Packing list

After open packing list box, please check product body and accessories as below:

Cameras1   WiFi antennas1

Power adapters1   Accessories kit x1   Tail line waterproof Kit x1

Positioning paper x1   Quick manuals1   Qualified certificates1

Interface

Before use, please pay attention to the interface and button of camera.

Power interface

WiFi antenna

White lamp

Camera lens

Infrared lamp

Speaker

MIC

TF card slot/Reset button
(Open the bottom cover with a screwdriver and you can see it)

Note:
Reset button : Long press to restore the camera to factory settings.

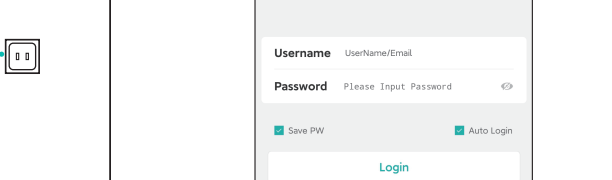

Operation

1.Download APP

Tips one: Scan QR code.

Name

Tips two: Search "iCSee" in the App store and download.

2.Power on

Use the power adapter to connect the camera power interface and the power socket, As shown in the figure below.

Note:
If you need local storage, please install the memory card firstly, then power on the device (the memory card does not support hot swapping, please plug and unplug the memory card when the device is powered off). Cloud storage is recommended, which is safe and convenient. Details See "Step 4" for operation.

3.Camera configuration

1. Wireless network configuration:

01.User login

- Connect your phone to WiFi.
- Open the iCSee app, register an account and login(Figure 1).

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following
two conditions: (1) this device may not cause harmful interference, and (2) this device must
accept any interference received, including interference that may cause undesired operation.
Any changes or modifications not expressly approved by the party responsible for compliance
could void the user's authority to operate the equipment.
NOTE: This equipment has been tested and found to comply with the limits for a Class B
digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide
reasonable protection against harmful interference in a residential installation. This
equipment generates, uses and can radiate radio frequency energy and, if not installed and
used in accordance with the instructions, may cause harmful interference to radio
communications. However, there is no guarantee that interference will not occur in a
particular installation.
If this equipment does cause harmful interference to radio or television reception,
which can be determined by turning the equipment off and on, the user is encouraged to try t
o correct the interference by one or more of the following measures:
-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different
from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.
To maintain compliance with FCC's RF Exposure guidelines, This equipment should be
installed and operated with minimum distance between 20cm the radiator your body:
Use only the supplied antenna.
