » sera affiché sur l'écran. Appuyez pour connecter le périphérique.

RECONNEXION À UN PÉRIPHÉRIQUE EXISTANT :

Pendant la séquence de connexion, les LED 1 à 4 s'allumeront et s'éteindront successivement. La manette Nimbus se reconnectera automatiquement au dernier périphérique appairé lors de sa mise sous tension. Si vous souhaitez vous connecter à un périphérique précédemment appairé, il vous suffit de sélectionner la manette Nimbus dans le menu Bluetooth du périphérique Apple concerné.

6

APPAIRAGE À UN NOUVEAU PÉRIPHÉRIQUE :

Appuyez sur le bouton d'appairage  pendant 3 secondes. Les quatre LED s'illuminent puis s'éteignent pour indiquer que votre Nimbus est en mode d'appairage.

MISE SOUS/HORS TENSION :

Pour désactiver la manette, faites glisser l'interrupteur de verrouillage situé sur le dessus de la manette Nimbus en position . Le point orange indiquant que le commutateur se trouve en position verrouillée devrait être visible. Si elle est laissée en position déverrouillée, la manette se désactivera automatiquement après 15 minutes d'inactivité. Pour réactiver la manette Nimbus après une extinction automatique, il vous suffit de maintenir le bouton MENU enfoncé.

INDICATEUR D'ÉTAT DE LA BATTERIE :

Lorsque la charge de la batterie de la manette Nimbus est faible (environ 20 minutes restantes), la LED 1 clignote rapidement pendant 10 secondes.

Veuillez télécharger l'application **compagnon SteelSeries Nimbus** depuis l'iTunesStore.

SAFETY TIPS

FEDERAL COMMUNICATION COMMISSION INTERFERENCE STATEMENT

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. - Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

INDUSTRY CANADA STATEMENT:

This device complies with RSS-210 of the Industry Canada Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Ce dispositif est conforme à la norme CNR-210 d'Industrie Canada applicable aux appareils radio exempts de licence. Son fonctionnement est sujet aux deux conditions suivantes: (1) le dispositif ne doit pas produire de brouillage préjudiciable, et (2) ce dispositif doit accepter tout brouillage reçu, y compris un brouillage susceptible de provoquer un fonctionnement indésirable.
