INSTRUCTION MANUAL

DT60

Heat-Resistant Gripper

Features

DT60 is a heat-resistant gripper that allows to grab and handle DT20 Glass Solder-Collector even when it is still hot.

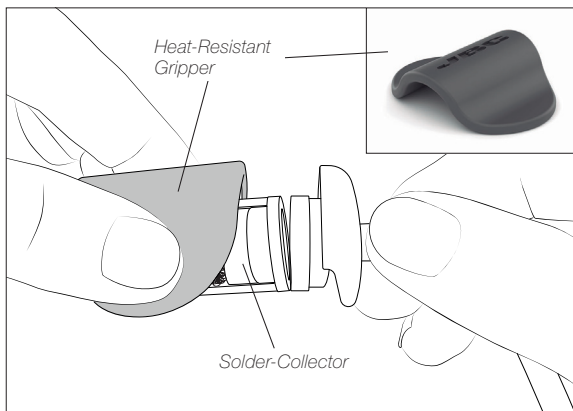

It makes replacing or cleaning some parts of the tool easier and safer.

www.jbctools.com

How to use

It is recommended to use the heat-resistant gripper to handle the solder-collector if it is still hot. The gripper's shape adapts perfectly to that of the collector.
