 Window panel C*1	 screws*4	 Hose clamp*2	 4inches Exhaust pipe*1
 Adhesive tape*1	 butterfly nut*3	 T bolt*3	 Filter screen*1

## STRUCTURE DIAGRAM AND COMPONENTS

## PRODUCT SIZE

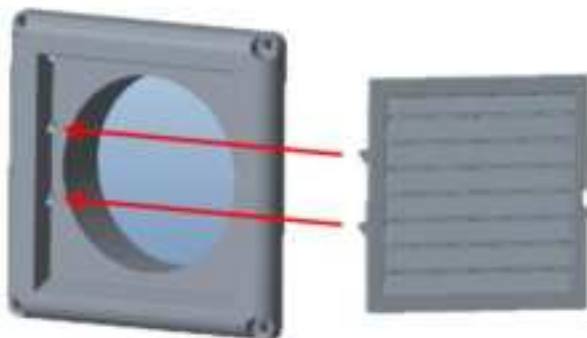

## INSTALLATION AND INSTRUCTION

**Connection:** We recommend using a metal 90 degree elbow (also known as a "right Angle elbow") on the back of the dryer to prevent the transition hose from being squeezed against the wall. This elbow needs to be purchased separately.

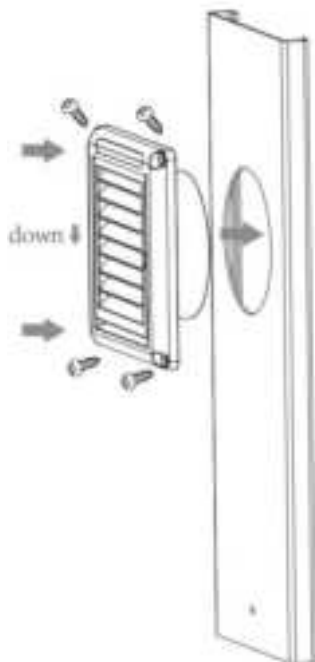

1.First, put the filter screen into the louver bracket, then insert the two

protrusions of the louver into the holes in the bracket, and finally press the louver into the bracket.

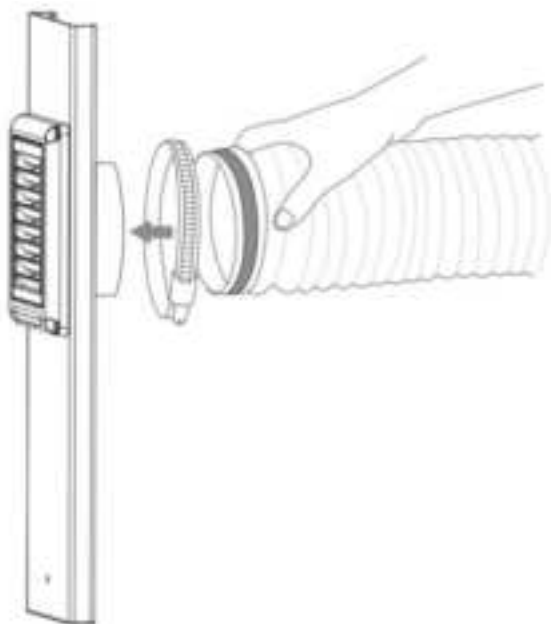

2. Use four screws to secure the shutter to window panel A.

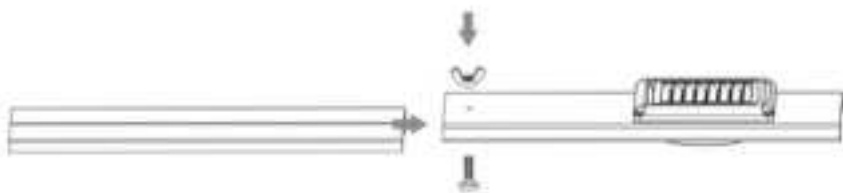

Attention: Make sure the fan blades are facing downwards, otherwise water will seep back in when it rains.

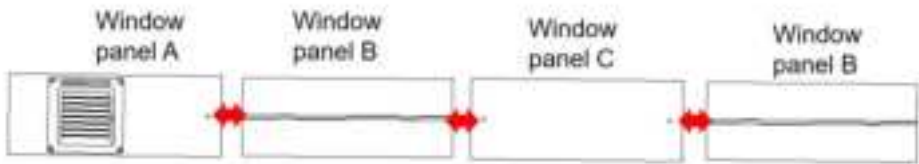

3.Connect the exhaust pipe of the dryer, tighten the screw of the hose clamp to connect the exhaust pipe with the bracket.

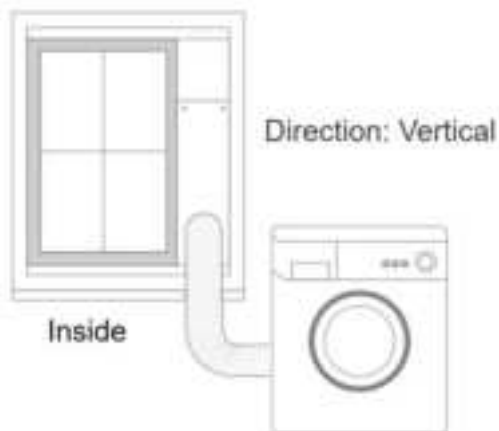

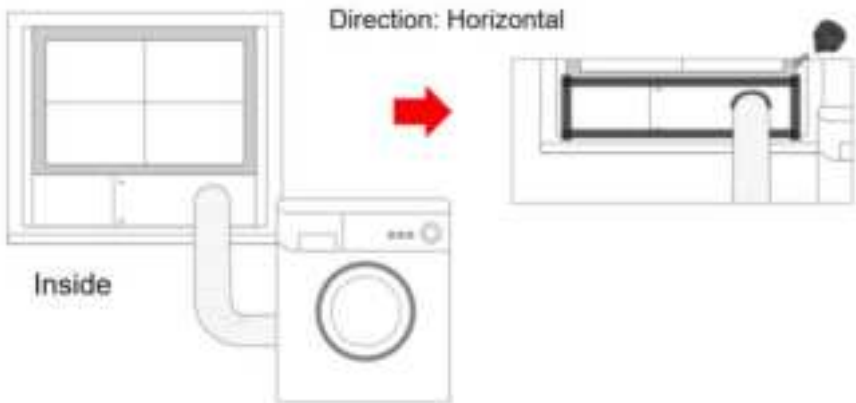

3.Measure the window frame size first, then adjust the length of the window panel, and then assemble the required window panel using T-bolts. To match the window frame size, you can cut the window panel short

**Note:**The installation order of the window panel is to insert the window panel B into the window panel A, the window panel C to cover the window panel B, and the panel B into the panel C.

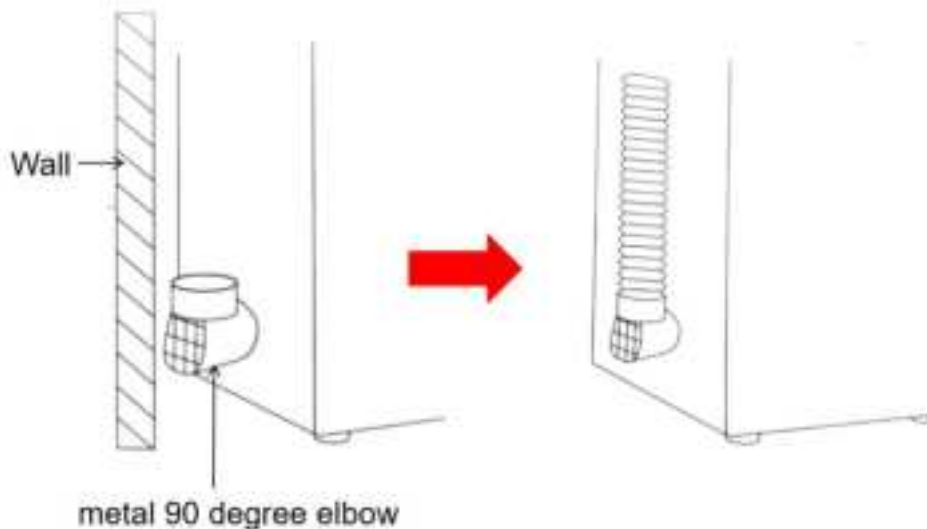

4. Fix the window panel to the window, seal the gap between the window and the window panel with aluminum foil tape and the gap between the exhaust pipe and the louver bracket. The sliding position of the window can be sealed with rubber tape; aluminum foil tape needs to be purchased separately.

**Attention:** Whether installed vertically or horizontally, make sure the blades are facing down, otherwise water will seep in during rain

5. If your dryer is close to the wall, we recommend that you purchase a metal 90 degree elbow for yourself and install it on the dryer to avoid damage and poor exhaust due to folding of the exhaust pipe.

**Note:** Clean the filter screen with a brush once every 3 to 5 batches of clothes have been dried.

**Manufacturer:** Shanghai muxinmuyeyouxiangongsi

**Address:** Shuangchenglu 803nong11hao1602A-1609shi, baoshanqu, shanghai 200000 CN.
