

Bottom Loading Water Dispenser

with Single-Serve Coffee Maker

A coffee brewer and water cooler in one

The ingenious Bottom Loading Water Dispenser with Single-Serve Coffee Maker is a ground-breaking beverage system that combines a single-cup coffee maker with a bottled water dispenser for the ultimate in convenience and clutter-free allure. Freshly brewed single-cup pods along with hot and cold water are available in an instant, all from the unit's five-gallon water bottle, which is housed discreetly in a handy bottom-load compartment.

Say goodbye to reservoir refills and hello to better-tasting coffee in a flash

- Five-gallon bottle eliminates the hassle of constant water reservoir refills
- Stored hot water is ready to brew when you are
- Bottled water makes better-tasting coffee and does away with tap water concerns
- No filters to buy or replace
- Single-serve system uses your favorite single-cup pods (including tea and hot chocolate!)
- Three cup sizes to choose from: 6 oz., 8 oz. and 10 oz.

Enjoy bottled water, served hot or cold with the press of a lever

- The quickest way possible to get hot water
- Steep tea, whip up a hot chocolate and make instant soup or oatmeal lightning fast
- Cold water is perfectly chilled for grabbing refreshing sips anytime
- Great-tasting bottled water makes staying hydrated and meeting water intake goals easy
- Perfect for filling cookware and pets' bowls too!

Reclaim your countertops and revel in a more organized ambience

- All-in-one unit replaces individual coffee makers, tea kettles and water dispensers
- Cleared countertops add workspace and a more orderly appearance to your kitchen
- Attractive streamlined design saves room and complements today's interiors
- Convenient storage compartment with removable tray on the top of the dispenser keeps single-cup brewer pods organized

Pamper your back and make replacement time a breeze

- Clever bottom-load design makes lifting and turning heavy water bottles a thing of the past
- Simply open compartment, remove empty bottle and slide new one into place

Bottom Loading Water Dispenser

with Single-Serve Coffee Maker

Technical Specifications:

Product Height: 43.5"

Product Width: 12.2"

Product Depth: 14.2"

Product Weight: 41 lbs.

Power Rating: 100-115V, 60Hz

Power Consumption: Hot 420W, Cold 80W

Compressor: Single phase

Refrigerant: R134a (36g)

Cold Reservoir Size: 3.5L

Cold Temperature: As low as 36°F

Hot Tank Size: 1L

High Temperature: As high as 195°F

All-in-One Unit

Replaces individual coffee makers, tea kettles and water dispensers

Child Safety

Ice-cold and piping-hot water with child-resistant safety feature

Bottom-Load Design

No more lifting and turning heavy water bottles
