

LILLÅNGEN

Bathroom furniture

Care

Wipe furniture clean with a damp cloth and a non-abrasive detergent, then wipe dry with a clean cloth. All wet marks should be dried off as soon as possible to stop moisture penetration.

The sink and faucet should be wiped clean with a damp cloth and a non-abrasive detergent.

The sink is resistant to most chemicals, except for strong acids and strong alkalis. Therefore never use scouring powder, steel wool or a detergent that is calcium-dissolving, contains alcohol or is abrasive.

Safety

Furniture must be fixed to the wall. Different wall materials require different types of mounting hardware. Use mounting hardware suitable for the walls in your home (not included).

Requires assembly.

With LILLÅNGEN series, you can make use of every square centimetre of your bathroom. It includes sinks in different widths and depths, cabinets with different functions and open shelves that allow you to mix open and closed storage. The sinks come with matching accessories, creating extra space for your most frequently used bathroom items. With the LILLÅNGEN series your tiny bathroom will be bigger than ever, in no time!

This is a reference guide created to better assist customers when purchasing products. While a high level of accuracy has been sought in its preparation, we cannot guarantee that there are no errors or omissions nor will we be bound by them. Availability may vary by store and prices are subject to change. Please see an IKEA co-worker or visit www.IKEA.ca for more information.

How to choose

How to choose

1. Start planning your bathroom by thinking about the wall space you have available for a sink cabinet and sink, since this is the centre of most bathroom activities. The LILLÅNGEN series comprises sink cabinets of different sizes and storage capacities.

LILLÅNGEN series is flexible so you can mix-and-match your sink cabinet together with open shelves. You can either have the sink cabinet as a combination of a full cabinet or in combination with an end unit — open shelf for more accessible storage.

If you want a different expression in your bathroom you can choose to combine LILLÅNGEN sink cabinets with VISKAN counter-top that is available in different colours and GUTVIKEN counter-top sink. IKEA bathroom counter-tops have been developed with special attention to quality, so they are water resistant, durable and will last a long time. They come in 2 different sizes that match LILLÅNGEN sink cabinets and end units perfectly creating endless possibilities. Choose the look that suits you and your bathroom best.

2. The LILLÅNGEN sinks have a smart edge, where you can keep your most necessary items close at hand. The deep sinks come with matching accessories such as a soap dish, towel hooks and tray — and the shallow version comes with towel hooks.

LILLÅNGEN sinks are made from porcelain. Porcelain sinks have a glazed finish and are easy to clean. They have excellent scratch resistance and are very durable.

All sinks come with a water trap and sink strainer. The water trap is flexible and can be connected to both washing machines and dish-washers.

3. You can find a wide selection of sink faucets at IKEA. Choose your faucet based on function and design. All faucets come with a sink strainer kit, with the exception of SALJEN and BROGRUND sensor faucet. All faucets at IKEA have a water-saving device that uses 50% less water but ensures that the water flow stays the same.

4. The sink cabinets can be mounted to the wall with or without supporting legs.

5. Now it's time for you to choose what to put above and around your sinks: mirror, mirror cabinet, high cabinet, high cabinet with mirror door, wall cabinet? Make your choice based on your bathroom storage needs and space. The combination possibilities are endless!

Finally, you can complete your bathroom with accessories from the ENUDDEN series. They are designed to match LILLÅNGEN so the look in your bathroom will be totally coordinated in colour and style.
