

Wireless Touch Screen

The Ultimate in Technology at Your Fingertips

Experience the ease and beauty of home automation technology with the Control4® 10.5" Wireless Touch Screen. This cost-effective automation solution is setting a new standard in touch screen technology. With rich color graphics and an easy-to-navigate interface, the Wireless Touch Screen allows a homeowner to take full advantage of the sophisticated Control4 technology and state-of-the-art Navigator software. With advanced feature like photo screen saver and IP camera monitoring in addition to complete home control capabilities, this new touch screen provides a superior home automation interface in a high-performance, portable, touch screen design.

Finally, a single device that allows users to adjust the volume, turn on the lights and check in on the baby, all while having a quiet dinner on the porch. It's all part of the Control4 vision. We bring the benefits of a truly automated home to more people with solutions that are affordable, easy to install and designed to adapt to any home or lifestyle.

Features and Benefits

Smart Design

- **Vivid color** — 10.5" viewable/touch area packed with rich graphics.
- **Streamlined design** — Sleekly designed faceplate with concise navigational buttons.
- **Absolute mobility** — Move from room to room with the battery powered wireless Touch Screen.
- **Convenient charging** — Never worry about battery charging with the included tabletop charging cradle.

Easy To Set Up and Use

- **Easy to use** — Dynamic color graphics featuring tabs and icons for simple touch access to intelligent technology.
- **Plug and play ease** — Pre-programmed to work right out of the box with the Control4 system.
- **Wireless** — Intelligent, reliable, wireless connectivity using Wi-Fi (802.11g).
- **Easy recognition** — Just power it up, press a button, and it's immediately recognized on the Control4 system.
- **Customized control** — 4 hard buttons allow customization for rapid access to commonly used operations.

Handheld Intelligence

- **Control from anywhere** — Connects from anywhere in the house.
- **Control for anything** — Controls an entire home automation system.
- **Personalized preferences** — Set preferences for everything in the home automation system, from music to movies to lighting.

Tap the music icon and your entire music library is at your fingertips.

Select an audio zone icon and specify the room where the music will play.

Touch the lighting icon and select preset lighting scenes and moods such as evening, morning or party.
