

Wavetube Double Counter Setup

1.) Assemble each frame by matching numbers and snapping together.

2.) Bolt the frames together using the supplied bolts and wing nuts. Be sure spacer nut is installed between the frames.

3.) Install the graphic by pulling it on from the bottom up and zipping around the top. Be sure to align holes in graphic with the holes in the frame.

4.) Set counter top on the frame and secure by placing bolts through the graphic and frame. Secure with wingnut from inside of the frame.
