F03431

UNIVERSAL 4+N VEO TELEPHONE

Reference

3431

EAN

8424299034317

Description.

Description

- Audio terminal. Installed in homes, it allows communication with the outdoor panel and opening the door.
- A new concept of telephone for the home. An integrated design, in line with new trends and lifestyles, simple and functional that combines quality and design.
- Its purity of lines, technology and features make this equipment an elegant and perfect element for any home.
- It is made of high-impact ABS plastic, with an easy-to-clean textured finish and ultraviolet protection for greater light resistance. Wall installation and easy fixation.
- Recommended in small/medium-sized buildings (up to approximately 50 neighbors), with several entrances and a concierge center. For urbanizations with general entrance and inner blocks.
- Conventional System: uses common wires for the entire installation plus 1 call (or call return) wire per home.
- Cabling:
 - Intercom: 4 common wires + N (1 call wire per home).
- Maximum installation distance depending on the section of the cable used (consult technical manuals)

Technical Details

- It can replace most standard telephones from other brands, both buzzer and electronic. Also old Fermax models.
- Match the connections of the Universal Telephone with those of the telephone to be replaced according to the equivalence table included with the equipment.
- Includes:
 - Volume regulation potentiometers in both directions.
 - Device for electronic call or buzzer configuration.
 - Device for configuration of common mass or separate masses.
- The terminal incorporates a magnet in the earpiece area that allows the arm to be well hung and fixed to the base.
- This prevents the arm from falling during hanging, damaging the wall and also prevents it from causing damage to the installation due to being incorrectly hung.
- Screwable on the surface.
- System power:
 - Audio: 12 Vac
 - Video: 18 Vdc
- Door opener button.
