#### interpret this document.

# **Technical Specs**

Items	Specification	
Operating System	Android 13	
CPU	2*Cortex-A76 2.2GHz 6*Cortex-A55 2.0GHz	
Memory	3GB RAM + 32GB ROM	
Display	10.95" IPS, 1200*1920	
Camera	2M FF(Main Camera)	
Scanner	N/A	
Cellular Network	Support 2g/3g/4g	
WIFI	IEEE 802.11 a/b/g/n (2.4G&5G)	
Bluetooth	Version 5.2, support BLE	
Payment	Support IC/MSR/NFC Card	
Interface	USB type-C、Pogo Pin	
Audio	Speaker / Mic	
Battery	8000mAh/3.8V (Rated capacity)	

#### **ATTENTION**

#### Warning

- Read all instructions and safety information before use to avoid injury.
- The limit operating ambient temperature of the device declared by the manufacturer is -10° C~+50X° C (standalone). -10~+35° C (with adapter)..

#### Battery safety

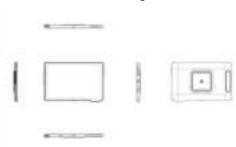

- Charge battery only at ambient temperatures ranging from 0~40°C.
- Dispose of used batteries according to manufacturer's instructions.
- Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type of battery recommended by the manufacturer.

#### Statement

- The equipment damage caused by natural disasters, falling, self disassembly and non-compliance with the operation specifications is not covered by the free warranty.
- me details of this document may be inconsistent with the real object due to the update iteration of the product. Please take the real object as the standard, and our company reserves the right to

# **Product Diagram**

#### NFC Card Beader

NFC antenna locates at the bottom of the screen. It's used to sense chip and acquire data through contactless way.

#### IC Card Reader

Used for inserting the bank chip card and getting information securely.

#### MSR Card Reader

Used for reading encrypt information stored in corresponding cards.

#### Main Camera

Used to take photos or videos needed or complete commercial payment through camera base on third-party app.

#### Display

Set for merchants to complete business settlement and for customers to input the password to finish the payment .

#### **Power Button**

Used to change the running states of device, such as pressing 2~3 seconds to power on/off or screen capture and pressing 10 seconds to restart automatically when device is crashed.

#### Card Slot

The card slot is on the side of the device and can be pushed out by holding the card pin like smart phones.

#### USB type-C

Used for device charging and plugging in peripheral device which supports OTG.

#### Pogo Pin

The Pogo-pins expanded interface is severed as the channel to connect the charging cradle for better power supply and expand other interfaces for data transmission.

#### Card Selection Instruction

# Package List

NO.	Items list	Description
1	Device	Default
2	Battery	8000mAh/3.8V (unremovable)
3	USB cable	1pcs,1m/type-c
4	Adapter	5V2A
5	User manual	Neutral

a. § 15.19 Labeling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

b. § 15.21 Changes or modification warning.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to

operate the equipment.

FCC Caution.

-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.

the equipment off and on, the user is encouraged

to try to correct the interference by one or more

of the following measures:

c、§ 15.105 Information to the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital

device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a

residential installation. This equipment generates

the instructions, may cause harmful interference

to radio communications. However, there is no

guarantee that interference will not occur in a particular installation. If this equipment does

cause harmful interference to radio or television

reception, which can be determined by turning

uses and can radiate radio frequency energy and, if not installed and used in accordance with

The SAR limit of USA(FCC) is 1.6 W/kg averaged over one gram of tissue. Device types:P1861 Sm:

over one gram of tissue. Device types:P1861 Smart Desktop Terminal (FCC ID: 2A2UU-P1861) has also been tested against this SAR limit. The highest SAR value reported under this standard during product certification for use when properly worn on the body is 0.87W/kg. This device was tested for typical body-worn operations with the back of the

compliance with FCC RF exposure requirements, use accessories that maintain a 0mm separation distance between the user's body and the back of the handset. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.

handset kept 0mm from the body. To maintain

### **Battery** warning

- This product contains a coin/button cell battery. If the battery is swallowed, it can cause severe internal burns in just 2 hours and can lead to death.
  CAUTION: Risk of explosion if the battery is
- replaced by an incorrect type.
- Improper replacement of the battery with an incorrect type may defeat a safeguard (for example, in the case of some lithium battery types).
- Do not dispose of the battery into fire or a hot oven, or mechanically crush or cut the battery,

which may result in an explosion. • Do not leave the battery in an extremely high temperature surrounding environment, which may result in an explosion or the leakage of flammable liquid or aas. • Do not subject the battery to extremely low air pressure, which may result in an explosion or the leakage of flammable liquid or gas. • Dispose of used batteries according to the instructions. Caution risk of explosion if battery is replaced by an incorrect type. Dispose of used batteries according to the instructions. **Declaration of Conformity** Hereby, [Shanghai Xiangcheng Communication TechnologyCo.,Ltd] declares that the radio equipment type P1861 Smart Desktop Terminal, P18 is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address:https://www.xctech.com/mobile/ **CE RF Exposure Information and Statement** 

The SAR limit of Europe is 2.0 W/kg. Device types P18 has also been tested against this SAR limit. The highest SAR value reported under this standard during product certification for use when properly worn on the body is 1.016 W/kg. This device was tested for typical body-worn operations with the back of the handset kept 0mm from the body. To maintain compliance with RF exposure requirements, use accessories

may not comply with RF exposure requirements, and should be avoided.
