## Symbols glossary

---

LED display: to show programmes, functions and options selected and the time to the end of the cycle.

Fast freezing: The fast freezing function brings the temperature of the compartment down when activated a few hours prior to usage.

LED interior lighting: is a more energy efficient and long lasting way of illuminating the interior of the appliance.

No Frost: The No Frost and Frost free systems prevent ice from forming so that no defrosting is required.

Economical mode: Analyzes fridge functioning during the activation and optimizes the operating cycle in order to reduce power consumption.

Power saving mode: The power saving mode allows you to disable the refrigerator and keep the freezer working.

Smeg's evolution towards more intelligent and eco-friendly models has led to the choice of Inverter technology, which significantly reduces consumption.

## Benefit (TT)

---

### **No-Forst Cooling System**

The No Frost system prevents the formation of ice and contributes to better preservation of food in the refrigerator

### **Reversible Door**

Reversible door ensures flexible installation and space optimisation

### **Internal illumination**

Interior lighting for perfect visibility of the drawers in the freezer compartment

### **External Handle**

The external handle ensures practicality and ease of use of the freezer

### **R600a Refrigerant Gas**

Environmentally friendly R600a refrigerant gas contributes to rapid cooling with lower energy consumption
