

QUESTIONS & ANSWERS

- How to adjust display brightness

There is no display brightness adjustment

- What is the rms output at 8 ohms from 20 hz to 20,000 hz 2 channels driven and the THD at this output

500 Watts RMS @ 8ohms

- Can the Bluetooth work with headphones?

No. Only with Phones, Tablets, and Laptops

- Can you list the compatible universal remote that will interface with PT694BT.5

Universal remote will not work with the unit.

- was watching n listening to show n sound through PT694BT. Then all of sudden display screen starts flashing PROTECT. And sound stops. I've turned the product on n off from front of machine and also unplugged it few times but screen still comes on PROTECT. How can I fix? I bought this may 23,2020 on Amazon.

Unit needs to be sent for repair. Please make sure all speakers are within 4 to 8 Ohms and 1 speaker per terminal only

QUESTIONS & ANSWERS

- Will Bluetooth speakers work with this model?

No. As they are both receivers

- Can speakers and sub be hooked up with bare wires

Yes, this model has that option
