Introduction

Thank you for choosing to purchase this quality product. To minimise the risk of injury, we ask you to always take some basic safety precautions when using this product. Please read this operating manual carefully and make sure that you understand it. Keep these operation instructions in a safe place.

Notes

- All presses of this type cannot press entire fruits. A mash (heavily chopped fruit) must be produced, otherwise a successful pressing process is not possible.
- A wine or fruit press cannot be compared to a juice extractor. Both are completely different devices. Grapes, for example, cannot be processed in a juicer because the seeds are destroyed and bitter substances released. A fruit press is the only press that leaves the pits intact so that the juice can be processed into wine.
- Apples, pears, and other types of fruit must be mashed before pressing. Whole, half, and quartered fruits cannot be pressed. Spindle presses are not designed for this.

Quantities

The components A, B, C, D, H, J, K, M, and N are available once each.

Modell	Part E (pcs.)	Part F (pcs.)	Part G (pcs.)	Part I (pcs.)	Part L (pcs.)
51362	2	20	2	2	43
51363	2	25	2	2	53
51364	2	25	2	2	53
51739	3	25	2	4	78

Assembly

1. Assemble all wooden parts **F** and the red support rings **E** with the help of the screws **L** included. Make sure that all bevelled edges point in the same direction.

After screwing all parts, place the bucket onto a level surface to check if all parts have the same height and are properly fixed.

2. Screw the pressing plate **D** onto the wooden part **H**.

3. First assemble the bars **M** and **N** and screw them to the base plate **A**.

4. Place the wooden bucket with the bevelled edges pointing upwards to the base plate assembled and cover it with the pressing bag **K** before you go about pressing.

5. Put the mash into the wooden bucket and apply the both wooden plates **G** and wooden blocks **I**. After this, apply the pressing plate (**D, H**).

6. Place the plastic ring **J** onto the pressing plate, then attach part **B**. Insert the red rod **C** in one of the openings of part **B** and press the fruits by turning the handle clockwise.
