## MASTER Sectional Garage Door

MASTER Sectional Garage Door offer a comprehensive range of sectional overhead door options. MASTER Doors are available in galvanized steel with high grade polyster coating on both sides. MASTER doors feature 40mm and 50mm thick section, with triple-layer construction and superior polyurethane insulation. Item SF40S is Finger protection panels with a continous thermal break and air seal between sections. Featuring engeneered components and fittings the entire door is designed to provide reliable performance and years of service.

As the garage door is an integral part of the home's design, architecture and security, our garage door features a range of styles, colors and options that will be the perfect fit for your home.

- Max available panel length: 12M
- Available panel width: 440 - 550mm, adjusted
- Available steel thickness: 0.3mm - 0.6mm
