9. Adding Game Methods

There are many ways to copy games:

The First Type:

The first way, if you use the memory card equipped with the game console, you can directly insert it into the win10 computer,
find the data mobile hard disk, and directly copy the game to the corresponding emulator in the roms folder.

**The second Type:** (network connection)

(1) Please connect the device to the network first.

Ⓑ BACK ⊹ CHOOSE

In the example below, the IP address is: 10.10.10.117 In the computer resource manager, enter \\10.10.10.117 and press Enter.

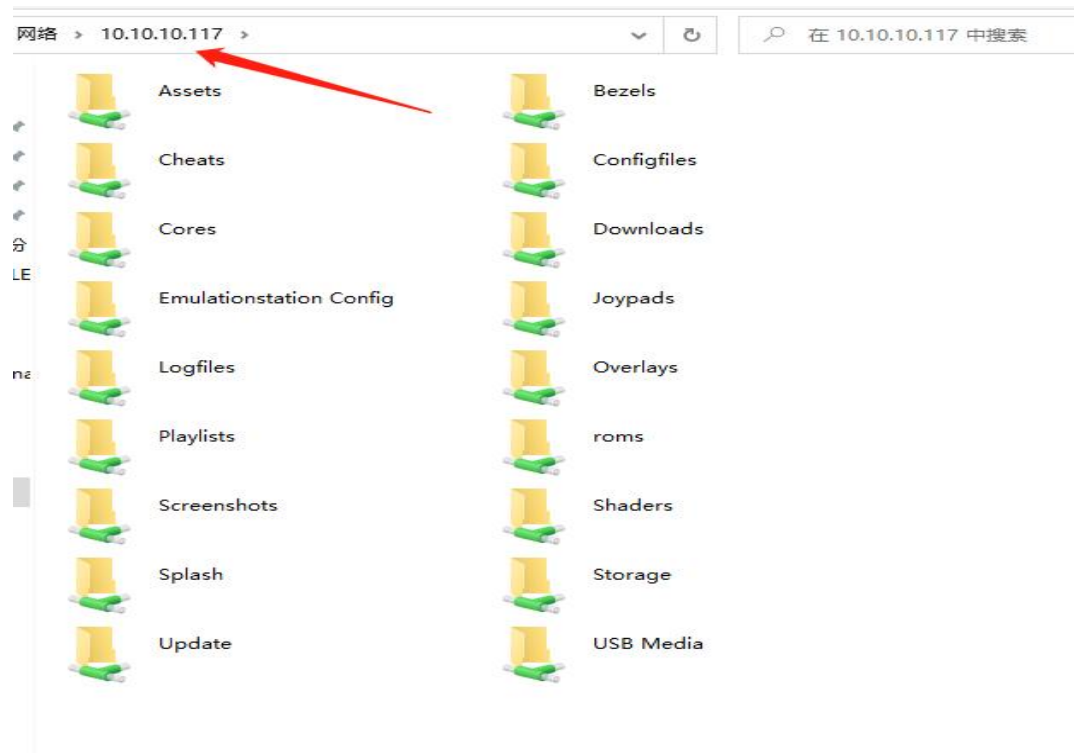

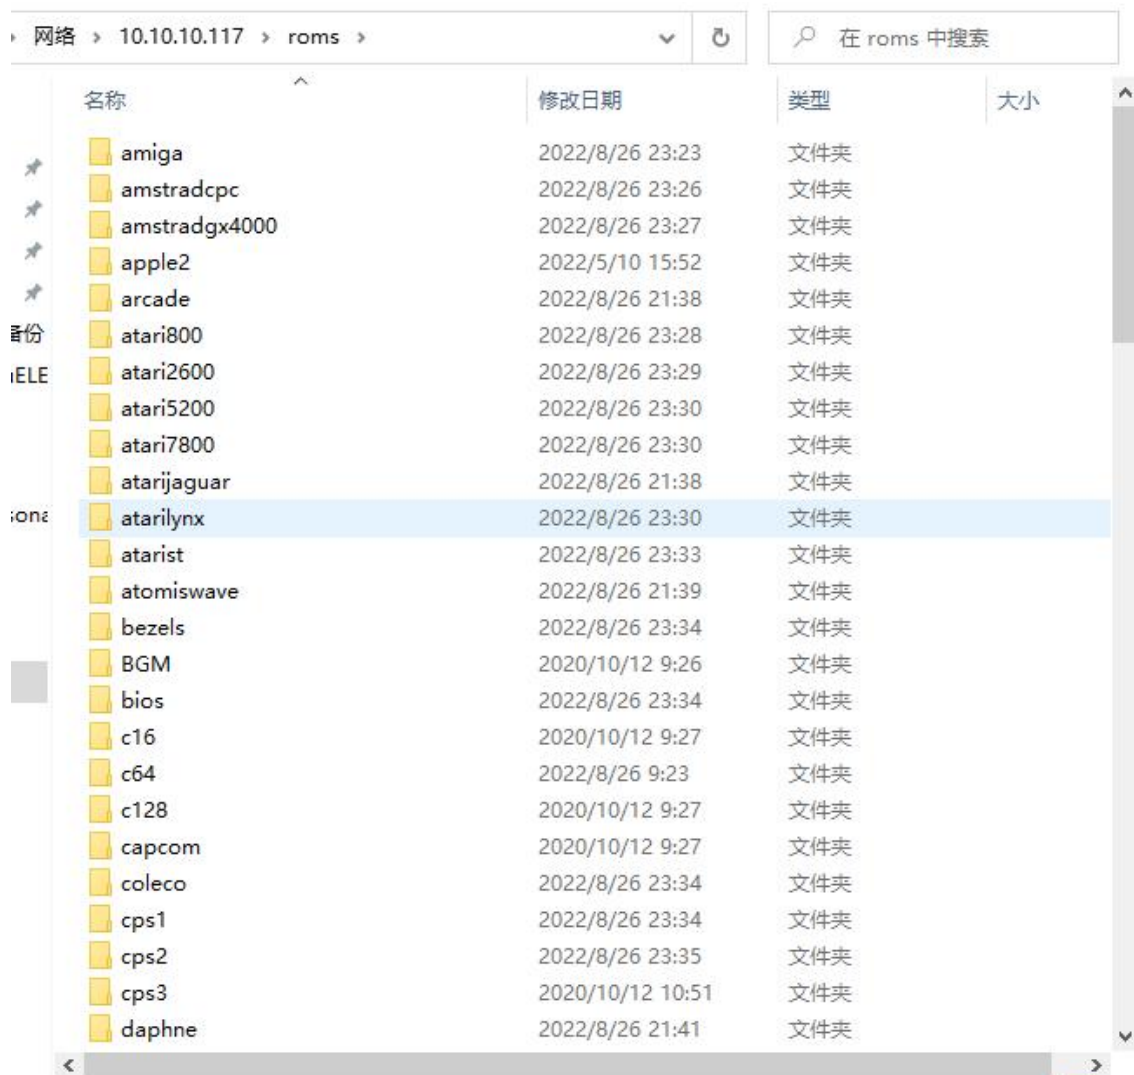

If prompted to enter a user name and password, the default user name: root, password: emuelec.

(2) Open the Storage/Roms Folder:

You can see many sub folders, each of which corresponds to a simulator game, and the corresponding game needs to be placed in the corresponding folder to be correctly identified

(3) Example of the folder list corresponding to the simulator:

Arcade-FBA format	roms\arcade\fba
Arcade-MAME format	roms\arcade\mame2003
SNES	roms\nes
PSP	roms\psp
PS1	roms\psx
NES/FC	roms\nes

Note: The system distinguishes games by folder name, do not modify any directory structure, just copy the game files to the folder of the corresponding simulator.

10. Change Game Emulators:

There may be multiple emulator files. If individual games cannot be opened or you want to try the effects of other simulators, please use the following methods to change the simulator:

Select the game you want to change the emulator--->>Long press the B key--->>Game settings menu--->>Advanced Game Options--->>Emulator--->>Choose the right emulator
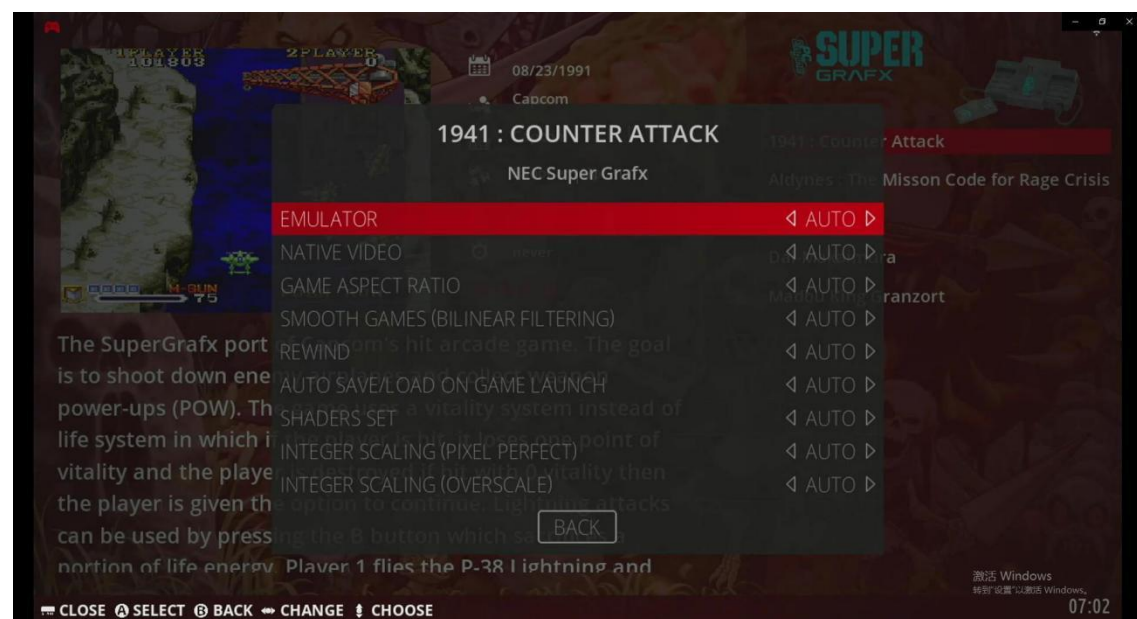

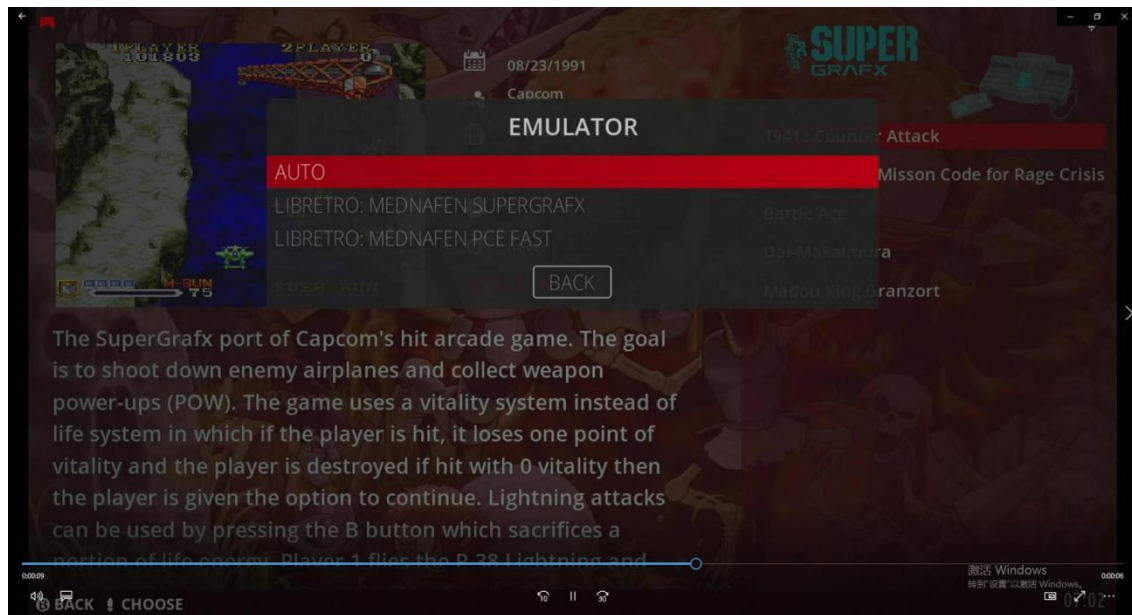

11. Precautions

The resolution of the game system is adaptive, do not change the resolution of the game system.

It is not recommended to upgrade the game system by yourself

Do not store the machine in a dusty, humid, high temperature and strong magnetic environment.

It is forbidden to use in high temperature and high humidity environment (this product is not waterproof).

When you carry this machine out, participate in high-intensity sports such as running, climbing, etc., please fix the machine firmly on your body or backpack to avoid damage caused by   falling from a height or squeezing heavy objects.

When the power adapter is fully charged, please do not touch the power video unit with wet hands to prevent electric shock.

Some games of this product contain violent scenes, please be careful with children before using them. Parents are also requested to do a good job of supervising their children and not to indulge for a long time.

Do not disassemble the machine without authorization.
