■ When hanging the sound bar on a wall

The sound bar has a wall hook hole to hang it on a wall. When hanging it on a wall, position it in a flat, vertical position.

To ensure safety, request a contractor perform the mounting work when mounting onto a wall.

NOTE

- In order to use the unit safely, do not place items on or hang items from the unit.
- Be sure to fix connection cables to the wall to ensure that cannot be pulled or tripped over causing this unit to fall. Check that the unit is mounted safely after the mounting work is complete.
- Also, periodically check the safety of this unit and whether there is a possibility that the unit may fall.
- When hanging it on a wall, position it so as to show the microphone hole on the top panel of the sound bar. If you position it so as not to show the microphone hole, the microphone may not pick up your voices talking to Alexa. Be careful of the positioning because the TV on the wall may hide the microphone hole.
- Polk cannot accept any responsibility for damage, injury or accidents caused by problems with the mounting location or mounting method.

- When hanging it on a wall, use the included wall mount template.

[How to use the wall mount template]

Cautions on Installation

When mounting the speakers on a wall

- The speakers can be mounted on a wall using the keyhole hook on its rear panel.
 - When you mount the speakers, be sure to install them properly and securely.
1. Screw in one self-tapping screw (commercially available, 0.20 inch / 5 mm to 0.24 inch / 6 mm diameter) into a wall that has sufficient strength to support the weight of the speaker, or into reinforcing material on the wall.
 2. Hook the keyhole hook on the back of the speaker onto the head of the self-tapping screw.
- 
- Check that the head of the self-tapping screw hooks securely into the keyhole hook hole.
 - Do not attempt to install this product onto a wall made of material that may crumble easily, such as mortar or decorative plywood. Doing so may result in the screw pulling out and speaker falling, causing damage to the speaker or injury.
 - Do not install the speaker using other methods such as nails or double-sided tape. The nails may become loose due to vibration or the double-sided tape may peel off due to prolonged use, causing the speaker to fall.
 - Be sure to fix the cables in place so that they cannot be pulled or tripped over by accident.
 - Be sure to check that the product is safe after installation. Please note that we cannot accept any liability for accidents, etc. that occur as a result of where or how this product is installed. Wandmontage der Lautsprecher

- Mit Hilfe der Schlüsseloch-Aufhängung auf der Rückseite können die Lautsprecher an einer Wand montiert werden.
 - Achten Sie bei der Montage der Lautsprecher auf die ordnungsgemäße und sichere Installation.
1. Drehen Sie eine selbstschneidende Schraube (im Handel mit einem Durchmesser von 5 bis 6 mm erhältlich) in eine Wand, deren Stärke für das Gewicht des Lautsprechers ausreicht, oder in ein Verstärkungsmaterial an der Wand.
 2. Führen Sie die Schlüsseloch-Aufhängung an der Rückseite des Lautsprechers über den Kopf der selbstschneidenden Schraube.
- 
- Überprüfen Sie, ob der Kopf der selbstschneidenden Schraube sicher in der Schlüsseloch-Aufhängung sitzt.
 - Versuchen Sie nicht, dieses Produkt an einer Wand aus leicht bröselndem Material zu installieren, z.B. Mörtel oder Sperrholz. Andernfalls kann sich die Schraube lösen und der Lautsprecher herabfallen, wobei es zu Schäden am Lautsprecher oder Verletzungen kommen kann.
 - Verwenden Sie für den Lautsprecher keine andere Installationsmethode, wie Nägel oder doppelseitiges Klebeband. Die Nägel können sich durch Vibrationen lösen und das doppelseitige Klebeband kann nach längerer Verwendung abblättern, so dass der Lautsprecher herabfällt.
 - Bitte fixieren Sie die Kabel so, dass sie nicht unabsichtlich gezogen werden können und dass niemand darüber stolpern kann.
 - Vergewissern Sie sich nach der Installation, dass das Produkt sicher ist.
