

AQ041 USER MANUAL

AQQA Multifunctional LED Aquarium Light

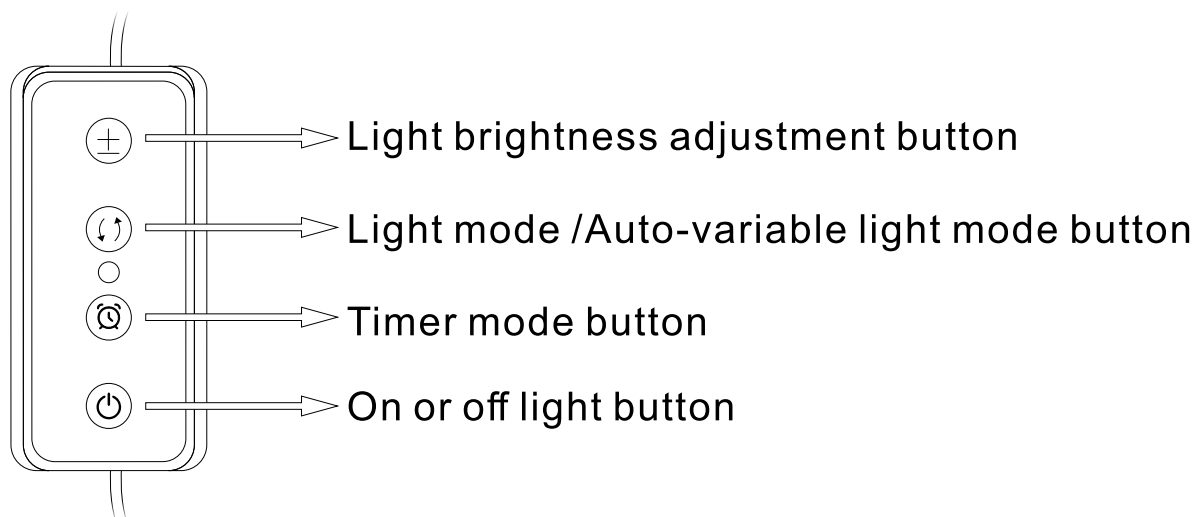

Product Description

AQQA aquarium automatic variable LED light, using high color rendering index, large chip trichromatic LED white light, imitating the sun's spectrum, more conducive to the growth of aquatic plants, making the fish more colorful. Aviation-grade aluminum alloy shell is conducive to rapid heat dissipation of LED light, making this product long life, durable, energy-efficient, high light efficiency, and not prone to light decay phenomenon. 14 light modes and an automatic light cycle mode can be selected, with a timer switch cycle, easy to solve the trouble of switching on and off the light every day. A variety of light brightness can be selected. The extension of the bending bracket can adjust the length and is easy to install.

**** This product is not waterproof, please do not get wet ****

If you have any problem, please provide your amazon order id (amazon invoice) and shipping address by E-mail: service@aqqapet.com.

1.PRODUCT FEATURES

- 1.14 light modes and an automatic light cycle mode can be selected
- 2.High color rendering index, large chip trichromatic LED white light
- 3.Aviation-grade aluminum alloy shell is conducive to rapid heat dissipation of LED light
- 4.A timer switch cycle, easy to solve the trouble of switching on and off the light every day
- 5.A variety of light brightness can be selected. The extension of the bending bracket can adjust the length and is easy to install

2.PRODUCT SPECIFICATIONS

Model	AQ041-15W	AQ041-18W	AQ041-22W	AQ041-24W	AQ041-28W	AQ041-30W
Input voltage	AC100-240V					
Output voltage	DC12V					
Power	15W	18W	22W	24W	28W	30W
LED quantity (PCS) LED	30	36	42	48	54	60
Light size	10.62" (27CM)	16.53" (42CM)	22.44" (57CM)	31.49" (77CM)	33.31" (87CM)	46.06" (117CM)
Application	11.81"~15.74" (30~50CM)	17.71"~26.37" (45~67CM)	23.62"~32.28" (60~82CM)	31.49"~40.15" (80~102CM)	35.43"~44.09" (90~112CM)	47.24"~55.90" (120~142CM)
Power cord	4.92+1.64ft (1.5+0.5m)					

3.INSTRUCTIONS

- A. Open the package of the light and check if the parts are complete. If parts are missing, please contact the seller.
- B. Retract the bracket gently to the matching length according to the condition of the fish tank. Connect the 12V DC power adapter to the light first, then plug the adapter into the socket.

C. ⊕ Light brightness adjustment button: Press the button to adjust the 5 levels of light, light brightness is a cyclic adjustment stat. For example: 10% -- 25% -- 50% -- 75% -- 100% -- 10% -- 25% -- 50% -- 75 -- 100%

↻ Light mode button : Press the button to adjust 14 light modes and an automatic light cycle mode can be selected

14 light modes: Light colors are: (all white) - (blue) - (red) - (green) - (white on both sides) - (purple) - (cyan) - (yellow) - (white and blue) - (red and white) - (green and white) - (purple and white) - (cyan and white) - (yellow and white), in accordance with the above order in turn cycle adjustment.

(1) Auto-variable light mode: Press and hold this button for 3 seconds in any of the lighting modes

↻ When the light turns to full white, it means the auto-variable light mode is on. Automatic cyclic light changes that each light color light 4 seconds, automatically switches to another light color, the light will be cyclic switching in turn. A short press of this button will exit the auto-variable light mode.

(2) Note: The brightness of the light cannot be adjusted in auto-variable light mode.

⌚ Timer mode button : Press the button to adjust. There are 3 timing modes, 6H, 9H and 12H.

If choose the 6H mode, the yellow indicator is on.

If choose the 9H mode, the green indicator is on.

If choose the 12H mode, the red indicator is on.

When all indicators are off, it means to exit the timing mode.

Select 6H: indicates that the LED will turn off after 6 hours. It will restart at the same time of the day and cycle every day.
Select 9H: indicates that the LED will turn off after 9 hours. It will restart at the same time of the day and cycle every day.
Select 12H: indicates that the LED will turn off after 12 hours. It will restart at the same time of the day and cycle every day.
Note: Memory function refers to all the timing options, what color and brightness the lights are before they are turned off, and all options and values will remain the same after they are turned on again.

⏻ Press this button to turn the light on or off

4.ATTENTIONS

- ✓ Please read this user manual carefully before using it and follow it strictly.
- ✓ Please keep the switch away from water since it is not waterproof.
- ✓ Please keep the light away from flammable items to avoid accidents.

- ✓ Please unplug the power and contact the seller if the light is not working properly. ****OPENING WILL VOID WARRANTY****
- ✓ Please unplug the power before maintenance.
- ✓ Please mind that the temperature range for the light is between 23°F~113°F (-5°C~45°C).

5.WARNING

To avoid possible electric shock, do not immerse the switch in the water. If the switch falls into the water or becomes wet, do not touch it until you have unplugged it. Basic safety precautions that should be observed are as follows:

- 1.Read and follow this user manual strictly.
- 2.DANGER- To avoid possible electric shock, special care should be taken since water is employed in the use of aquarium equipment. For each of the following situations, do not attempt to repair yourself. Instead, return the light to an authorized service facility for maintenance or discard it.
 - A.If the light falls into the water, DO NOT touch it. First unplug it, then retrieve it. If electrical components of the light get wet, unplug it immediately.
 - B.Carefully examine the light after installation. It should not be plugged in if there is water on parts that not intended to be wet.

C. Do not operate the light if it has a damaged cord or plug, is malfunctioning, dropped or damaged in any manner. The power cord of this light cannot be replaced. If the cord is damaged, the light should be discarded.

D. To avoid the possibility of the light plug getting wet, position the aquarium and its stand to one side of a wall mounted outlet to prevent water from dripping onto the outlet or plug. A “drip loop”, shown in the figure below, should be arranged by the user for each cord, which connects the light to the outlet. If an extension cord is used, the “drip loop” is the part of the cord below the level of the outlet or the connector that prevents water traveling along the cord and coming in contact with the outlet. If the plug or outlet does get wet, DO NOT unplug the cord. Disconnect the fuse to the circuit breaker that supplies power to the light. Then unplug and examine for the presence of water in the outlet. If you are not sure, consult a certified electrician.

3. Close supervision is necessary when the light is used near children.
4. To avoid injury, do not contact moving or hot parts.
5. Make sure the light is securely installed before operating it.
6. Read and observe all the important notices on the light.
7. If an extension cord is necessary, a cord with a proper rating should be used, such as rated amperes or watts. A cord rated for less amperes or watts than the appliance rating may overheat. Care should be taken to arrange the cord so that it will not be tripped over or pulled.
8. The light is intended FOR HOUSEHOLD USE ONLY.
9. SAVE THIS USER MANUAL.

6. ONE YEAR LIMITED WARRANTY

This product **MUST** be purchased from an authorized AQQA reseller. Visit our website for a list of authorized resellers. AQQA warrants this product against defects in materials and workmanship for ONE(1) YEAR from the date of the original retail purchase and is none-transferable.

Warranty on all products, including aquariums. But it is limited to the replacement of the products and does not cover fish loss, personal injury, property loss or direct, incidental or consequential damage caused by using this product.

Note: AQQA's One-year Limited Warranty does not cover damage caused by the followings: improper installation, saltwater corrosion, electrical surges or modifications.

If you discover a defect, please contact AQQA, who will, at its option, repair or replace the product at no charge, provided that you return it during the warranty period. A copy of the bill of sale is required as proof of the original purchase date in the event of the product needing repairs within the warranty period. AQQA does not warrant any products that are AQQA's.

This warranty does not apply if the product has been damaged by accident, abuse, misuse or misapplication, or modified without the written permission of AQQA.

This warranty does not apply if the product has been damaged by accident, abuse, misuse or misapplication, or modified without the written permission of AQQA.

7.DISPOSAL

Do not dispose this product as unsorted municipal waste. Collection of such waste separately for special treatment is necessary. This product has to be disposed at an authorized place for the recycling of electrical and electronic appliances rather than being disposed together with the domestic waste. Collecting and recycling waste is a way of saving natural resources. So, please consult with your local seller to make sure the product is disposed in an environmentally friendly way.
