Crown takes an integrated approach to your material handling needs

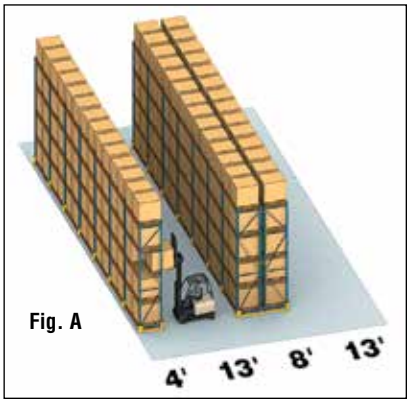
Crown material handling specialists can help you find solutions that improve throughput, enhance efficiency and reduce costs. Our associations with quality manufacturers and suppliers ensure a comprehensive selection of material handling products. No matter what material handling challenges you face, Crown has the material handling expertise and resources to deliver solutions that give you a distinct advantage.

One of the most common material handling challenges is the need to maximize space and productivity. Crown specializes in warehouse design that enables the lift truck and rack to work as a system. A careful analysis enables Crown material handling specialists to save you valuable square footage and reduce the time required to store and retrieve products.

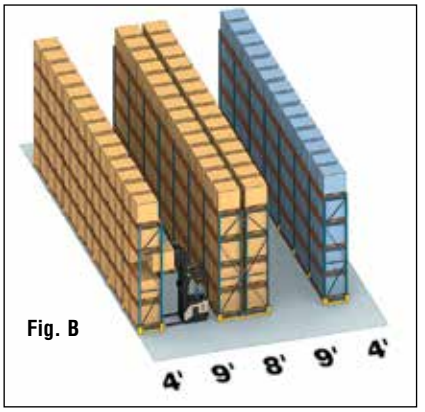
Choosing the right rack system is one way to make a significant difference. Your local Crown branch can help you determine the ideal solution based on your individual needs and the benefits you wish to achieve.

With Crown, you'll benefit from a full range of solutions with the flexibility to choose products from quality manufacturers and suppliers based on your unique requirements.

Many facilities install selective rack systems, while others choose rack systems integrating combinations of double-deep, drive-thru, cantilever, push-back, flow-thru racks and other options. The type of lift truck also determines how effectively you can maximize space and improve your material handling.



Selective Rack
Counterbalanced Lift Truck



Selective Rack
Rider Reach Truck
33% more storage over Fig. A

Variable truck and aisle

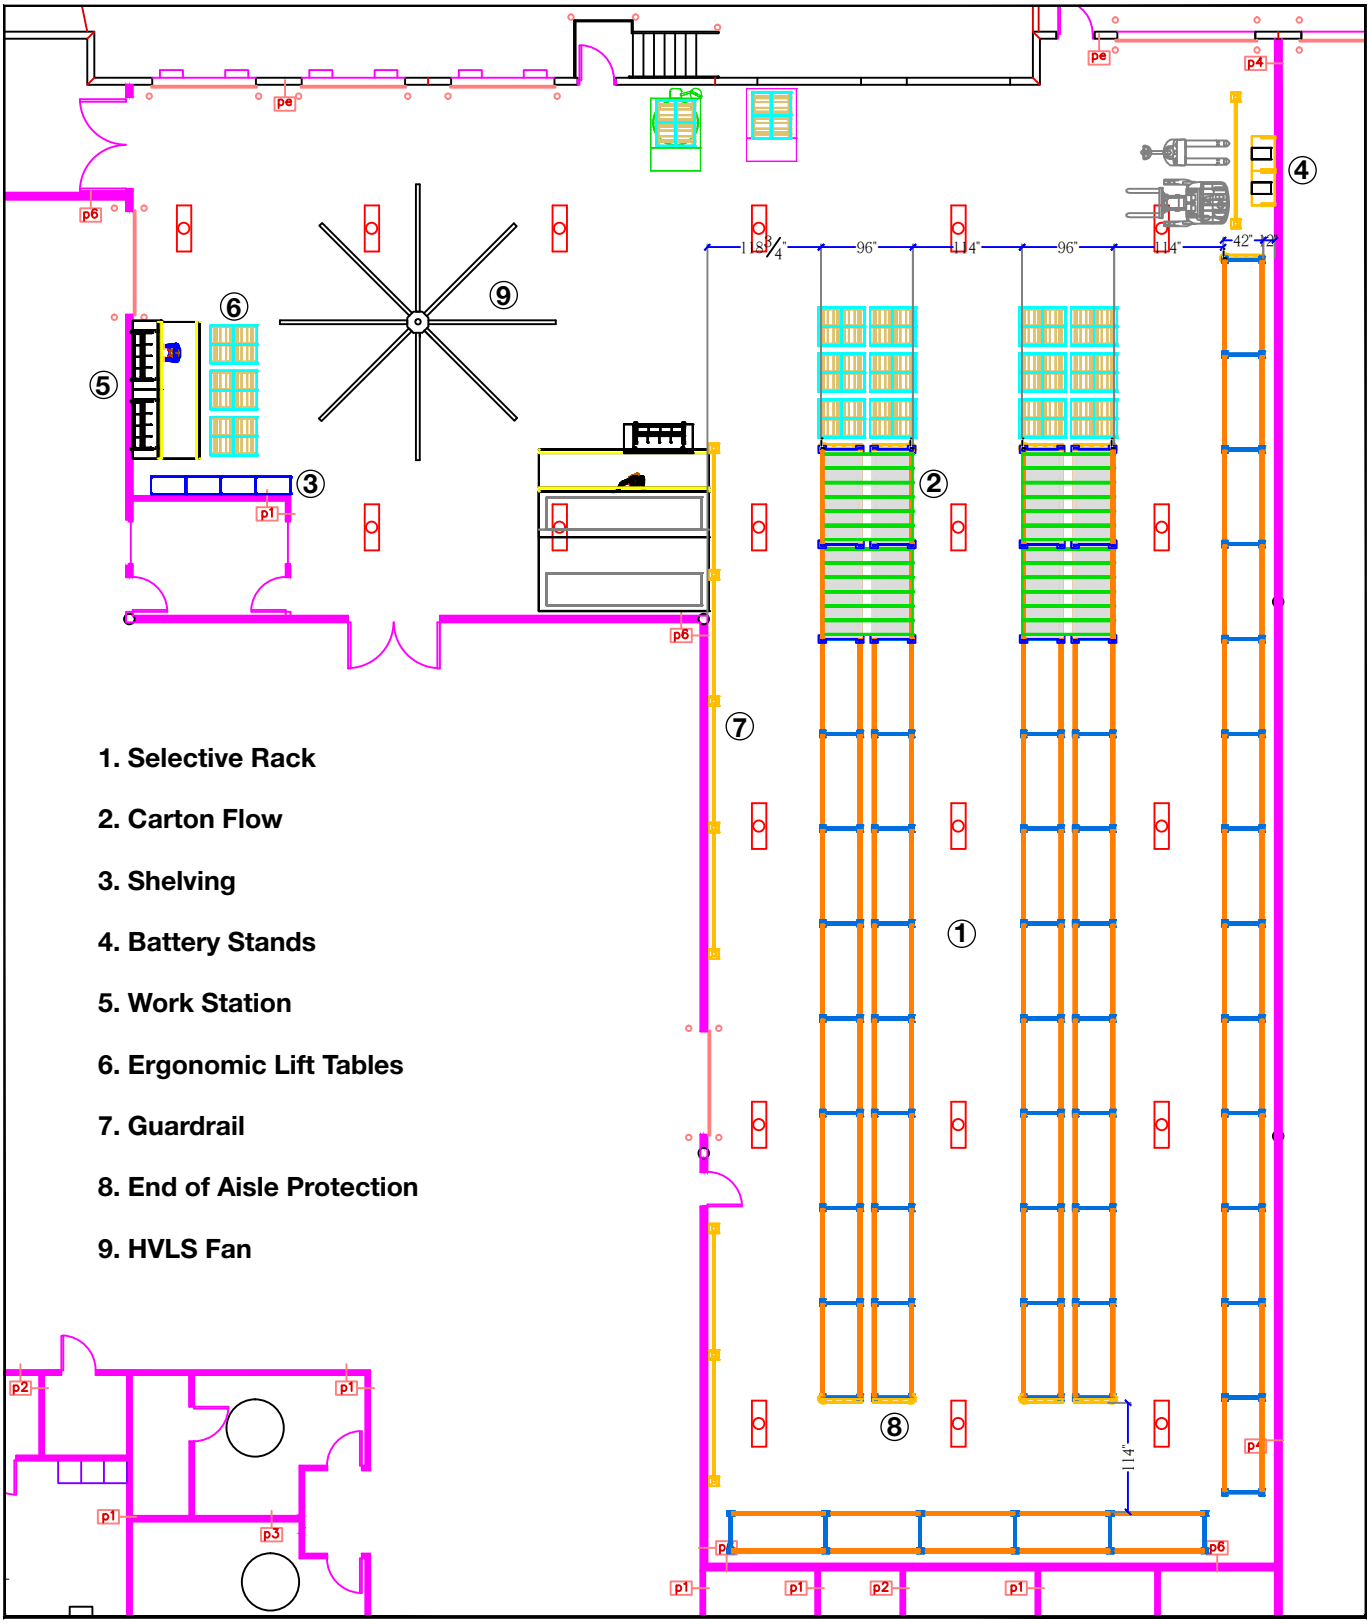
Double-Deep Rack
Double Reach Lift Truck
8.5'-11' aisle width

Let us help you design, plan and install your next warehouse project.



Innovation at work; see the results …

Before **After**

Vertical space was utilized for handling long loads with a Crown SP 3500 Series Stockpicker and cantilever rack.

A new 85,000 sq. ft. facility transformed with customized racking for 10,334 pallet positions. Designed for efficient material handling using Crown's RM 6000 Reach Trucks, RC 5500 Stand-Up Counter-Balanced Trucks, and PC 4500 Center Control Pallet Truck.

Very narrow aisle cube utilization for low volume picking. This electronics company gained an additional 80,000 cu. ft. of storage by going up. The shelving system is over 18' high and Crown SP 3500 Stockpickers are used to pick and fill orders.

Before

After

A paper company in Massachusetts added 60,000 sq. ft. to their facility to house more than 5,800 additional pallet positions. The new distribution center utilizes 300" Crown RM 6000 Series Reach Trucks, 270" SP 3500 Stockpickers, to case pick orders and RC 5500 Stand-Up Counter-Balanced Trucks in the dock area to receive and ship product.

Instead of expanding the building, this customer incorporated a modular office above and below a work platform. The end result: three offices and a new training room.

A party rental store added an additional 10,000 square feet of storage by going up. The shelving system is over 18' high and uses Crown SP 3500 Stockpickers to fill orders.

Pallet Trucks

Hand Pallet Trucks

Recognized for their exceptional versatility and durability, hundreds of thousands of Crown hand pallet trucks are in use around the globe today. Our hand pallet trucks demonstrate the Crown commitment to quality, offering years of productive use at a lower total cost of ownership.

Walkie Pallet Trucks

Crown walkies are considered the workhorse of their operations by many customers. Designed for exceptional maneuverability, precise control and superior load stability, the WP 3200 Series trucks are the ideal truck for working in tight spaces in fast-paced, demanding operations. The ultra-rugged PW Series improves productivity when handling heavier load weights and working in the most extreme environments.

Rider Pallet

Crown rider pallet trucks lead the market for both low-level order picking and high-speed transporting. Key operator productivity preferences are addressed with either the end controlled PE Series, the center controlled PC Series with electronic power steering or the side-stance rider PR Series, with power steering.

Crown's PC 4500 Series can be equipped with QuickPick® operator assist technology transforms low-level order picking.

Tow Tractors

The TR 4500 Series features a powerful AC drive unit for long lasting performance and a rugged design to provide superior uptime in the most demanding applications.

Crown's tugger can be equipped with electronic power steering or manual steering.

Max. Lift Height: 172 in.

ES 4000 Series
Fork over Stacker
Load Capacity: 3,500 lbs.
Max. Lift Height: 132 in.

Walkie Stackers

Straddle and Fork-Over

Straddle stackers work in extremely confined spaces, allowing more efficient use of limited storage areas. They give you the benefits of low initial cost and low operating expenses. Many models include adjustable outriggers so you can straddle multiple size loads.

Fork-over designs are also available to efficiently handle wire baskets, plastic pallets and products on skids. Because the outriggers are positioned underneath the forks, the outrigger space required for straddle stackers is eliminated, increasing cube utilization.

Reach

The addition of a pantograph reach mechanism on a conventional stacker adds tremendous load-handling versatility. Designed for heavy-duty cycles and harsh surroundings, Crown walkie reach trucks offer years of reliable use.

Counterbalanced

The Crown counterbalanced design offers the versatility of a counterbalanced fork lift and the economy of a walkie stacker. It handles many tasks that otherwise would require the use of more expensive equipment.

Man-Up Trucks

Very Narrow-Aisle Turret Trucks

The TSP Series line of turret trucks offers the versatility to handle a wide range of warehousing challenges including full pallet handling and case picking. Industry-unique features like the MonoLift® Mast, MoveControl® Seat and Crown's Regenerative Lowering System provide the edge to get more done and use less energy. Lifting to heights up to 675 inches and with a maximum capacity of 3300 lbs., the TSP Series operates in aisles only inches wider than the truck itself.

Order Pickers

Every element of the Crown SP Series is designed to work with the operator to optimize the order picking process. Based on operational needs, Crown can deliver more speed, capacity at height and features including variable lift/lower and regen lower. The Crown Stockpicker family also includes two SP 3500 Four-Point Series models for handling non-standard loads and low level order picking with the MPC 3000 Series and GPC 3000 Series.

Wave® Work Assist Vehicle

Elevates a person to effective work heights up to 17 feet, along with merchandise, tools or other materials weighing up to 200 lb. The Wave® allows one person to do a job that would normally require two employees, and does it safer, reducing the risk of worker injury and product damage.

TSP 1000 Series (shown)
Turret Stockpicker
Load Capacity: 3,300 lbs.
Max. Lift Height: 531 in.

TSP 1500 Series

Rider Counterbalanced Trucks

3-Wheel Stand-Up

The RC 5700 Series excels at dock work, transporting and put-away tasks with its easy on/off ergonomic operator compartment designed for exceptional comfort and performance.

3-Wheel Sit-Down

The highly maneuverable three-wheel SC 5700 Series design is ideal for precision load placement in tight spaces.

4-Wheel Sit-Downs

The SC 6200 Series four-wheeled forklift is a multi-purpose truck with an increased maximum lift height that offers a unique edge on ergonomics, stability and maneuverability. The higher capacity, attachment-friendly four-wheel FC 5700 Series fork lift truck is designed to handle the toughest applications.

RC 5700 Series
Tire: Cushion
Power: Electric 36V
Load Capacity: 3,000 - 4,000 lbs.

Load Capacity: 5,000 - 10,000 lbs.
Max. Lift Height: 276 in.

RC 5700

SC 6200 Series

Reach Trucks

Conventional Mast

The RR 5700 Series was designed to deliver the optimum performance you require for your specific application. The RR Series delivers the right lift, lower and travel speeds to match operator, application and task, as well as OnTrac® Anti-Slip Traction Control and variable side-stance positioning.

A fold-down seat on the RR 5700 S Class Series Reach Truck allows operators to sit, lean or stand, increasing their comfort and productivity in the fast-paced, narrow-aisle environment.

MonoLift® Mast

The RM 6000 Series with the exclusive MonoLift® mast delivers breakthrough heights, capacities, visibility and energy for greater operator, truck and operation-wide productivity.

The RM 6000 Series includes industry-leading travel and lift speeds, as well as OnTrac® Anti-Slip Traction Control and variable side-stance positioning. The operator compartment of the RM 6000S Class Series allows operators to sit, lean or stand for optimal comfort throughout the shift.

Moving-Mast (Sit-Down)

The ESR 1200 Series moving mast reach truck is flexible enough to do the job of multiple trucks from dock to transport and replenishment/retrieval.

RR 5700 Series
Load Capacity: 3,500 - 4,500 lbs.
Max. Lift Height: 400 in.

RR 5700 Series

Internal Combustion Trucks

Cushion Tire

The C-5 Series cushion tire truck offers more power to do more work and includes revolutionary features that provide uptime benefits to lower users' total cost of ownership. In addition, the C-G Series truck is perfectly suited to handle larger load capacities in the most extreme environments.

C-5 Series
Tire: Cushion
Power: Internal Combustion (LPG)
Load Capacity: 4,000 - 6,500 lbs.
Max. Lift Height: 294 in.

C-G Series
Tire: Cushion
Power: Internal Combustion (LPG)
Load Capacity: 8,000 - 12,000 lbs.
Max. Lift Height: 276 in.

C-G Series
Tire: Cushion
Power: Internal Combustion (LPG)
Load Capacity: 3,000 - 4,000 lbs.
Max Lift Height: 236 in.

Pneumatic Lift Trucks

Crown 8,000 to 12,000 pound pneumatic forklifts combine truck performance and operator-centric design with Crown's proven support network to deliver a tough material handling solution that exceeds expectations.

Crown 13,500 to 55,000 pound pneumatic forklifts merge rugged strength and durability with the comfort, control and confidence inspired by their operator-focused compartments.

C-5 Series
Tire: Pneumatic
Power: Internal Combustion (LPG)
Load Capacity: 4,000 - 6,500 lbs.
Max. Lift Height: 294 in.

C-5 Pneumatic Diesel
Tire: Pneumatic
Power: Internal Combustion (Diesel)

ANATOMY OF AN encore® ELECTRIC FORKLIFT

Structural
During remanufacturing, poly mast stops/bumpers, lift chains, mast shimming, forks, overhead guard, frame, power unit/mast mounting and other components—including every nut and bolt—are checked and replaced as necessary.

Brakes
To ensure the safe operation of each Encore lift truck, we perform a complete brake overhaul that includes the replacement of cylinders, pads, rotors and fluids.

Hydraulics
During truck remanufacturing, the hydraulic system, filters, hydraulic oil, cylinders, packing, hoses and other worn hardware are replaced.

Appearance
The interior of an electric Encore truck gets special attention during the remanufacturing process, including steam cleaning, dent/bent metal repair and new floor mats/pads.

Electrical
Crown replaces potentiometers, brushes, fuses and contactor assemblies. In addition, all wire harnesses, power cables, lights, gauges and switches are checked and replaced as necessary.

reNEWed Drive Units
Gear oil and the drain plug gaskets are replaced in every Encore lift truck. We also replace anything needed—without question—to ensure superior performance.

1-Year Warranty

Why Choose Crown FleetSTATS ?

Customers who select Crown's fleet maintenance management solution over other OEM or third party offerings see tremendous value in Crown's thorough, systematic approach to fleet tracking.

Proven: Many of Crown's largest fleet customers have used FleetSTATS for years to effectively manage fleets and control costs.

Focused: As an OEM with vested interest in our customers' total experience, we have a focused, long-term commitment to helping customers achieve lowest total cost of ownership.

Experienced: As a global brand with a dedicated dealer infrastructure, we deliver an experienced team that's fully aligned to help customers achieve their goals.

Leader: Crown has a track record of innovation—developing and deploying solutions that help material handling professionals achieve industry-leading operational results.

Crown FleetSTATS helps users consistently COLLECT valuable data, better CONTROL processes and CAPITALIZE on accurate, operation-wide information.

FleetSTATS changes the way you manage—for the better. Customers experience better decision support and substantial savings since FleetSTATS provides an accurate picture of true maintenance costs.

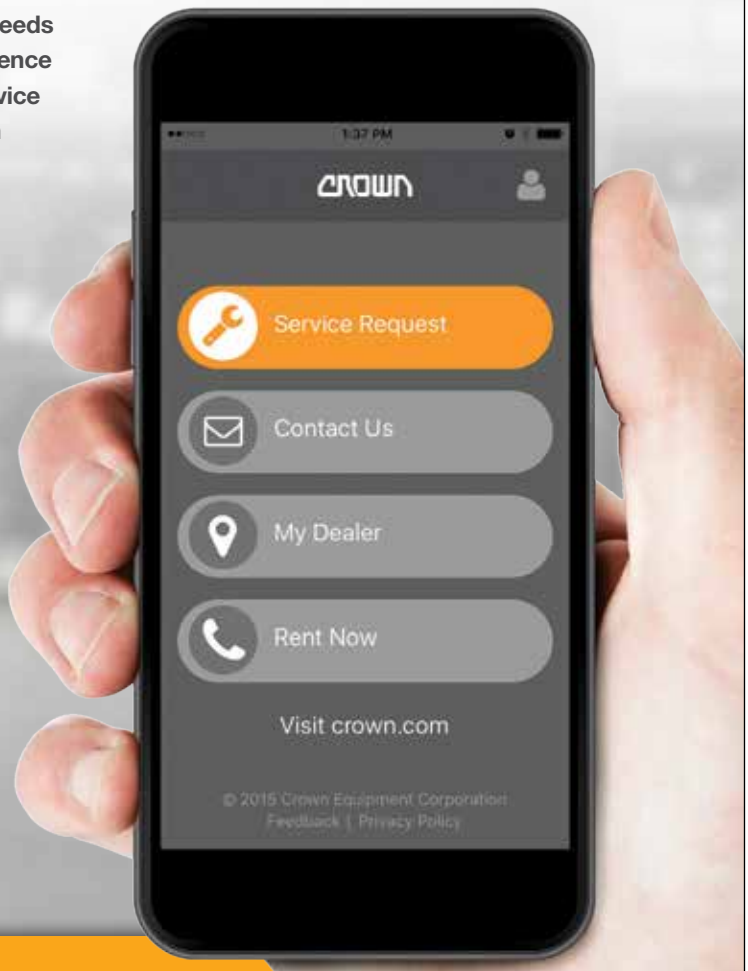
Forklift Service
At Your Fingertips

Request forklift service, discuss your rental needs or contact your dealer — all from the convenience of your smartphone or tablet. The Crown Service Request app provides quick access to Crown service to help you maximize uptime!



Let us fix it right the first time! Submit a service request and you will be connected to service experts with industry-leading response times.

Have a support question? Submit your inquiry by tapping the 'Contact Us' button. A Crown representative will review your inquiry and contact you shortly.

Need to find your nearest Crown dealer? The 'My Dealer' section offers easy access to location and contact information for a dealer in your area.

Need to rent a lift truck now? Tap the 'Rent Now' button and connect directly to a Crown representative to discuss your needs.

V-Force® Lithium-Ion Energy Storage Systems

The V-Force® Lithium-Ion ESS is fully integrated with a full line of Crown lift trucks for flexibility, scalability and convenience.

- **Lower Maintenance, Lower Costs** – Eliminates the time-consuming tasks associated with lead-acid batteries including battery changes, watering or special battery rooms.
- **Improved Efficiency –** Achieve greater efficiency, higher sustained voltage properties as the battery discharges.
- **True Opportunity Charging –** Increase uptime with periodic opportunity charging, enabling one lithium-ion battery to achieve more run time in a 24-hour period.
- **No Battery Swapping –** One lithium-ion battery can handle one shift or multiple shifts with no need for extra batteries or the downtime required to change them.
- **Increased Safety –** Zero emissions during charging means no gassing and no exposure toharmful acids and vapors. A multi-level safety architecture provides complete protection during use.
- **Longer Life –** Lithium-ion batteries outperform lead-acid batteries, saving replacement and service costs over time.

Note: Communication/Diagnostic Kit (Part No. 165064) includes Communication Y cable and Peak Can Dongle. Communication/Diagnostic Cable Only (Part No. 165541-001)

V-Force Lithium Ion Energy Storage Systems for WP Series Pallet Truck

The V-Force Lithium Ion Pack's design supports superior functionality to promote easier, more efficient use

- Integrated on-board charger
- Fully integrated with truck display showing battery discharge levels and warnings
- Connection to the Early Warning System alerts the operator before the battery stops truck operation
- The battery management system extends battery life by preventing abuse and operation outside warranted conditions
- **Longer Life** - Can undergo considerably more charge/discharge cycles than lead acid batteries before their capacity is significantly reduced
- **Extended Run Time** - Higher energy density, often resulting in longer run time versus lead acid batteries
- **More Efficient** - More energy efficient when charging and discharging, reducing carbon footprint
- **Safer and Easier to Maintain** - Maintenance free, eliminating the need for battery watering and avoiding the exposure of your employees to harmful acid and vapors
- CE compliant and UL Listed
- Warranty - 5 years from date of sale, or when reaching Maximum Ah Throughput, which is 2000 cycles x 80% of the battery capacity

Note: Authorization of Modification is needed for trucks not already modified for lithium ion batteries by Crown Equipment.

Communication Accessory Kit (P.N. 164423-001): Includes: 24V Jumper Plug for deeply discharged recovery. Communication Peak Can Dongle, Communication Cable for downloading data and diagnostics, and Replacement Comms Cable.

Communication Accessory Kit Less Dongle (P.N. 164423)

Communication Cable Only (P.N. 164469-002)

24V Jumper Plug (P.N. 164424): For deeply discharged recovery.

Power Cable NEMA/CEE7 14AWG 2M BLK (P.N. 300805-042)

V-Force Lead Acid Batteries

With a lower initial cost than other battery technologies, V-Force lead acid batteries can provide a cost-effective power solution for a range of duty cycles, including multi-shift operations.

Flat Plate Lead-Acid Batteries

This traditional time-tested battery design for electric lift trucks features:

- Robust design for durability in rough applications
- More active material for greater performance and capacity
- Heavy grid construction to limit corrosion
- Exclusive five-layer wrap to minimize positive active material shedding
- Lower initial cost

Tubular Lead-Acid Batteries

This advanced lead-acid technology increases the surface area of active material, improving productivity and extending runtimes for multi-shift applications.

- Flexible bolt-on inter-cell cable connectors for easy maintenance, higher current delivery with less internal resistance and lower operating temperatures
- Fully insulated flex connectors and post bolts to prevent arcing and lead exposure
- V-LA1120 Series - Standard low maintenance cells that hold more water, reducing watering frequency and maintenance costs
- V-LA1130 Series - High capacity cells for increased run time for high duty cycle applications

⚠**WARNING:** Cancer and reproductive harm - **www.P65Warnings.ca.gov**

CEC Approved

HFM³ Single Phase Series

Features

- Multi-voltage and multi amp hr
- Capable of Conventional, Opportunity, and V-Force Lithium-Ion profiles
- Auto equalization by cycles or date/time
- 100-277V Single Phase Charger
- Accessory Capable (with Expansion Board)
- WIFI/Ethernet Ready
- Optional Current sensing BMID available
- Downloadable event log - up to 10,000 events
- Marks of Conformity - UL Listed, cUL Listed, CEC-BC Compliant
- Mounting bracket included
- Warranty - 2 year full plus 1 year parts
- Lead-Acid and Lithium-Ion Capable
- Multi-voltage charge capacity: charges 12V, 24V, 36V, and 48V
- Output options of 48A, 85A, 120A, and 240A

HFM³ Triple Phase Series

HFM³ FS3

HFM³ FS4

Features

- Modular design
- Reliable and redundant
- Multi voltage and multi amp hr
- Capable of Conventional, Opportunity, Fast or V-Force Lithium-ion profiles
- Lithium ready option
- Auto equalization by cycles or date/time
- Accessory Capable (with Expansion Board)
- WIFI/Ethernet ready
- Optional current sensing BMID available
- Downloadable event log - up to 10,000
- Marks of Conformity - UL Listed, cUL Listed, CEC-BC Compliant
- Mounting bracket included
- Warranty - 2 years full plus 1 year parts
- V-HFM³ FS6 - dual cable

Note: P.N. 300118-001 for USB cable

Note: For additional information, please reference the brochure and price pages available through your local Crown dealer or the Partner Site.

HFE³ Single Phase

Features

- High-frequency Economy Charger
- High efficiency = energy savings
- Compact and lightweight
- CE and RoHS Compliant - UL Listed
- Mounting bracket included with every charger
- Auto equalization by cycles or date/time
- Warranty - 2 year full plus 1 year parts
- Reporting capabilities
- Multiple DC voltage 12V/24V/36V/48V
- Wider AC voltage range - 100V to 277V - Single Phase
- Output options of 48A, 85A, and 120A

HFE³ Triple Phase

Features

- High-frequency economy charger
- High efficiency = energy savings
- Compact and lightweight
- CE and RoHS compliant - UL Listed
- Mounting bracket included with every charger
- Warranty - 2 year full plus 1 year parts
- Reporting capabilities
- Multiple DC voltage 24/36/45V
- Higher AC voltage range - up to 600V AC

Battery Room Checklist

Thank you for allowing me to conduct a survey of your current forklift battery charging and maintenance resources. The items noted below are products we recommend you consider adding or updating within your current charging area to help support proper battery maintenance, charging and safe handling. These products and many more parts and supplies can be found in the attached One Source Lift Truck Parts Catalog.

If you have any questions regarding these recommendations, or about placing an order with Crown Equipment, please contact me:

BATTERY SERVICE SUPPLIES

	Part No.	Description
☐	079528	Koorsen 2.5 lb. Fire Extinguisher, ABC*
☐	365466	NuTend 16 Gallon Eye Wash Station*
☐	365474	Water Additive, Case/12*
☐	365468	ProWorks® Eye Wash Station, 1 kit*
☐	365469-001	ProWorks® Replacement Bottle of Eye Wash*
☐	300035	Battery Spill Kit*
☐	365260-001	Apron, Black*
☐	300042	Faceshield, Clear*
☐	300041	Headgear*
☐	300044	Acid Resistant Glove, Green*
☐	300403-050	Reusable Battery Acid Floor and Counter Mat, 3 ft. x 50 ft.*
☐	300421	Battery Protector® Acid Spill Absorber and Neutralizer, 5 gal.*
☐	300421-030	Battery Protector® Acid Spill Absorber and Neutralizer, 30 gal.*
☐	363124-001	Crown Battery Cleaner, 18 oz.
☐	363125-001	Crown Battery Protector, 14 oz.
☐	363133-001	QuickCable Black Battery Reconditioner, 12 oz.

**Strongly suggested per OSHA standards*

CHARGER ACCESSORIES

	Part No.	Description
☐	169244-001	Rail Stop
☐	396568	Magnet Mount Cable Holder
☐	168175-001	Battery Pogo Stick, 39 in.
☐	168284-001	Tender Kit
☐	300460	Short L-Bracket for Racking
☐	168283-001	Pogo Stick L Mounting Bracket
☐	300038-005	Tool Balance Swivel Mount
☐	396625-001	Retractor w/ Grommet
☐	168176-002	HD Pogo Stick w/ Tender Kit

WATERING GUN

	Part No.	Description
☐	300236	V-Force® Battery Watering Gun

FLOAT SYSTEM - FILL OPTIONS

	Part No.	Description
☐	300224-147	120 V AC 10 Gallon Watering Cart
☐	300224-090	120 V DC 10 Gallon Watering Cart
☐	300226-005	V-Force® Water Deionizer

BATTERY ACID INDICATORS

	Part No.	Description
☐	340011-012	Smart Blinky Pro, 2.35 in.
☐	340011-015	Smart Blinky Pro, 5 in.
☐	340011-007	Blinky, 2.35 in.
☐	340011-008	Blinky, 5 in.
☐	340011-009	Smart Blinky, 2.35 in.
☐	340011-010	Smart Blinky Remote, 2.35 in.
☐	340011-011	Smart Blinky, 5 in.

BATTERY MANAGEMENT SYSTEM

	Part No.	Description
☐	340640	V-Force® Small Fleet BMS Controller
☐	300314-SU6	Sentinel with Blue Light

SAFETY BOOTS

	Part No.	Description
☐	300413-050	V-Force® Safety Boot, SB, 50 A
☐	300413-175	V-Force® Safety Boot, SB, 175 A
☐	300413-350	V-Force® Safety Boot, SB, 350 A
☐	300462-175	V-Force® Safety Boot, SBX, 175 A
☐	300462-350	V-Force® Safety Boot, SBX, 350 A

Charger Accessories

Battery Monitoring Identification Device (BMID)

Part Number - 168372-002

- Automatically programs V-Force V-HFM/V-HFM³ chargers with the correct battery charge profile.
- Dual profile configuration to optimize battery health and SOC for opportunity or fast charging.
- Records all battery events including temperature, charge and discharge cycles.
- Current sensing up to +/– 1300 amps.
- Electrolyte level sensor.
- Temperature probe senses battery temperature throughout the complete charge cycle and adjusts the charge profile as needed.
- Larger toroid to fit 4/0 cable.
- Rugged case construction resists impact, water, and battery electrolyte spills.
- *Bluetooth*® Class 1 for improved range when connecting to a laptop or tablet.
- UL Classified
- Installation kit included (P.N. 396525-KIT)

Replacement parts: Temperature Sensor - P.N. 396573;
Installation Kit - P.N. 396525-KIT

Mounting Hardware

The Mounting Bracket is a convenient solution for mounting charger cabinets.

396583

396583-001

396521-001

V-HFM³ Mounting Bracket

Part Number - 396583

- Heavy duty steel construction supports up to 50 lbs.
- Allows the FS3 charger cabinet to be mounted from the rear, side or to stand.
- Included with every HFM³ model charger.
- Frees up floor space and keeps charger secure to prevent damage.

Part Number - 396583-001

- Included with every HFM³ FS4/FS6 charger

V-HFM and V-HFE Mounting Bracket

Part Number - 396521-001

- Included with every HFM and HFE FS3 Cabinet

⚠**WARNING:** Cancer and reproductive harm - **www.P65Warnings.ca.gov**

Long L-Bracket is used in conjunction with a pogo stick to keep cables elevated and off the floor.

Part Number - 168283-001

- Use the longer L-bracket to mount to the wall next to the FS3 size cabinet charger.
- Can be used with both our standard and heavy duty pogo sticks.

Also available:

L-Bracket and Pogo Stick
P.N. 168176-001
L-Bracket with Heavy Duty Pogo Tender Kit
P.N. 168176-003

*Recommended for use with V-HFM³ FS3-3 models and larger.

L-Bracket includes hardware. Used to mount pogo stick to racking.

Part Number - 300460

⚠**WARNING:** Cancer and reproductive harm - **www.P65Warnings.ca.gov**

Tower Light

Part Number - 396586-001

- HFM³ LED light indicates battery charge status from a distance.
- Includes 11.81 inch pole with mounting bracket, I/O expansion board with internal wiring loom, expansion board mounting standoff and DE9 mounting standoffs.

⚠**WARNING:** Cancer and reproductive harm - **www.P65Warnings.ca.gov**

Remote Switch

396587-001

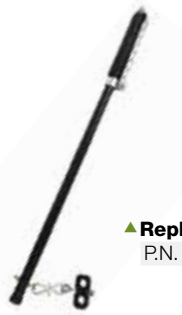
Part No.	Description
396587-001	Use with V-HFM³ chargers that are mounted in a location not easy to access.
396555	Use with V-HFM chargers that are mounted in a location not easy to access.

Replacement parts for Part No. 396587-001:
Remote control only - P.N. 396587
Remote control cable - P.N. 396587-002

396555

⚠**WARNING:** Cancer and reproductive harm - **www.P65Warnings.ca.gov**

Battery Pogo Stick



Part No.	Description
168175-001	Used to keep battery connectors and cables off the floor at charging stations, preventing damage and wear. 39" in length, 1" in diameter. Supports up to 10 ft of 3/0 cable.

▲**Replacement** Rubber Grommet
P.N. 300038-001

⚠**WARNING:** Cancer and reproductive harm - **www.P65Warnings.ca.gov**

Heavy Duty Battery Pogo Stick

Part No.	Description
168175-002	Zinc plated 40". Up to 66% stronger than competitive designs. Mounting hardware included. Includes rubber grommet clamp. Recommended for HFM³.

⚠**WARNING:** Cancer and reproductive harm - **www.P65Warnings.ca.gov**

V-Force Cable Retractor

396625

Part No.	Description
171780-001	Cable Retractor
396625-001	Cable Retractor with Grommet/Cable Housing

Balance DC charger cables or tools weighing up to 15 lbs. Spring tension adjusts easily.

396625-001

⚠**WARNING:** Cancer and reproductive harm - **www.P65Warnings.ca.gov**

BATTERY HANDLING

Battery Watering Application Chart

Use the following table to help determine the best system for the application at hand. Not all applications are alike; be sure to put the appropriate product into the correct application to ensure years of cost effective & reliable operation.

Product	Watering Gun	Float System	Spider Injector System
Facility Size	1-5 batteries	5-25 batteries	25 or more batteries
Application	Light Duty Small Facility Infrequent Use Golf Course	Medium Duty Low Water Pressure Medium Facility	Heavy Duty Abusive Conditions Rapid Charge Battery Changers
Time to Install	Not Applicable	12 Minutes	3 Minutes
Time to Fill an 18-Cell Battery	20 Minutes	2-10 Minutes	15 Seconds
Payback/ROI	$	$$	$$$

V-Force® Barbed Watering Float System Kits

V-Force Barbed Valve Battery Watering Float Systems make the watering of your industrial batteries faster and safer. You will need two components: a water supply (found throughout the One Source Catalog) and one of the part numbers found below. If you have a Philadelphia Scientific Water Supply, you can order a V-Force Float System (e.g. 300316-012-INJ) to replace your existing Stealth Kit or an Injector Kit.

The process is simple. First, identify the manufacturer of your water supply (e.g. Philadelphia Scientific, Battery Filling Systems (BFS), Battery Watering Technologies (BWT), V-Force, or Flow Rite). Then, identify the battery manufacturer; Douglas batteries will require a DIN adapter, which is included. Next, determine the battery voltage (24V, 36V, 48V). The final step is to select the watering system from the table below. The adapters shown are included so you can connect the kit you choose to your water supply.

Voltage	CPC ¾" input Brands used with Crown V-Force (most common), Philadelphia Scientific Stealth and Flow-Rite. Select a system below.	CPC 1/2" input (used primarily with BWT (Battery Watering Technologies). Select a system below.	BFS input (used primarily with BFS (Battery Watering Technologies). Select a system below.	Quick Connect Input Brands used with are Philadelphia Scientific Water Injector and Water Injector Spider. Select a system below.
12V	300316-006	300316-006-BWT	300316-006-BFS	300316-006-INJ
24V	300316-012	300316-012-BWT	300316-012-BFS	300316-012-INJ
36V	300316-018	300316-018-BWT	300316-018-BFS	300316-018-INJ
48V	300316-024	300316-024-BWT	300316-024-BFS	300316-024-INJ
72V	300316-036	300316-036-BWT	300316-036-BFS	300316-036-INJ
80V	300316-040	300316-040-BWT	300316-040-BFS	300316-040-INJ

Douglas Batteries (DIN vent openings): 24V-300316-012-01, 36V-300316-018-01, 48V-300316-024-01, 80V-300316-040-01
NOTE: Tubing cutter P.N. 3003227-allation tool and P.N. 300310-022 are helpful for installation of V-Force Float Watering Systems.
NOTE: V-Force watering kits installed from the factory on V-Force lead-acid bateries (Part# ending with -INS or -INP) use the same components as the kits above.

V-Force Barbed Watering Float Valve & System Components

V-Force Battery Watering System Components

Barbed Watering Kit Cmponents	
Component Part Number	Component Description

Battery Watering — Float System

Direct Fill Link

Designed to attach to in-house plumbing. Water pressure may not exceed 80 PSI. Do not fill from a faucet.

CAT. NO. 300222

5 Gallon Gravity Flow Tank-Hose

- Sturdy 5-gallon polypropylene tank
- Easy to fill
- Flow indicator
- 25 ft. hose attaches with a rugged connector
- Note: Unit needs to be mounted at least 5 feet above the top of the battery.

CAT. NO. 300223

Shelf For Float System Gravity Tank

- Wall-mountable shelf to hold 5-gallon gravity tank shown above
- 100 lb capacity

CAT. NO. 300223-002

Water Deionizer

- Comes with everything you need to make pure water from the tap
- Operates at full-line pressure to dispense pure water directly from the deionizer
- Quick cartridge replacement requires no tools
- 20-ft output hose allows maximum watering flexibility and convenience
- Optional Watering Gun lets you fill a battery directly from the deionizer

CAT. NO. 300226 -005

⚠ **WARNING:** Cancer - **www.P65Warnings.ca.gov**

12v 10 Gallon Watering Cart

- Easy to transport to remote locations
- Easy to fill; large opening
- Charge the battery operated unit from any 120 VAC outlet with the provided charger
- Sturdy 10-gallon polypropylene tank
- 9 ft hose
- On/off switch on rear of unit
- Easy to use; instructions printed on the unit

CAT. NO.	AC/DC
300224-147	AC
300224-090	DC

⚠ **WARNING:** Cancer - **www.P65Warnings.ca.gov**

Pressure Tank Watering Cart

- Sturdy 10 gallon (38.9 liter) steel tank
- Capacity gauge indicates how full the tank is
- No battery or electricity required — uses your building's water pressure to deliver water wherever you need it
- 9 ft. (2.7 m) of industrial input hose; 10 ft. (3 m) of industrial output hose

CAT. NO. 300234-003

Output House with Quick-Connect

- 10 ft. (3 m) of industrial output hose with quick-connect

CAT. NO. 300234-002

Battery Watering Gun

Ergonomically Designed

- Easy-squeeze, rugged handle
- 45° bend nozzle
- Less bending over to fill battery

Superior Strength

- Built from rugged, engineered ABS plastic
- Weak points eliminated; pressure regulator incorporated into nozzle

Flow Diffuser

- Converts the rapid flow to a gentle spray
- Protects nozzle from damage

Secure Level Control

- Will not move over time
- Adjustable or removable
- Pre-set for optimum level for most motive power batteries
- Beveled to conform to vent well at many angles

Faster Fill

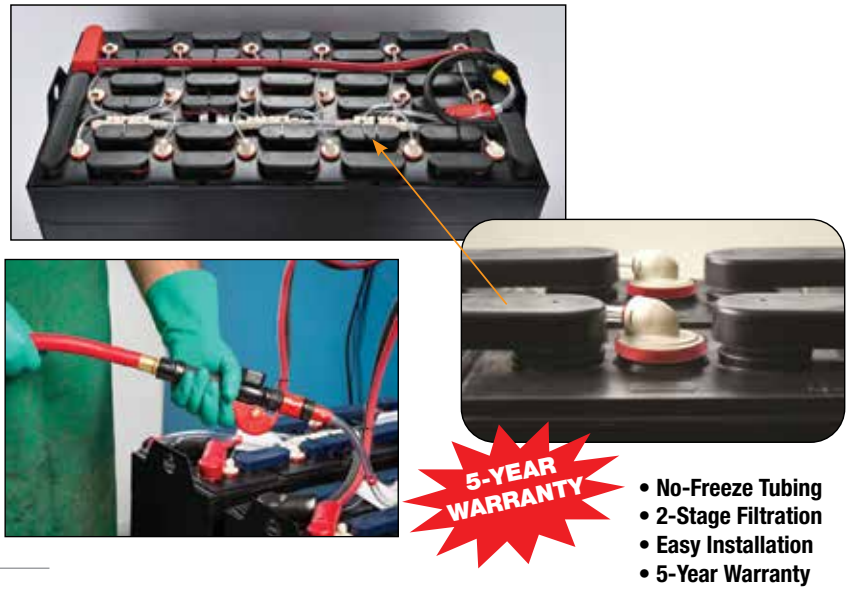
- 1.7 GPM
- Spend less time watering

CAT. NO. 300236

Battery Watering — Spider Injector System

Water Injector System

- **Very Fast Operation:** An average industrial truck battery can be filled, with precise level control, in less than 15 seconds. The savings in labor costs alone often pays for the system within its first year of operation.
- **Quality of Watering:** It extends the life of each expensive battery it is installed on due to improved quality of watering. The battery is properly watered every time.
- **Safety and Environmental Cleanliness:** There is no need to peer into cells to inspect levels as with manual filling. Spider Injector Watering Systems automatically fill each cell to the correct level, so no overfilling and no electrolyte overflow during charge.



- **No-Freeze Tubing**
- **2-Stage Filtration**
- **Easy Installation**
- **5-Year Warranty**

CAT. NO.	DESCRIPTION
300302-012	24V Spider Injector Kit Standard
300302-018	36V Spider Injector Kit Standard
300302-024	48V Spider Injector Kit Standard
300309-012	24V Spider Injector Kit w/DIN Adapter
300309-018	36V Spider Injector Kit w/DIN Adapter
300309-024	48V Spider Injector Kit w/DIN Adapter

Direct Fill Hose Injector

The Direct Fill Hose Injector requires a minimum of 25 psi of flowing water at a rate of 8 gallons per minute. If the flow is inadequate, the Injectors will not shut off. If a factory authorized water supply is not being used, water pressure from the wall must be confirmed with a 300310-027 Water Flow Pressure Measurement Tool.

CAT. NO.	LENGTH
300305	20'

Mini Hydro Cart Injector

- 10 gallon polypropylene tank
- 23 ft of total reach
- Easy to transport to remote locations
- Plug into 110 VAC outlet

CAT. NO. 300303

Hydro Cart Injector

- Sturdy 20 gallon polypropylene tank
- 30 ft of total reach, 15-ft power cord plus 15 ft of ⅝" high-output industrial hose
- Handles like a hand truck
- On/off switch and power indicator located on front of unit
- Plug into 110 VAC outlet
- Flow indicator tells when the injectors have shut off

CAT. NO. 300302

Bladder Tank 10 Gallon

- 10 gallon steel tank
- Requires no power

Tank capacities based on input pressure

Input Pressure	Tank Capacity
80 PSI	10 Gallon
70 PSI	9.5 Gallon
60 PSI	8 Gallon
50 PSI	6 Gallon

Note: Water pressure below 50 PSI will require a booster pump.

CAT. NO. 300306

Battery Acid Indicators

Blinky

Blinky Basic option is a low-cost solution for accurate electrolyte monitoring. The new LED is twice as bright as the previous model and the housing is more robust. LED blinks green when the electrolyte level is good and goes out when water is required.

CAT. NO.	PROBE LENGTH
340011-007	2.35"
340011-008	5"

Smart Blinky

Ideal for batteries where the top of the battery can be seen. The new LED is 8 times brighter than the previous model. The electrolyte probe and LED are integrated into the same housing. The LED blinks green when the electrolyte level is good and blinks red when water is needed. The new design has an "installation forgiveness zone!" This system works on 6V and 12V block and golf cart batteries.

CAT. NO.	PROBE LENGTH
340011-009	2.35"
340011-015	5"
340011-017	2.35" with Flexitap

Smart Blinky Remote

Ideal for batteries that do not leave the truck or batteries that are changed on multi-level racks because the indicator LED can be edge mounted for high visibility. The new LED is 6 times brighter than the previous model. The LED housing has a lower profile and is more robust. The LED blinks green when the electrolyte level is good and blinks red when water is needed. The new design has an "installation forgiveness zone!" This system works on 6V and 12V block and golf cart batteries.

CAT. NO.	PROBE LENGTH
340011-010	2.35"

Smart Blinky Pro

Intelligent battery monitoring with both light and sound. SmartBlinky Pro provides a bright electrolyte level indicator to know when to fill a battery. The LED is mounted on the battery cable near the connector for maximum visibility - perfect for opportunity and fast applications in which the battery never leaves the truck. SmartBlinky Pro is rugged, built to withstand the harsh environment of industrial battery applications, and UL classified.

Safety Equipment & Accessories

Battery Pogo Stick

Used to keep battery connectors and cables off the floor at charging stations, preventing damage and wear. 39" in length, 1" in diameter. Supports up to 10 ft of 3/0 cable.

CAT. NO. 300038

16 Gallon Eye Wash Station

Size: 20.5" length, 18" width, 20.5" height. 15 minute flow, required by ANSI Z358.1-2009. Includes steel wall bracket, 2 oz. sterile water solution, and test log and drainage hose.

CAT. NO. 365466

Water Additive

Add to water for 16 gallon eye wash station to eliminate contamination from stagnant water. 8 oz. per 16 gallon refill.

CAT. NO. 365474

Eye Wash Station

Two bottle wall-mounted eye wash station. Includes two 16 oz. bottles of sterile eye wash. Easily mounts to any wall.

CAT. NO. 365468

Replacement Bottle of Eye Wash

Sterile eye wash. Can be used alone or with 365468 eyewash station.

CAT. NO. 3654469-001

Battery Spill Kit

Includes: 1 faceshield; 1 headgear; 2 bottles of 32 oz. acid neutralizer; 10 acid spill absorbent cleanup pads; 1 yellow heavy-duty chemical disposal bag - 33" x 39"; 1 mini broom; 1 bottle of 16 oz. eye wash flush; 1 pair of green acid resistant nitrile gloves; 1 pair of acid-resistant sleeves; 1 pair of acid-resistant rubber overboots; 1 acid-resistant apron; 1 bucket.

CAT. NO. 300035

Horizontal Battery Transfer (Roller)

OPERATOR ABOARD BATTERY EXTRACTORS

Any facility operating with a large fleet of electric forklifts will require frequent battery change-outs. BHS Operator Aboard Battery Extractors (BE) are essential for exchanging batteries from forklifts, and BHS offers a variety of BE models for operations of all sizes. BHS battery changers can reduce change-out times substantially, ensuring a more productive facility. For maximum efficiency and space-savings, BEs are also available in multi-level systems. BHS representatives will help determine which model is best for your application by considering fleet size, room dimensions, battery and charger specifications, budget requirements, and various other factors. **LEAD TIME: Consult Crown, F.O.B. St. Louis, MO**

Models custom built to YOUR specifications!

Double Stack Battery Extractor System

TRANSFER CARRIAGES

BHS manufactures exceptional battery handling equipment for lift truck fleets of any size. Our comprehensive line of battery carts & carriages provides an ideal solution for operations that conduct several battery change-outs per day. BHS' collection is highly customizable, with a wide range of options to meet your facility's battery handling needs.

LEAD TIME: Consult Crown, F.O.B. St. Louis, MO

BATTERY TRANSFER CARRIAGES

Available in 18", 24" & 30" compartment widths

Models:
BTC-MPP - Manual Extraction & Manual Lift
BTC-MPPEE - Manual Extraction & Powered Lift
BTC-MPPEL - Powered Extraction & Manual Lift
BTC-MPPAE - Powered Extraction & Powered Lift

AUTOMATIC TRANSFER CARRIAGES

(For use with existing pallet trucks.)
Available in 24", 30", 36", & 42" battery-compartment widths with either vacuum or magnetic extraction.

Models:
ATC-24
ATC-30
ATC-36
ATC-42

Options:
ATC-BSELV (Base elevations for higher roller compartment dimensions)
ATC-CAN (Extended reach to reach beyond lift truck outriggers and other obstructions)
ATC-2TIER (Ability to access a greater variety of roller heights of lift trucks)
Additional options available

MOBILE BATTERY EXTRACTOR

Available with a 42" battery-compartment width with either vacuum or magnetic extraction.

Models:
MBE-42
Options:
MBE-LA (Lead Acid Battery)

BATTERY & CHARGER STANDS

BHS Battery Roller Stands provide convenient storage for industrial lift truck batteries. Constructed with heavy-duty steel, these stands are available in various compartment widths and compartment sizes to meet specific requirements. **LEAD TIME: 2 weeks to ship, F.O.B. St. Louis, MO**

Vertical Battery Transfer

HARDWOOD BATTERY STATIONS

Hardwood Battery Stations are an ideal battery storage solution for Gantry Crane and other overhead extraction applications. These rugged stations have a heavy-duty frame and a powder-coat finished for added durability. The recycled polyethylene decking is acid-resistant, nonconductive, and environmentally friendly. A charger shelf comes standard on all models. Available in 30", 42", 60", 72", 84", 96", 108", 120", and 144" widths.

Model	Width	LB
HBS-30	30"	200
HBS-42	42"	242
HBS-60	60"	322
HBS-84	84"	470
HBS-96	96"	512

If charger shelf is not required, use suffix -1.
If wood sideways are required, use suffix -WS.

RACKING

Pallet racking systems are designed using two basic components: welded vertical end frames and one-piece interlocking horizontal beams. Beams engage into frames on 3" increments and come standard with safety clips to prevent disengagement from frames. All racking systems are designed and manufactured in accordance with applicable regulations and specifications.

FRAMES: Standard sizes are available in 24" to 72" depths. Special sizes are available. We will design and manufacture to suit any customer requirement.

BEAMS: Available in roll formed or structural steel. Beam capacities range from 1,000 lbs. to 12,000 lbs. per pair and are available in many lengths. Beams are typically used to store conventional pallets and work best using accessories such as safety bars or wire mesh decks. Step beams allow for drop-in panels, wooden shelves, wire mesh and many additional accessories designed for product stacking and hand pick applications.

T16AMR Industrial Robotic Floor Scrubber

Good For Operations

Data-driven solution to empower operations

Every pallet and minute holds value. The T16AMR is designed for complex environments, so operators and managers can reallocate resources as needed

- Detailed Usage Reports
- Lithium-ion batteries provide up to 13 hours of run-time in a 24 hour period
- Back-to-back route capability

Good For The Team

Ongoing champion in Safety and Innovation

Leverage best-in-class software and hardware to orchestrate a tailored cleaning process. Clean manually or let the T16AMR scrubber do the work autonomously, T16AMR is engineered to get the job done efficiently and safely.

- Detergent-free, ec-H2O NanoClean® Technology
- UL Verified
- A thorough clean in a single pass

Good For Standards

Help Reinforce a culture of cleanliness

By integrating autonomy into the T16AMR, human error has been reduced. Enhancing the T16AMR's durability. The limited oversight required can free up staff to focus on higher value tasks

- Squeegee protection and debris plow
- Intuitive user interface
- Yellow maintenance touchpoints

FEATURED PRODUCTS

Ridg-U-Rak is one of the leading rack manufacturers in North America and is one of the founding members of the Rack Manufacturers Institute (RMI). Ridg-U-Rak provides selective and high-density storage racks, multi-level pick modules, drive-in, push-back, light-duty wide-span racks and specialized storage systems for manufacturing, warehousing, logistics and distribution operations. Ridg-U-Rak pallet racking is provided with a powder-coat finish for improved longevity and durability. Standard frame color is forest green. Standard beam color is safety orange.

RIDG-U-RAK® STORAGE SYSTEMS

UNARCO has the most diverse line of material handling storage options available, offering both structural and roll-formed pallet rack as well as numerous gravity flow options, including carton flow, pallet flow, and pushback rack. High density storage choices include cantilever, drive-in/drive-thru, and highly engineered pick modules. UNARCO interchangeable pallet rack can attach to other manufacturers' keyhole design rack to add to existing systems. Bolted or automatic locking devices connect to any rack system and change as your warehouse storage needs grow, providing an efficient and sturdy solution.

UNARCO

NUCOR® WAREHOUSE SYSTEMS

Rack Builders Inc. designs and manufactures structural storage solutions to suit the wide scope of needs that warehousing professionals have. Utilizing our wealth of engineering and fabricating experience, RBI has the solution to any warehousing problem. All of our systems - from selective rack to drive in rack to pick modules – feature damage-resistant design and industry-leading details. RBI pushback rack – including an industry-exclusive seven deep system – increases productivity and density, while reducing damage and overall life-cycle cost. From our centrally-located 160,000 square foot manufacturing plant, we ship large and small projects all across the United States and North America.

SERVING THE SMARTEST LINKS IN THE SUPPLY CHAIN™

You can rely on Tennsco's high-quality line of storage and industrial solutions to meet your needs. The broad product line includes shelving, bulk storage racks, work benches, packing tables, shop equipment, drawer units, cubbies and cell phone lockers.

tennsco™
Storage Made Easy

A-WALL Building Systems by Warwick Products manufactures modular offices and in-plant buildings that are easy to install and relocate. They require fewer parts than comparable building systems and the electrical devices are factory-installed in the wall panels. This means your initial installation and future changes will require less time and cost.

Safety rails, headers, bollards and other safety equipment from Heartland Engineered Products are recognized throughout the industry for providing high quality, durable solutions delivered on time and on budget. Stairways and accessories are designed and fabricated to stand up to constant, daily abuse while providing the highest-quality personnel protection. Our structural steel platforms and mezzanines are designed to add valuable floor space and provide superior conveyor system support.

Wildeck products are "Made in the USA" and incorporate the hightest standards of structural, mechanical, and electrical design for material handling and facility safety applications. Our team of employee-owners have the knowledge and industry experience to ensure that your projects run smoothly from concept to completion. With quality products tailored to your individual requirements, you'll receive a level of strength, durability, service and support you won't find anywhere else.

HUBTEX

For handling long, bulky or heavy loads HUBTEX produces side loaders, multi-directional industrial trucks, compact forklifts and special vehicles. Innovative features, low maintenance technology, durability and high quality standards promise the reduction of operating and energy costs and guarantee an increase in efficiency during operation.

Hubtex also offers a large, comprehensive range of long and oversized load handling equipment. Lift trucks that are ideal for any industry application where long and bulky materials need to be moved through tight spaces inside and outside safely and efficiently.

Material Handling expertise.

Crown's real-world material handling expertise, along with a consultative business approach, distinguishes Crown as an industry leader; providing you the best offering of integrated material handling products and solutions.

Is your facility space at a premium? Could you save time and costs with more effective rack or shelving arrangements? How can you improve throughput? What tools would help your personnel work faster and more efficiently? How can you create a safer, more productive work environment?

Crown material handling specialists can help you find solutions that improve throughput, enhance efficiency and reduce costs. Our associations with quality manufacturers and suppliers ensure a comprehensive selection of material handling products. No matter what material handling challenges you face, Crown has the material handling expertise and resources to deliver solutions that give you a distinct advantage.

Our material handling specialists make dozens of calls each week partnering with customers across a broad range of industries. They evaluate and troubleshoot thousands of issues, helping businesses determine the best combination of products and resources for a customized solution. With their extensive training and experience, you can be assured they will work with you to find the most efficient solutions focused on your specific needs.

One of the most common material handling challenges is the need to maximize space. Of the many products on the market, which selection will provide the best results?

The Crown advantage comes from a focused, customized approach that meets your exact requirements. A careful analysis enables Crown material handling specialists to save you valuable square footage and reduce the time required to store and retrieve products.

Choosing the right rack system is one way to make a significant difference. Your local Crown branch can help you determine the ideal solution based on your individual needs and the benefits you wish to achieve.

If your application requires selectivity of product, you can maximize space by utilizing selective rack with the appropriate lift truck. You can also rely on Crown to help you maximize space by combining different types of rack, carton flow, conveyors, or pick modules specifically configured to meet your facility's needs.

You can also rely on Crown to help you maximize space with modular in-plant offices and mezzanines. Along with space savings, these solutions allow you to save on new construction costs while creating organized, efficient work areas.

With Crown, you'll benefit from a full range of solutions with the flexibility to choose products from quality manufacturers and suppliers based on your unique requirements.

Maximize space with a customized approach.

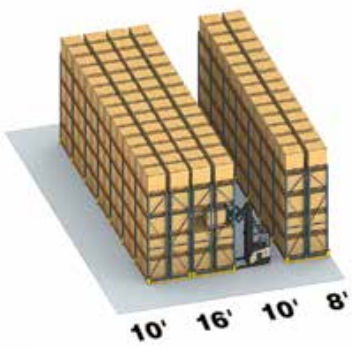
Flow-Thru Rack
First-in, first-out
Variable truck and aisle



Double-Deep Rack
Double Reach Lift Truck
8.5'-11' aisle width

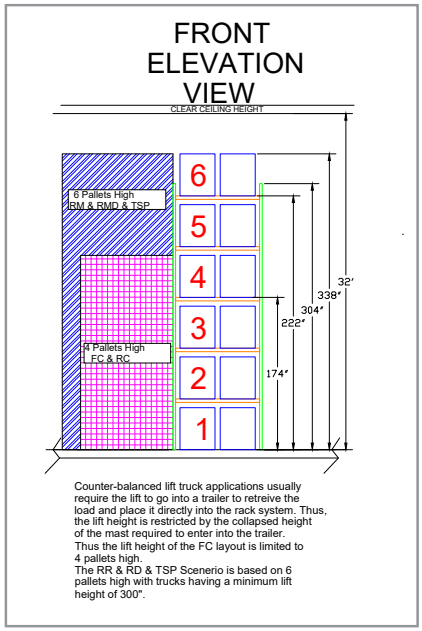
Many facilities install selective rack systems, while others choose rack systems integrating combinations of double-deep, drive-thru, cantilever, push-back, flow-thru racks and other options. The type of lift truck also determines how effectively you can maximize space and improve your material handling.

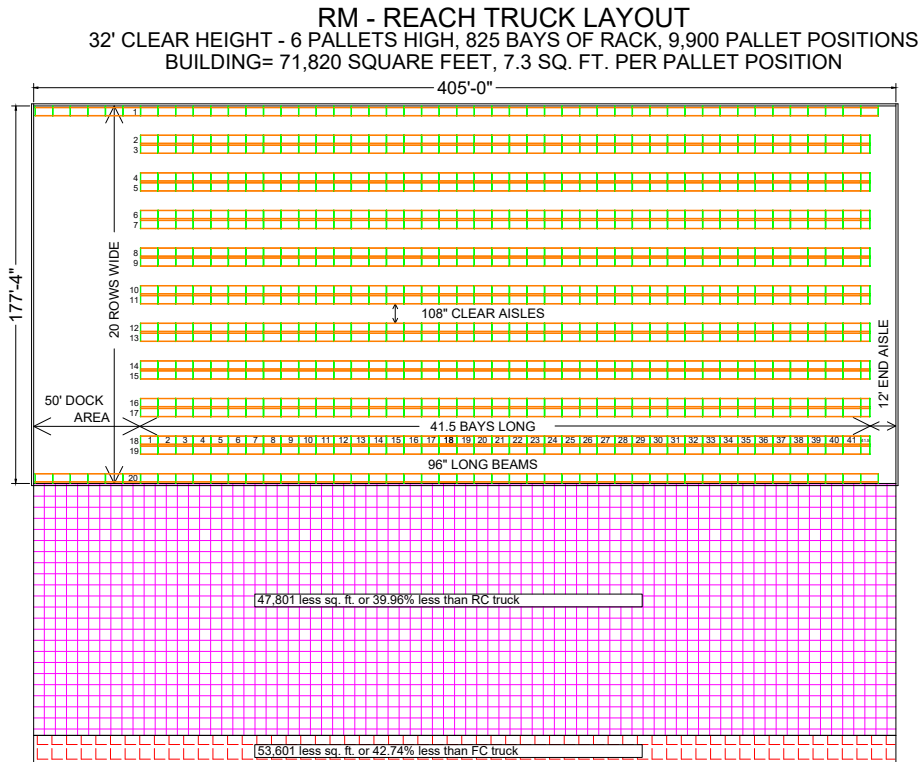
crown.com

Reach Truck Layout

Narrow Aisle 9'-10'

A reach truck can lift as high as 505" and is used with selective rack. The width of the aisle is dependent on the lift truck specifications and lift height, but a typical clear aisle is between 8' – 9'6".

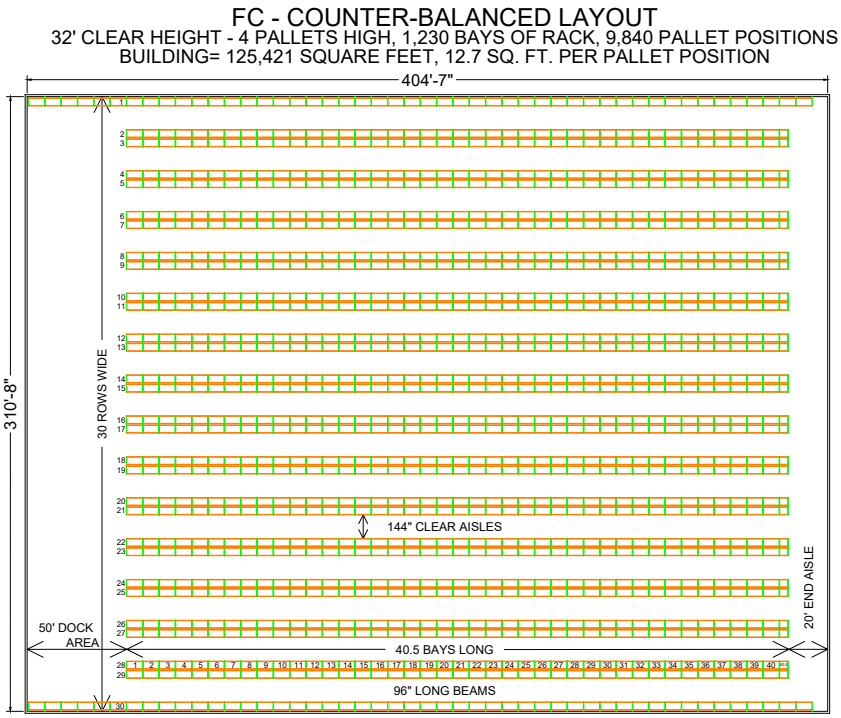


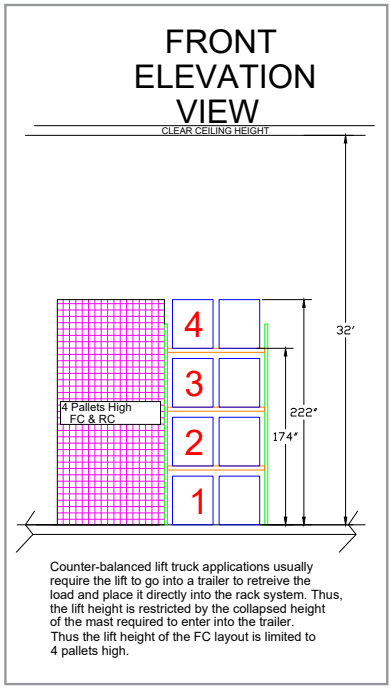


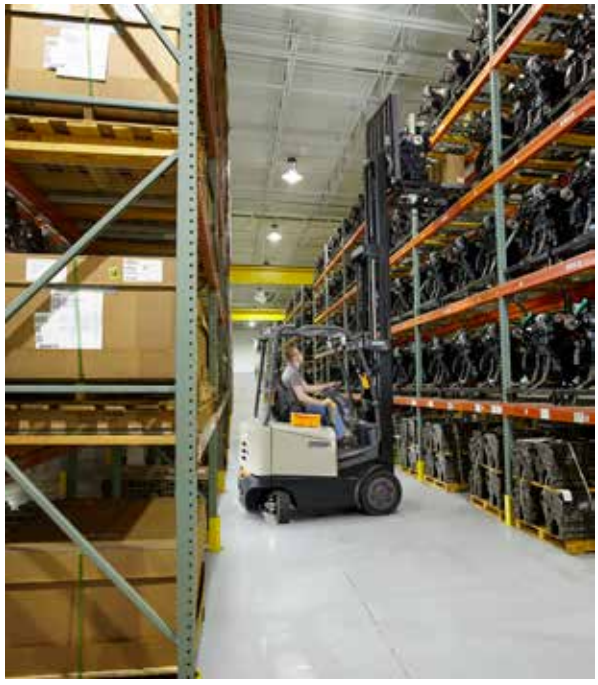
Counter-Balanced Layout

10.5' - 13' Aisle

In a typical counter-balanced application, the clear height is 30' or less. The lift height of the truck is usually 240" or less and the collapsed height of the truck allows the lift truck to enter a semi-trailer and stack the load directly into the rack system.





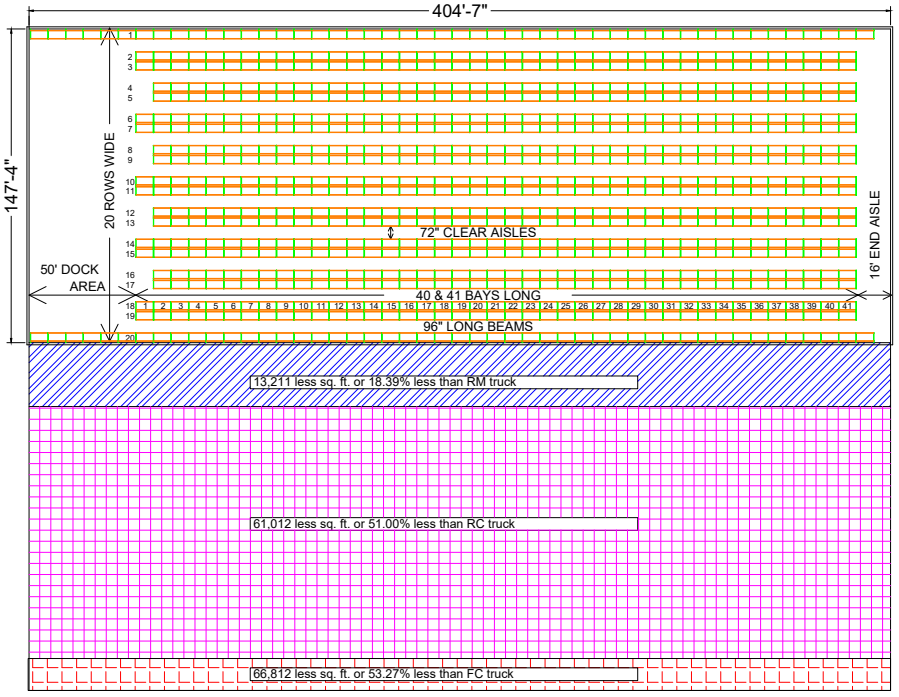


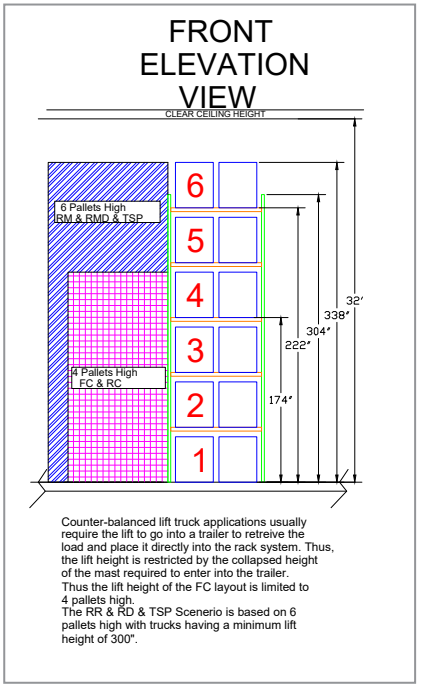
TSP Layout

VNA Aisle ~ 6'

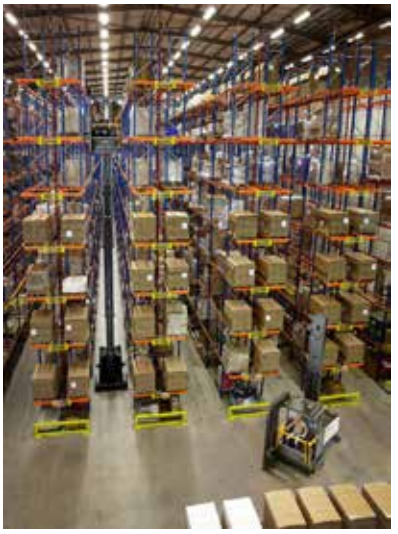
TSP's are VNA (very narrow aisle) lift trucks. They can lift as high as 675" and can typically work in a clear aisle of 66" – 78". The truck is either wire guided or rail guided. The specifications of the truck, the load dimensions, the weight of the product, and the flatness of the floor help determine the clear aisle needed. The flatness of the floor plays a big factor in the design and performance of the TSP. F-min is a floor flatness rating used for define path trucks such as turret trucks and stockpickers. The turret truck is typically used with selective rack and provides good product density. The turret truck can also be used with push-back or flow rack to gain even more density.

TSP - TURRET TRUCK LAYOUT
32' CLEAR HEIGHT - 6 PALLETS HIGH, 826 BAYS OF RACK, 9,912 PALLET POSITIONS
BUILDING= 58,609 SQUARE FEET, 5.9 SQ. FT. PER PALLET POSITION





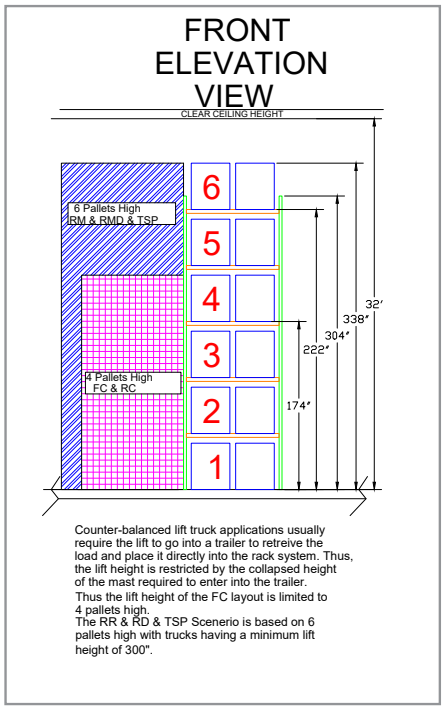
Counter-balanced lift truck applications usually require the lift to go into a trailer to retreive the load and place it directly into the rack system. Thus, the lift height is restricted by the collapsed height of the mast required to enter into the trailer. Thus the lift height of the FC layout is limited to 4 pallets high.
The RR & RD & TSP Scenerio is based on 6 pallets high with trucks having a minimum lift height of 300".

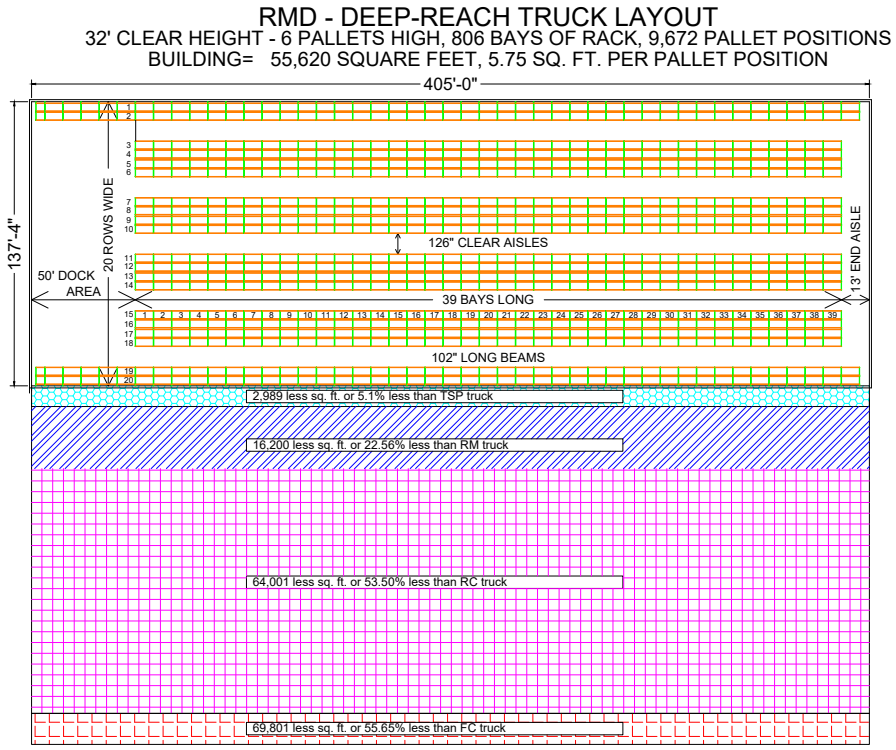


Deep Reach Layout

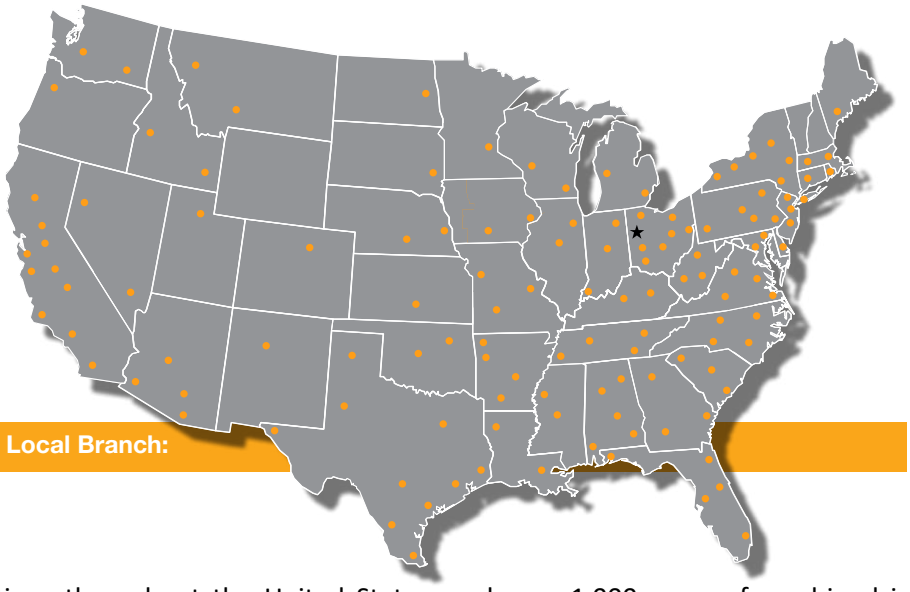
Aisle ~ 9.5' to 10.5'

Deep-reach trucks provide two deep product storage and is a good solution for LIFO (last-in, first-out) product rotation. A deep-reach truck can lift as high as 505". The outriggers of the truck must enter into the rack system so the design must accommodate the proper beam spacing. Since the deep-reach truck is placing pallets 2-deep into a rack system, the design will require more lift-off and will typically use wire decks or pallet supports (especially at higher lift heights) to aid in the placement of the loads.





Crown has 72 branch locations and 24 independent dealer locations to serve your needs nationwide.



Contact Your Local Branch:

With 72 branch locations throughout the United States, and over 1,000 years of combined industry experience, Crown's Warehouse Solutions Team is not only one of the most professional choices to partner with for your storage solution needs, but one of the most knowledgeable. From sales coordinators to CAD designers to project managers, Crown has you covered with the most dedicated team in the industry to see to it that your operational goals are achieved. Communication and trust are pillars to developing the very best solution to YOUR specific operation. We will not present a specific product unless we determine it should be part of a specific solution that solves YOUR specific problem.

Professional Installation Services

- Local and National installation crews to handle any size project
- Dedicated project manager, no matter what size the project
- Our installers are required to meet all Crown insurance requirements
- Crown certified rental equipment on every project
- Your safety regulations are our safety regulations on every project

Need permit management assistance? We can help. From initial contact with your local building inspector to final project occupancy, Crown can help guide you through this sometimes challenging process.

Shuttle Systems & Conventional Pallet Racking

Modular and Flexible

The stow Pal Rack® system consists of a full range of basic component and accessories to fulfill all of your requirements. The system is designed for the optimized storage of goods of all sizes and weights. All components have been thoroughly tested in specialized laboratories to determine their mechanical properties. These are used to calculate the safe load capacity of the each component and ensure that they meet the stringent requirements of the FEM code for pallet racking.

Rack Builders Inc.

Rack Builders Inc. designs and manufactures a complete line of high-quality, customer focused structural racking systems, creating the ideal solution for your needs and reducing overall cost of ownership.

- Selective Rack
- Two Deep Reach
- Push Back (2 to 7 Deep)
- Pallet Flow
- Semi-automated Shuttle
- Furniture Cantilever
- Picking Systems
- Specialty Rack Systems
- Heavy-duty Rack Protection

All RBI products are engineered and manufactured to ensure quality and performance.

Storage Rack: Structural Steel
ANSI MH16.1 2020
Rack Manufacturers Institute
5400
CERTIFIED MANUFACTURER

2024 MVS MOST VALUABLE SUPPLIER

- North American steel
- AWS and CWB certified welding
- Five-stage, water-based painting process
- Hot-dipped galvanizing available
- Two-year standard warranty

Please contact your local Crown dealer for layout design consulting and a quote.

Rack Builders Inc.

RBI push back benefits:

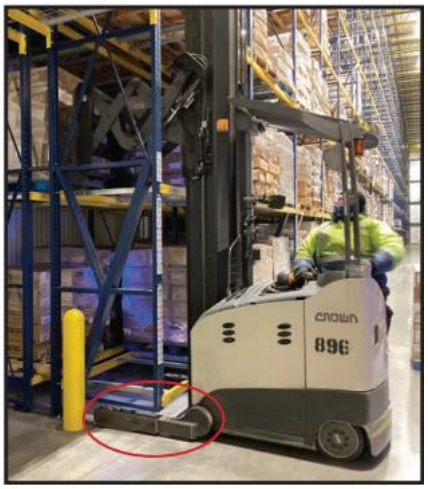
Full-sized carts with standard center crossbar superior reliable pallet support

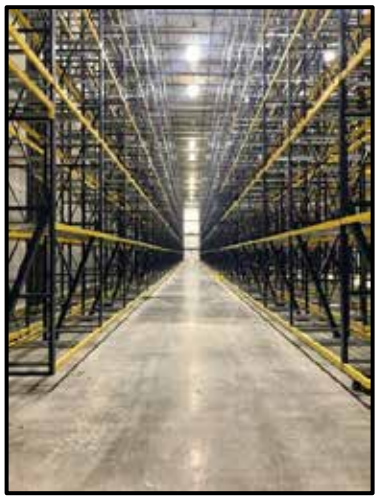
Lowest push back force ensures controlled movement and reduces forklift wear and tear

Up to 7 Pallet Deep

Custom-design Carts Available

- Additional pallet positions and the ability to use a shorter beam equates to an increase of bays of storage per row
- Increased efficiency & faster throughput as forklift operators do not need to avoid racking base plates & anchors
- Lower rack maintenance cost
- Lower forklift outrigger maintenance cost
- No need for post production (cost save on post protection materials and installation helps to offset the upgraded upright)





Heavy Duty Rack Protection

Can be stand alone for use with any rack

Row End Guards

Jumbo Truss

Cornerstone Base

or integrated into RBI uprights – to maximize floor space

RIDG-U-RAK®
STORAGE SYSTEMS

Ridg-U-Rak is one of the leading rack manufacturers in North America and is one of the founding members of the Rack Manufacturers Institute (RMI).

Ridg-U-Rak provides selective and high-density storage racks, multi-level pick modules, drive-in, push-back, light-duty wide-span racks and specialized storage systems for manufacturing, warehousing, logistics and distribution operations.

Ridg-U-Rak pallet racking is provided with a powder-coat finish for improved longevity and durability.

Standard frame color is forest green. Standard beam color is safety orange.

Push Back Systems

- High Productivity
- Stock Rotations
- Lower Cost
- System Flexibility

Drive-In Systems

- Fewer Aisles
- Increased Storage Space
- Depth of System Unlimited

The Ridg-U-Rail 2000 is a roll-formed rail offering unparalleled strength and rigidity.

The Space Saver Rail saves vertical space when height is critical.

UNARCO

UNARCO Material Handling, Inc. is an industry leader with the widest industrial shelving product assortment available and the engineering experience to complete even the most complex projects. For over 50 years, they have helped define the material handling industry.

Teardrop frames are compatible with most industry interchangeable pallet racking. Patented locking devices for roll-formed beams provide the rigid connection needed to ensure safety.

- Uprights are painted deco green
- Beams are painted safety orange
- Beams adjust on 2" centers

Call Crown for pricing and availability.

Pallet Rack

Storage Rack Products

Product line offerings include both structural and roll-formed Pallet Rack, Carton Flow, Pallet Flow, Push-Back Rack, Cantilever, Drive-In/Drive-Thru and highly-engineered Pick Modules.

UNARCO also manufactures freezer racking applications, hybrid structural rack, mezzanines and RhinoTrac heavy-duty carton flow.

UNARCO offers a complete system solution.

Optional pallet rack accessories:

- Column Protectors
- Row Spacers
- Pallet Rack Crossbar Supports

Also available: Hybrid Pallet Rack — structural steel uprights with roll-formed beams for durability and affordability.

NUCOR®
WAREHOUSE SYSTEMS

TUBERACK

SMARTER. SAFER. STRONGER.

Tuberack Already Complies with Even the Most Recent Codes, Allowing Its Superior Design to Save Time, Cost and Hassle Without the Need to Retrofit.

TUBERACK BENEFITS

STRONGER.SAFER. SMARTER.
TubeRack's A500 Grade-B structural tubing design utilizes the same structural tubing used in building columns and bridges, and provides up to twice the straightness tolerances of structural channel as defined by ASTM specifications.

SAFETY ABOVE ALL
Our design significantly lowers the potential of product shed in a seismic or impact event. The ½", Grade 5, bolted connections eliminate the potential of a broken horizontal or diagonal brace going undetected in a typical existing racking system.

IMPACT RESISTANT
Up to ¼" thick welded shapes with dimensions up to 5" x 3" providing the highest impact resistance in the business.

SHIPPING COSTS
TubeRack allows for maximum weight over cube, providing an average 35% savings in shipping costs.

MODULAR DESIGN
TubeRack provides a modular design making racking configuration changes or repairs simple and extremely cost effective. Both height and depth of the design can be altered affordably and with little effect on ongoing operations.

SEISMIC FORCE DEMAND TO INCREASE BY MORE THAN 50

RMI BUILDING CODES ARE STRICTER THAN EVER

BoxLogix Automation

Looking to Automate your Warehouse or Distribution Operations?

Diagnose - Design - Deliver

BoxLogix is a full-service material handling system integrator. We service all North America and specialize in B2B, Direct to Consumer, Post/Parcel and Retail distribution concepts, technologies and installations to include but not limited to:

- Carton and Pallet Conveyance
- Pick Modules, AS/RS (unit-load & mini-load) & Goods to Person Solutions
- High Speed Sortation & Palletization
- Print and Apply, High Speed Weigh-in-Motion Scales & DIM Solutions
- Robotics (picking and palletizing), Voice & RF
- Preventative Maintenance

BoxLogix has performed a broad spectrum of material handling projects across the United States. This includes projects throughout many different market types, from new green field state-of-the-art facilities to retrofits of existing facilities. We have developed tremendous industry partnerships to provide top of the line equipment and solutions customized to the needs of your project and we pride ourselves on outstanding customer service.

dexco®

I-BEAM RACKING SYSTEMS

Engineered for Durability and Safety

We specialize in custom industrial engineering solutions to enhance warehouse efficiency, improve selectivity, and maximize storage density. Our racks are designed for heavy, irregularly shaped, and sensitive materials. We manage the entire manufacturing process, ensuring quality from inception to completion at our Leola, PA headquarters.

Handle Heavy Materials

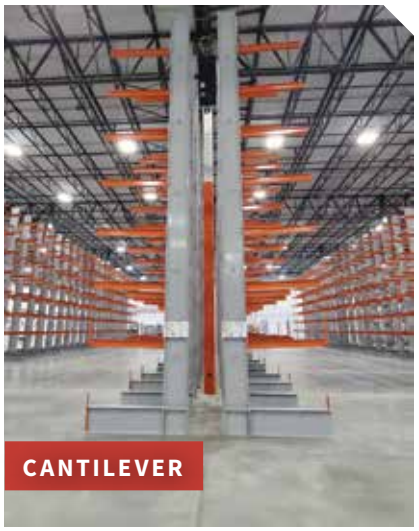
Holds various sizes and supports 20,000+ pounds per arm or 80,000+ pounds per shelf.

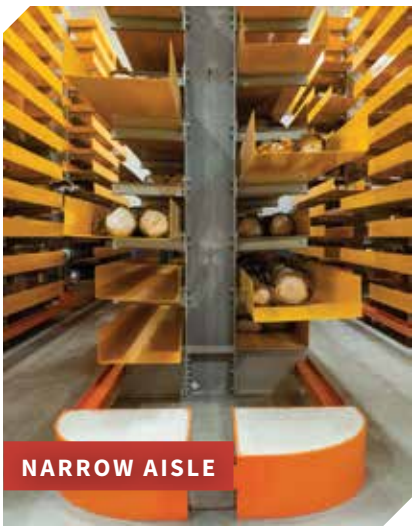
Improve Density

Boost your storage capacity while preserving valuable production floor space.

Flexible Design

Easy-to-install modular designs allow for staged builds and expansion with additional bays.





Storage for Accessibility

+ Safely store a variety of materials including metal coils, stamping dies, plates, blanks, extrusions, pipes, tubes, lumber, and more.
+ Compatible with forklifts, side loaders, cranes, and automated retrieval systems.
+ Available in single or double-sided configurations.
+ Adjustable bolted shelf beams and arms to accommodate changing storage needs.
+ Rust and wear protection with factory-applied powder coating in seven standard color options.
+ Optional hot-dip galvanized coating for enhanced corrosion resistance and longevity.
+ All I-beams constructed with a 50 KSI minimum yield for superior durability.
+ Engineered using AISC standards for bridges and buildings for safe industrial storage.

MODERN EQUIPMENT COMPANY, INC.

MECO OMAHA

Celebrating over 117 Years of Providing America with the Finest Material Handling & Storage Equipment.

CANTILEVER RACK

FOR STORAGE AND EASY SELECTION OF BAR STOCK, PIPE, STRUCTURALS, TUBING AND OTHER LONG ITEMS OR WHERE UNINTERRUPTED DECKING IS REQUIRED.

MECO OMAHA manufactures five basic capacity series to fit your storage requirements – from Series 1000 Medium Duty through the Series 5000 Extra Heavy Duty.

Available in upright heights from 6′ to 20′ with 2′ through 10′ brace widths (measured on center). Arms are completely adjustable on 3″ centers to accommodate an infinite variety of items. Straight arms are available in seven to nine different lengths with or without lips. Inclined arms are available in seven lengths with or without lips. A wide range of base sizes allows custom designing of rack systems to your individual needs. Uprights are punched on both sides for versatility. They can be used single sided or double sided depending on the base used.

MECO OMAHA Cantilever Racks are modular within each basic capacity series so that additional arms, uprights and cross braces may be ordered at any time to add to your existing system.

Special labeling requirements can be met at an additional cost. Standard color for all cantilever rack components is gray. Custom colors available at additional cost. Specially designed **MECO OMAHA** Cantilever Rack systems may be required to meet your needs.

MECO has been awarded the 2024 MVS MOST VALUABLE SUPPLIER Awarded by MHEDA

CROWN and **MECO OMAHA** representatives will work with you to develop the most feasible and economical rack system for your special situation.

Contact a Crown Dealer for a quote or help with designing your Cantilever Rack System.

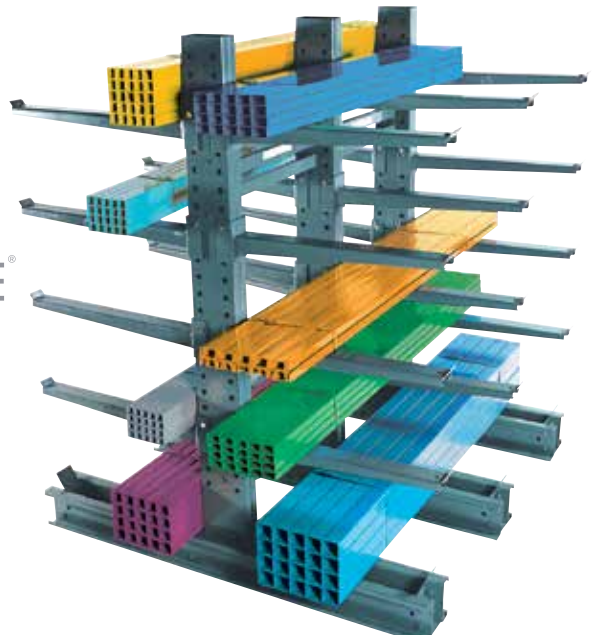
SPG™ | JARKE®



Steeltree 25 Series Cantilever Racks

The Steeltree Heavy Duty is for storing large amounts of heavy materials in a compact area.

Steeltree is an excellent option for handling awkward or extremely heavy stock with a fork lift. Ideal for bar and tube stocks and sheet material. Units assemble as a single rack or a continuous assembly of multiple racks to handle longer materials.

Standard features & benefits:

- 800 lbs. to 3,000 lbs. capacity per arm
- Tapered column design compensates for deflection (⅛" per foot)
- Double tube bracing
- Sold as units or as component parts
- Single and double sided racks in four column heights: 8', 10', 12', 15'
- Straight or inclined arms in lengths from 12" to 60"
- Arms adjust on 3" centers. Removable lips on the ends are available
- Assembly is quick & easy no special tools needed

BPG | JARKE

U-Racks

Low-cost storage for long, unwieldy materials.

Bar Storage Racks

Horizontal Bar Rack is a terrific option for storing angles, bars, and pipes up to 10' long. Additional units could be positioned to accommodate items longer than 10' with two or more units.

Vertical Bar Rack has all-welded steel components that bolt together for quick and easy assembly, creating a rack that stores long material vertically. Arms extend 6" beyond shelves creating divided storage. Four separate shelf levels allow for storage of smaller lengths and drops in same bay. Use in tool rooms, maintenance areas, machine centers, storage areas and point-of-purchase displays.

Reel Racks

Convenient upright rack storage for multiple sized reels.

C. Reel Racks

- 2000 lb. load capacity per level with 10,000 lbs. maximum capacity per rack
- Provides quick uncluttered access
- Comes standard with 4 sets of rack axle brackets, which accept axles up to 2" diameter
- Axle brackets adjust on 2" center
- 24" maximum reel dimension

Dyna-Flo

The Most Flexible Drop-In Carton Flow System Available

- Easy to handle drop-in sections of gravity flow wheeled conveyor to convert static pallet rack into a productive flow system.
- Easily configures for different carton sizes.
- Mix and match section widths (12" & 16") to fully fit beam width.
- Capacities shown are with no intermediate support.
- Attachment brackets for behind-the-beam mounting provides low profile.
- No reconfiguration required when box sizes or SKUs change.

Please contact Crown Lift Trucks for a Carton Flow System quote today. Our experienced sales force will provide you with competitive pricing and assist with designing a rack layout that meets your requirements.

Rack Deck
- Installed on step ledges of pallet rack beams
- Cut to fit in any rack manufacturer's beams (including shelving)
- Top of deck is flush with top of beam
- Smooth top surface protects products
- Products slide easily on and off
- Available in 16, 18, 20, 22 and 24GA steel
- Widths from 6" to 36" at 6" increments
- Finishes available are painted or galvanized
- Also available perforated or vented
- Typical applications:
  - boxes (record centers/archive industry)
  - carpet and fabric
  - heavy duty die storage
  - lumber (cantilever rack)
  - palletized loads
  - fire baffles

Rain Deck
- Open area, corrugated rack deck
- Punched / perforated for sprinkler drainage
- Installed on step ledges of pallet rack beams
- Cut to fit in any rack manufacturer's step beams
- Top of deck is flush with top of beam
- Smooth top surface protects products
- Products slide easily on and off
- Available in 20, 22 and 24GA steel
- Widths from 12" to 36" at 6" increments
- Finishes available are painted or galvanized
- Typical applications:
  - boxes (record centers/archive industry)
  - carpet and fabric
  - cantilever rack
  - palletized loads

SUMMIT METAL PRODUCTS, INC.

Cover Plates
- Smooth top surface protects products
- Fits over rain deck, rack deck, crossbar supports, wire deck
- Waterfall flanges formed to fit inside or outside of beams
- 10-22GA galvanized steel
- Available solid or perforated
- Typical applications:
  - furniture storage
  - retail storage
  - delicate items (fabric, carpet…)
  - goods with legs or casters

FlueKeeper® KEEPS FLUE SPACES OPEN

DACS inc.

A simple, cost effective product to keep stored material out of required rack transverse flue spaces

- Allows your sprinkler system to function as designed
- Provides 3" transverse flue space on each side of rack post
- Satisfies insurance guidelines and local building inspector criteria (may be required by International Fire Code®)
- Spring-loaded FlueKeeper is easy for maintenance personnel to install from the aisle side of the rack - requires no special tools or skills
- Boltless Front & Rear connections make installation possible without removing any items

FlueKeeper® from DACS
US Patent #7,857,152

FlueKeeper® HD

- Keeps palletized material out of rack transverse flue spaces
- Heavy duty tube member designed for up to 48" frames (larger on request)
- Boltless front & rear beam type connections

Additional FlueKeeper styles:

- Fixed Length
- HD Structural
- Center FlueKeeper
- Rear FlueKeeper

SHIPPING INFORMATION:
F.O.B. Portsmouth, VA

Punch Deck® OPEN AREA RACK DECK

DACS inc.

Fire Protection - Large openings (More than 50% open area) allow sprinkler water through to lower levels

Uniform Strength - High capacity with low deflection

No Waterfall Edge - Flush design for easy labeling on beam face

Hi-Tech Look - Bright, galvanized finish

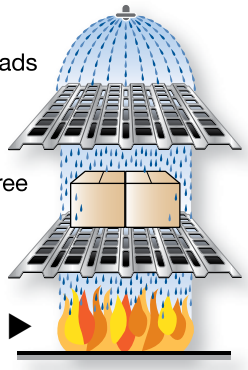
Product & Back Friendly - Smooth surface reduces product damage and possible hangups that can cause injuries

Freight Savings - Up to 3 times more square footage of Punch Deck can be shipped on a single truck than most other deck products.

Punch Deck® Plus

Punch Deck® Plus is open area flat cap over open area Punch Deck®.

- Ideal for storage of items with legs or point loads (furniture, equipment with wheels, etc.)
- Easy to install in either pallet rack or cantilever rack
- Galvanized finish is bright and maintenance free
- Offered in a wide range of shelf sizes and load capacities - please call for sizing and capacity details.



Punch Deck's open surface area allows sprinkler water through to lower levels.

Punch Deck® from DACS

Portable Stacking Racks

For storing or transport, these long-weathering racks save space and time.

Utilize vertical storage space by safely stacking these racks up to 5 high. Portable for easy handling of loads up to 4000 lbs. Rugged design stands up to heavy industrial requirements and prevents product damage. Save time by moving more material with fewer moves. Side and end frames are available to prevent load shifting. **Prices listed are for base frame style 4, with open deck.** For other base frame or deck styles, call for pricing.

Warehouse Signs and Labels

ASG Services are the leading supplier of warehouse signs and labels to the logistics and distribution industry. Products are designed and manufactured in-house to meet customer specifications or standard configurations which we can recommend.

Warehouse Signs

All types are made, from stop signs, to shadow boards and floor signs to long-range scanning barcode hanging signs. Small orders and major projects are handled every day, along with national installation services.

Warehouse Labels

Orders of 25 to over 2.5 million are handled by our production facility, with durable custom label solutions and installation services setting industry benchmarks for many years. We have a label for every application in logistics. Ask if your needs are not listed.

Label Holders

We select the most popular label holders used on our major projects, which work well with rack beams and shelving. Adhesive and magnetic options are provided to cover all dynamic labeling needs.

Data Support and Installation Solutions

We can provide support services for location reference data, including formation and configuration which is confirmed prior to production. Project managed installation services are provided throughout the US by our own teams who are trained in house.

A. Barcode Hanging Signs

Supplied with a 3" return set to a 45° angle, complete with two holes so the sign can be attached to conduit, wire or chain

If custom sizes, or configurations are required, please contact us for pricing and lead times.

B. Rack Load Signs

Printed direct to board, these load signs present important information for storage structures and are approved by the Rack Manufacturers Institute (RMI).

Send your content and we will build your layout for approval. Sold as singles and supplied with adhesive pads or screws.

C. Aisle Signs

Produced from expanded PVC with content applied direct. Black on white and full color available. Supplied as flat signs or with a 90° bend. Install with adhesive pads, magnets or drill and screw in place.

D. Aisle Stop Signs

Small enough to attach to racks in aisle, to improve traffic safety. Made from expanded PVC.

Rack Labels

Rack labels are designed and produced in-house. Standard sizes are listed here but can be customized, Installation services available throughout the US. Full support provided to meet your customer needs.

E. Magnetic Labels
Magnetized rubber with printed polyester surface.

- Apply at almost any temperature.
- Reposition without mess or scraping.
- Dynamic numbering system.

G. Reflective Labels
Retro-reflective material with black print for long-range scanning.

- Self adhesive backing.
- Highest grade 3M material.

F. Polyester Labels
Strong and stable material retaining original profile and print clarity.

- Hard-wearing scratch-resistant print.
- Permanent adhesive.
- All bar codes types.

H. Multi-Level Plastic
Vandal resistent material with high strength adhesive and high definition print.

- Ask about freezer adhesive.

Pricing based on minimum order of standard sizes. If custom sizes are required, please contact your Crown representative for pricing.

TROAX®

MACHINE GUARDING SOLUTIONS

We offer a flexible modular panel system, which together with our unique solutions for fixings and posts, fit our mesh, full steel, and polycarbonate panels. As many of our fixing systems use the same posts, all can be combined or interchanged with the machine guarding for the most optimal solution for your requirements.

Rapid Fix

Quick and easy access when you need it

Rapid Fix is a cleverly designed machine safety system that offers a quick and easy access to the hazard zone. The lower bracket has a slot that the panel hooks into and the upper bracket has an innovative locking mechanism that snaps the panel into its correct position.

Smart Fix

A strong and proven system

Smart Fix is our well-proven safeguard system with many unique properties. The fixings are tightened to the post and can easily be moved up and down to adjust for uneven floors and tunnels for conveyors.

Competition line, stainless

Competition-Line is a modular machine guarding system engineered for the food industry that satisfies the requirements for hygiene, ease of cleaning and safety. Competition-Line is a complete stainless steel system available in AISI 304, and acid-resistant AISI 316 upon request.

Easily adjusted on site

The system is easy to install and possible to adjust in both height and length on site. Based on welded mesh panels without frame it allows for any cut-outs you might need to make in your guarding. Such flexibility ensures that you always get the best possible individual solution for your machine protection and guarding.

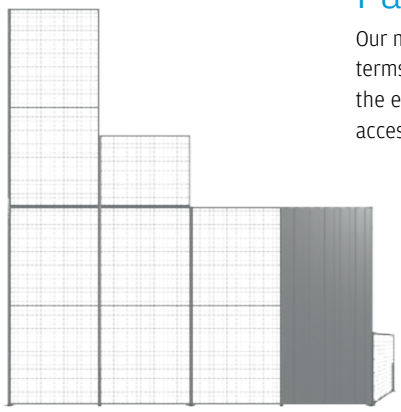
Please contact your Crown representative for more information.

WIRE MESH PARTITIONS, CAGES & PALLET RACK BACKING

It is no coincidence that our systems can be adapted and constructed to suit your specific needs. Everything is well planned down to the smallest detail. Our systems can be combined with each other, something that is unique and creates a future-proof investment.

Partitioning with mesh walls

Our mesh panels or full steel panels are an excellent alternative to brick wall installations in cost terms and are an excellent complement to partitioning walls. You can build the wall right up to the existing ceiling or, alternatively, use our mesh ceiling, which provides an excellent overview, access for light and sprinkler systems and prevents unauthorized persons from gaining access.



2”x 2”

50x50 mm mesh panels are an ideal solution for providing a safe working environment that allows natural light and ventilation.

Tube UR: ¾” x ¾” or UX: 1 ¼” x ¾”
Wire UR: 10 guage or 8 guage.

Heights:
31½” and 87”

Widths:
8”, 12”, 27½”, 31½”, 39½”, 47”, 59”

Post

Our posts have a stable design and are the backbone of our systems.

Cylinder Lock

We offer a number of different Euro cylinders. Contact your seller for more information.

Padlocks

Where cylinder locked doors are not required, you can specify our doors as padlock type. Contact your seller for more information.

Panic bar

If you need emergency evacuation facilities, then choose our Panic Bar Door. The door is available as a hinged door with cylinder locking. Contact your seller for more information.

Musca Pallet Rack Backing

The Musca pallet Rack Backing system prevents any risk of spillage from pallets in warehouse storage. This is a system that has been created for safe handling and storage of products in a logistics environment.

Rack Backing

Fitting our Musca Pallet Rack Backing is easy using brackets that fit most pallet racking types. The screen prevents pallet spillage.

Musca Bracket

High Assembly

Musca Bracket

WireCrafters

Pre-Engineered Enclosures

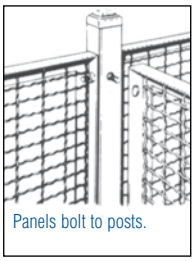
With 4' Wide Sliding or 3' Wide Hinged Gates

Choose the size and gate type that best fits your needs. Dimensions listed show the area to be enclosed; actual structure will be slightly larger (2" to 8"). Each item listed includes gate with cylinder lock, assembly hardware, floor anchors.

Universal construction, works for left or right hand, inside or outside mounting or swing.

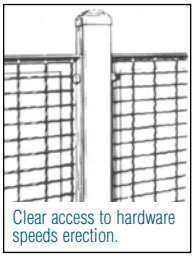
Custom sizes available.

Posts anchor directly to floor.



Panels bolt to posts.

Hardware is inaccessible from the outside.



Clear access to hardware speeds erection.

Options

A. Service Windows

Lockable slide-up window secures opening when unattended. **Window opening:** 24"w x 20½"h; **shelf size:** 24"w x 18"d x 10 gauge; **shelf height:** 42¼" off floor level; **panel size:** 4'w x 8'h; transoms extend height to 10' or 12'. Counter balanced, hinged, or mechanically operated windows in various sizes are available.

B. Vertical Rise Gates

Sized to match customer specifications. Gates slide on ball-type casters. Counter balanced, pneumatic, or electric operated gates available. Often used around vertical lifts where floor space is limited; can be integrated with automated storage systems.

C. Tunnel Doors

Designed for no overhead obstruction. Leading edge of door rolls on floor casters. Rear of door hangs from door track. All sizes made to order. Ideal for high traffic areas and overhead crane access.

Western Pacific Storage Solutions

SERVING THE SMARTEST LINKS IN THE SUPPLY CHAIN™

The original boltless shelving!

RiveTier® Boltless Shelving assembles quickly and easily using only a rubber mallet. No Cross Braces means you have double-sided access to your materials for efficient loading and unloading. In minutes, your RiveTier storage system is ready to work!

- 40% less expensive than metal shelving
- 30% less expensive to assemble than metal shelving
- Heavy-duty bulk or low profile applications
- Typically utilizes particle board decking – wire or steel shelves available

SHIPPING INFORMATION: 7-10 Days, F.O.B. Paris, KY; Plano, TX; San Dimas, CA

EZ-GLIDE Specialty Racks

High density storage, EZ-GLIDE's 100% shelf extension allows quick, efficient loading and unloading of bulky items.

Easy to install, the EZ-GLIDE has welded and bolted construction with a solid steel top deck for extra rigidity (top deck does not roll out). Top deck may be used as the pick up point to conveniently relocate empty racks and for use as additional storage.

All standard EZ-GLIDE units have available add-on units that share a common upright. The add-on is for wall-to-wall racking of shelves … or any length in between. The add-on connects to existing shelves creating a continuous assembly of any number. Units should be anchored to the floor (anchors not included).

EZ-GLIDE Specialty Racks

- 2,000 lb. load capacity per shelf
- Full 100% extension of every shelf
- Individual shelf height adjustable, based on 2-inch centers
- Modular construction allows bolt-together expansion of multiple units
- Horizontal access by forklift truck, cart, hand truck or any method with a height adjusting bed
- Vertical access via crane, manipulator or monorail system
- Welded and bolted steel construction
- Nine starter & add-on models available
- Shipped knocked down

tennsco Storage Made Easy

Boltless Steel Shelving

Z-Line shelving is ideal for light to medium duty applications (shelf load capacities up to 750 lbs.). Posts are 84" high. Shelves are 22-gauge steel with boxed-formed front and rear flanges and fully lapped and welded corners. Top and bottom shelves are supported on four sides with 16-gauge supports. Intermediate shelves are supported with shelf clips. Each unit consists of five shelves. Medium gray or sand finish.

Heavy-Duty Reinforced Shelving

Each shelf will support up to 4000 lbs. evenly distributed. Maximum capacity per unit is 13,000 lbs. Each unit has (5) 16-gauge shelves that waterfall over the front and back shelf supports. Shelves are supported on all four sides with 14-gauge shelf supports with double rivets. 36", 48" and 60" wide units have one center support; 72" wide units have two supports; and 96" wide units have three supports. Powder coat medium gray finish.

Boltless Sloping Shelf Units

Ideal for light to medium duty applications (shelf load capacities up to 400 lbs.). Units can be placed back-to-back with shelves positioned in a reverse slope. A second back-to-back option allows the shelves to be positioned in a continuous slope. The 16-gauge shelves have a 2" wide side flange and a ½" high front lip that acts as a product stop. 18" deep shelves have a 14˚ slope and 24" deep shelves have a 12˚ slope. Each 84" high unit consists of five angled shelves and a flat canopy frame. Medium gray or sand finish.

tennsco Storage Made Easy

Bulk Storage Rack

Bulk Storage Rack is one of Tennsco's most versatile storage solutions for heavy and large items. Assembles in minutes with no hardware or tools required. Ideal for bulky items, choose from particle board decking, corrugated steel decking, or wire decking. Shelves support up to 4,000 lbs., evenly distributed, depending on size.

Particle Board

Industrial Grade 5/8" thick provides an economical deck.

Corrugated Decking

22 gauge steel provides a smooth solid surface to store item.

Flat Wire

Allows sufficient light and airflow.

Shelf Levels

Includes (1) pair of beams, decking, and recommended quantity of reinforcements.

Drawer in Shelving

Shelving with modular drawers can eliminate problems such as poorly lit shelves and difficulty accessing materials. The modular drawers have a 400-lb. capacity and can be installed in more than 35 brands of shelving.

With sturdy construction and a distinctive appearance, Rousseau drawers are available in widths of 36", 42" and 48", and depths of 18" and 24". Four standard bank heights are available: 18", 24", 36" and 48". Your storage system will evolve with the pace of your business by adding drawers to your existing shelving units.

The unique design of the R Drawer is a copyright of Rousseau Metal Inc.

speed//cell

Save time, save space and save money with SpeedCell

Dynamic high density storage for faster each picks

- Increases storage density by 40-60%
- Reduces labor costs up to 40%
- Transforms space into useable storage
- More SKUs - Less Space - Greater Efficiency
- Ergonomically designed
- SpeedCell Storage Capacity
  Cell: up to 35 lbs.
  Column: up to 240 lbs.

MODULA LIFT

THE IDEAL SOLUTION FOR ALL POSSIBLE APPLICATIONS

Recover up to **90%** of valuable floor space. Increase the **speed, efficiency, accuracy** of your picking operations.

Technical highlights

Unit heights
10'10" - 52'10"

Net tray payload
551 - 2,182 lbs

Tray widths
59 - 75 - 98 - 122 - 161"

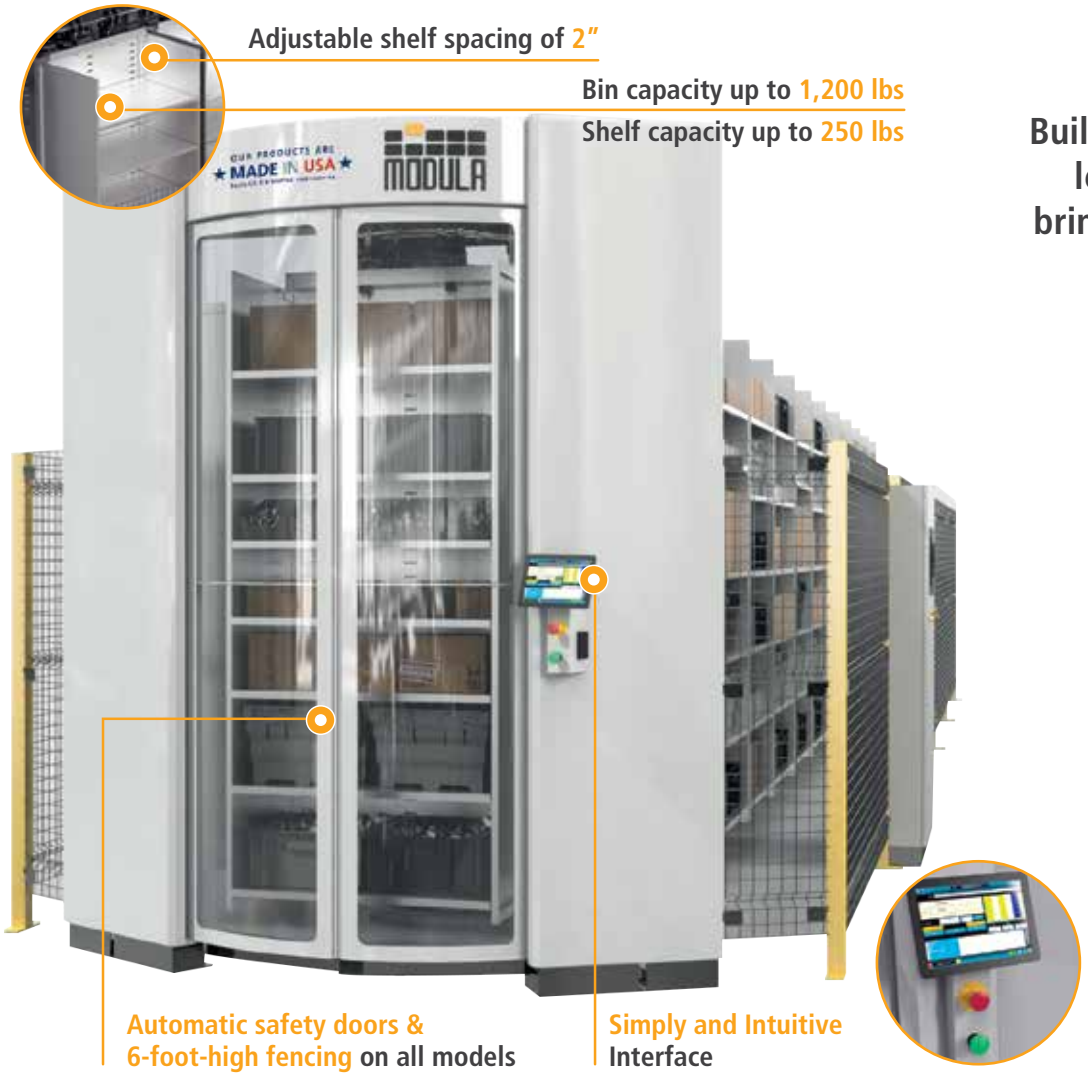
As much as **9,050 sq. ft.** of storage in **only 150 sq. ft.**

154,500 lbs
gross unit load capacity

Up to
300 lines
per hour

HIGH-PERFORMANCE ORDER FULFILLMENT IN LOW CEILING ENVIRONMENTS

MODULA HC



Building on a 30 year legacy, Modula HC brings a new level of performance, reliability, safety.

Technical highlights

Bin width
24" or 36"
Bin depth
18" or 24"
Bin height:
84" or 96"

High productivity
with carousels in pod

Up to
500 lines
per hour

One WMS Platform
to operate all Modula products

Work Assist Vehicle

Designed and manufactured by Crown to help people work faster and safer.

- Works efficiently and quietly in almost any indoor application
- Elevates a person to nearly 10 ft.
- Travels nearly twice as fast as the average walking speed
- Navigates easily in the tightest working spaces

Specifications

- Operator pick height: 17 ft.
- Load tray capacity: 200 lbs.
- Vehicle weight: 1420 lbs.
- 24 volt electrical system with built-in charger
- Optional power load tray
- Optional lithium-ion power source

Mighty Line 5s Floor Color Recommendations

Use Mighty Line safety tapes, floor markers, and safety floor signs to identify, communicate, and reinforce proper safety practices.

Your facility will shine with the proper placement inventory tools, and machinery identified with brightly colored Mighty Line floor tapes, markers and signs.

Set things in order by using different color Mighty Line floor tapes and floor markings to show work flow patterns, establish borders between work areas and mark the proper placement of tools, inventories, and machinery. Sort your critical work areas and crucial inventory areas with Mighty line floor tape and floor markers to obtain optimal production.

Sustain your 5s implementation by standardizing your 5s procedures and using the same Mighty Line floor tape products for certain areas throughout the facility.

SHIPPING INFORMATION: 9-10 Days, F.O.B. Wadsworth, OH

MIGHTY LINE®
The Only Durable Stripe
Patent No. 8,088,480 Patent No. 8,343,292

Mighty Line Floor Tapes

Mighty Line® patented floor tape is the most durable floor tape available. Spend more time on value added actions–producing, receiving, and shipping materials–and less time on non-value added activities such as painting floor lines. Mighty Line floor tape is available in many colors and patterns in four different widths.

Benefits of Mighty Line!

- Separating pedestrian traffic from motorized vehicles.
- Illuminating walkways during power failures.
- 5S lean manufacturing improvements.
- Color code different areas with specific color tapes.
- Easy to install and lasts!
- 3 year limited warranty.

Mighty Glow Floor Tapes

Mighty Glow® a unique floor tape developed for emergency purposes. Mighty Glow's ½" luminescent center line highlights exit paths during power outages.

A MODERN SOLUTION FOR YOUR SIGNAGE CHALLENGES

Durable. Flexible. Safe.

These signs and equipment can be used in rugged conditions within high traffic and high-risk areas, on moving equipment and in low light environments. Use in wet, cold humid, or dusty environments where painted and adhesive signage can wear off quickly. Increase safety with projected signage that withstands both foot and vehicle traffic.

- Improve OSHA compliance and safety
- UL approved (PCE-series projectors)
- Minimize maintenance costs
- Works where paint and tape is impractical
- Active signage = better visibility
- Easy in-house installation

SAFETY

Eco Spot PCE Series Projectors

- For Rugged, Dusty and Wet Environments
- Passive cooling, no fans or motors
- Long service intervals
- Power 20-300W, 95-277V
- UL/cUL rated for wet environments

c UL us LISTED

Sign Projector Options:

-- C20PCE: Specs for Bright Conditions
Sign Size: up to 3' / Projection Dist.: up to 16'

-- C40PCE: Specs for Bright Conditions
Sign Size: up to 4' / Projection Dist.: up to 32'

-- C60PCE: Specs for Bright Conditions
Sign Size: up to 6' / Projection Dist.: up to 40'

-- B90PCE: Specs for Bright Conditions
Sign Size: up to 9' / Projection Dist.: up to 40'

-- B150PCE: Specs for Bright Conditions
Sign Size: up to 12' / Projection Dist.: up to 48'

ECO Lines Virtual LED Projectors

ECO Lines Virtual Line LED Projectors project a 4 to 6 inch thick, permanent floor line that eliminates the need for repainting. Compared to laser projectors, the lines are much thicker. ECO Lines projectors are designed for rugged and wet environments and require no maintenance.

PROJECTED VS TRADITIONAL SIGNAGE

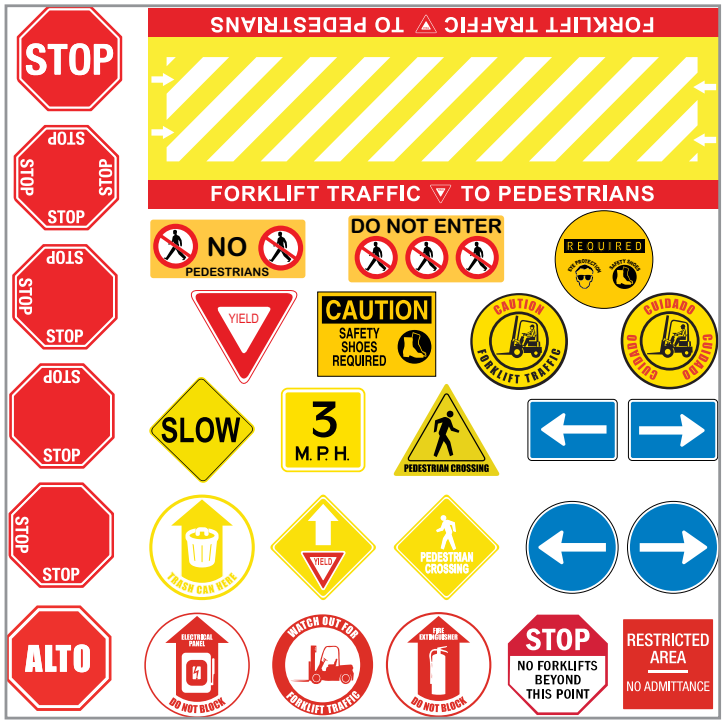
Compare	Projected Signage	Traditional Signage (Paint or Adhesive)
Longevity	**Long:** Life of the projector (6+ yrs*)	**Short:** 3-9 months*
Maintenance	**Low:** Inexpensive and fast. Minimal impact on production.	**High:** Expensive and time intensive. Significantly slows or halts production.
Cost	**Low:** $500 to $6k one-time investment*. Typical ROI time 1-2 yrs*	**High:** $1k to $4k annually*
Visibility	**Excellent:** Active projection = better visibility. Blinking, rotating, and motion sensor capabilities can further enhance visibility.	**Limited:** Workers become accustomed to traditional signage. Worn signage is hard to see.
Durability	**High:** No wear and tear from foot or vehicle traffic. Stands up to humidity, cold, and dirt.	**Low:** Foot and vehicle traffic wears off both adhesive and painted signage.
Flexibility	**High:** Swap out the gobo to change signage or just reposition.	**Limited:** Signs must be scraped off and reapplied.

*Based on typical scenarios, the outcome may vary widely depending on specific applications.

PROJECTED SOLUTION

TRADITIONAL SOLUTION

SIGN OPTIONS



Projection of safety images, speed zones, pedestrian crossings, company logos on floor (with examples of projected images).

- Large projection sizes and distances
- Highly efficient design
- Interchangeable projection lenses
- Various projectors available – Please contact Crown for specific requirements

APPLICATIONS

Walkways

- Typical size 10-15 ft.
- Projector power 90-300W
- Typical projector distance 10-42 ft.

Projected Walkway / Thruway

Large Intersections

- Spans longer than 15 ft. are done with multiple projectors

Signs

Small

- Sign size 2-5 ft.
- Projector power 25-60W
- Typical projector distance 6-36 ft.

Large

- Typical size 6-12 ft.
- Projector power 90-150W
- Typical projector distance 10-36 ft.

Corner Sentry™

Corner Sentry is the only energy absorbing corner protector that bounces back to retain its shape impact after impact. Ultra-flexible and molded from an EVA polymer, Corner Sentry installs using fasteners (not included) through integrated grommet recess, adhesives, or by strapping around included belt recess.

Park Sentry®

Park Sentry is the original, minimal footprint bump-n-go column protector for parking applications. Molded from proprietary ARPRO® material, Available in square, round and wall configurations in standard yellow or black. All sizes 39.3" tall.

Square: Four corners, four panels interlock to surround square or rectangular columns. Standard product fits 24" x 24" column. Customizable.

Round: Shaped to wrap around any diameter round column. Panels come with integrated tab and slot system and can be cut to any diameter. Layer for additional protection.

Wall System: Provides a tough layer of protection to walls vulnerable to vehicle collision damage. Adheres to the space using pre-mounted wall clips (purchased separately).

Rack Sentry®

The original impact-absorbing rack upright protector. Molded of ultra-flexible EVA polymer, the product absorbs impact to reduce or eliminate forklift collision damage. This product is easily attached to the rack by two nylon straps with hook-n-loop fasteners. Five widths and three configurations mean Rack Sentry fits on virtually any pallet rack upright.

Corner Sentry

- Corner Sentry is a 90° corner protector
- 42" tall
- Projects 4" from each corner
- With 4 offset recessed grommet holes

NOTE: An increase in raw material costs may increase catalog prices.

The inventor of impact-resistant equipment for industrial buildings. All Sentry products are highly visible, incredibly easy to install and highly resistant to impacts. Reduce or eliminate expenses from vehicle collisions with Sentry's protective products.

Column Sentry®

The original, patented column protector, Column Sentry surrounds building columns with a heavy-duty layer of protection against forklift damage. Available in 15 sizes including two sizes that accommodate fire extinguishers. All sizes 42" tall. Installs easily using two nylon straps with hook-n-loop fasteners. No tools needed. Features Sentry's exclusive patented air-vent system that allows air to escape during impact without splitting the sides.

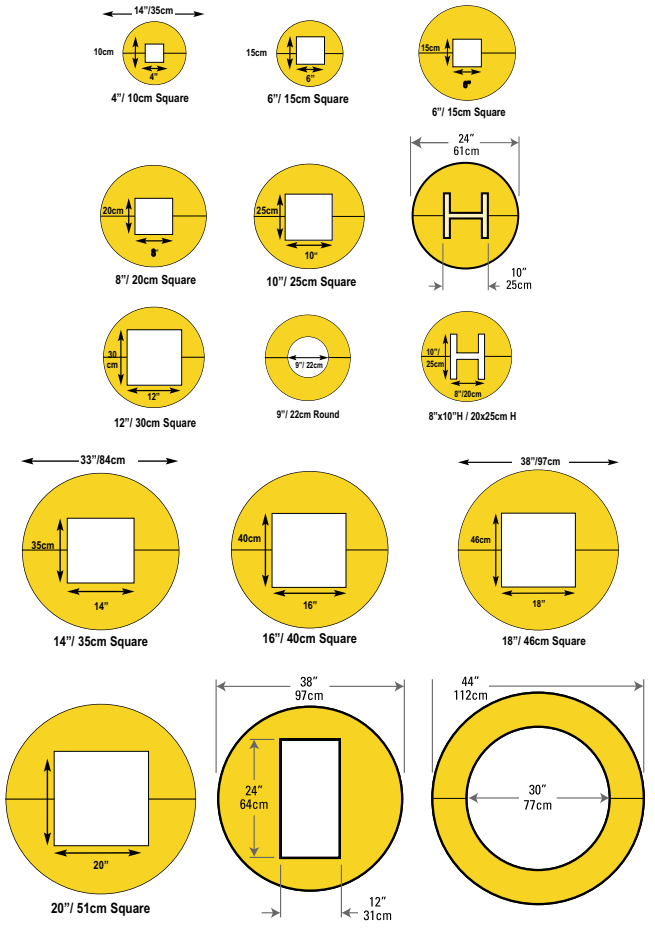
COLUMN SENTRY® SIZES AND SPECIFICATIONS



- ▶ All Column Sentry® products are 42" (107cm) high
- ▶ 4"/10cm and 6"/15cm thin products are 14" outside diameter and weigh 22 lbs. (10kg)
- ▶ Sizes up to 12"/30cm square are 24" (61cm) (d) and weigh 56 lbs. (31kg)
- ▶ 14"/35cm and 16"/40cm sizes are 33" (84cm) (d) and weigh 75 lbs. (34kg)
- ▶ 18"/46cm and 20"/51cm products are 38" (97cm) (d) and weigh 90 lbs. (41kg)

***Types:**
R - Round
S - Square
H - H Beam or I Beam
FE - Fire Extinguisher Cutout

POST GUARD®

Bollard Covers

- Bollard covers are manufactured using a 1/8" thick High Density Polyethylene (HDPE) with stronger intermolecular forces, tensile strength and solvent resistance
- Contains ultraviolet additives that resist fading and it withstands extreme temperatures
- Guaranteed to be fade resistant for 5 years - longest in the industry
- Quick, easy installation and secure fit

HEIGHT GUARD™

Height Guard

- High Density Polyethylene (HDPE)
- Designed for all weather conditions
- Easily adapts for quick installation
  - 4.5" Dia. x 80"
  - 7" Dia. x 80"

Bollard Covers

- Durable, flexible HDPE plastic designed to absorb impact
- Protects both vehicles and structures from expensive damage
- Two recessed 3M reflective stripes increase visibility and safety
- All colors are available with or without taped stripes

HEARTLAND ENGINEERED PRODUCTS
A HEARTLAND COMPANY

Saf-T-Rail Systems

Reduce machinery downtime, inventory loss, and work-related injuries. Heavy-duty columns and rails form protective barriers for in-plant work areas, office walls, doorways, building passages and driveways. All steel construction. 10,000 lb. load at 5 MPH rating for bolted and lift out rail. All anchors and hardware included.

Safety Products

Correcting the effects of plant accidents on people and equipment after they've happened is extremely expensive and time consuming. Now you can reduce these and lower the associated costs of downtime, lost inventories, workers' compensation claims and building repairs.

Saf-T-Header

Protects overhead mechanical lines and conveyors. Protects automatic overhead doors and reduces costly repairs in plants, warehouses, shipping areas, etc. "Banger Bar" warns operator. Quick, easy installation. Adjusts to fit width/height required. Bright OSHA yellow finish.

Saf-T-Gard

Keep your personnel and visitors safe and out of the way from high traffic and dangerous areas.

- An economical and versatile handrail system for plants, warehouses, etc.
- Quick, easy installation
- Lightweight and reusable
- OSHA two-rail and BOCA three-rail compliant
- Polished aluminum fittings

WILDECK

Machine Guards

Safeguard expensive machinery and employees from lift truck impacts with high-visible machine guards. Built to last, these safety guards are made from tubular steel.

Assembled as a complete "U" shaped unit, Wildeck machine guards can be bolted to the surface or secured in concrete for maximum safety.

Features:
- Solid, quality construction
- Easy, fast installation
- Functional, reliable design
- Painted safety yellow

QTEK DESIGN DSTACKER GS GRAVITY SERIES

ZERO POWER REQUIRED!

The world's only **Pallet Dispenser with DC Control System** for order filling applications that is improving the warehouse...one pallet at a time.

QTEK Design is the first to introduce a series of Pallet Dispensing options that streamlines your processes, improves performance, reduces your pallet storage footprint, and aids in the reduction of work-related injuries from handling pallets.

100 % reduction in pallet handling injuries

Strong ROI of less than twelve months

50 % reduction in pallet dispensing standard time

Key Features:

- Designed for wood/plastic four-way-entry pallets, half-pallets, and/or nestable pallets.
- 30, 40, 50, and up to 150 pallets capacity configurations.
- Touchless operation with minimum maintenance cost.
- Maximizes premium real state utilization.
- Minimizes order picker fatigue.
- Increases morale and productivity.
- Zero AC power models.

QTEK DESIGN High Density Pallet Storage PALLET TOWER

- Store up to 80 48"x40" pallets in a 5'x5' footprint.
- The Pallet Tower is loaded and unloaded from the bottom by a forklift. 4 seconds per pallet.
- Maximizes floor space, minimizes forklift operator travel time and eliminates wasting time manipulating pallets.
- Strong ROI. Any type of 48x40 pallet. Call for custom.
- Increase safety, eliminate risk of pallets breaking or becoming unstable, therefore leading to severe injuries and product damage.

JOULE MAKES IMPACT RESISTANCE TANGIBLE

WHAT IS A JOULE?

Simply put, the joule is the unit of energy used to measure the amount of work or energy required to do something. It tells you how much energy is used, transferred, or converted in a given situation.

When a forklift hits an obstacle, a certain amount of energy is transferred to that obstacle. To stop the forklift, the obstacle must exert a force over a certain distance.

In a collision, Boplan products bend with the impact, absorbing the force of the impact. After the collision, they return to their original shape and position.

JOULE REFERENCES*		
KiloJoule (kJ)	Weight (lbs)	Speed (mph)
5.7	5,000	5
9.8	6,000	6
15.5	7,000	7
23.2	8,000	8
39.1	10,650	9

*Calculated with 90° impact angle

Bollard Range

Boplan's range of bollards sets new standards for safety, strength, and performance. Each bollard in this series provides a specific strength and impact resistance. This impact resistance ranges from extremely heavy impacts of 24.1 kJ to light impacts of 2.5 kJ. Boplan's objective is to offer you the perfect safety solution for every situation. With a wide range of options, colors, and heights available, our bollards can be adapted to specific environments and aesthetic preferences.

Order Ref	Description	Impact Rating (J)	Height	Baseplate
BO125L0	BO125L	2500	40 in	Ø8 in
BO170B0	BO170B	7500	47 in	Ø9.8 in
BO200R0	BO200R	10200	47 in	Ø12 in
BO200F0	BO200F	16000	47 in	Ø12 in
BO250T0	BO250T	24100	47 in	Ø14 in

Flex Impact® TB400 Plus Polymer Guardrail

The FLEX IMPACT® TB 400 PLUS polymer safety barrier is a combination of our TB 400 single tube guardrail and our HP PLUS handrail. The combination of the strength of the TB 400 and the height of the HP PLUS makes this safety barrier the ideal safety barrier to protect pedestrians from forklift impacts. The TB 400 PLUS barrier is extremely impact-resistant and it retains its original shape, appearance and properties after impact. On top of that, it's lightweight, modular and easy to install.

Order Ref	Description	Includes	Weight
TBP41060S	TB400 Plus 5'10" Starter Set	2x End Post + 1 Tube + 2 rails	104 lbs
TBP41060E	TB400 Plus 5' Extension Set	1x Mid Post + 1 Tube + 2 rails	53 lbs
TBP41048E	TB400 Plus 4' Extension Set	1x Mid Post + 1 Tube + 2 rails	48 lbs
TBP41036E	TB400 Plus 3' Extension Set	1x Mid Post + 1 Tube + 2 rails	43 lbs

ACTIVE MEMORY

Flex Impact® TB400 Polymer Guardrail

The FLEX IMPACT® TB 400 safety barrier is a barrier with impressive flexibility and impact resistance up to 20.1 kJ. The TB 400 is used to protect walls, machinery and infrastructure from pallet jacks, forklifts or other vehicles with limited speed and where height is not an issue.

Order Ref	Description	Includes	Weight
TB41060S	**TB400 5'10" Starter Set**	**2x End Post + 1 Tube**	**84 lbs**
TB41060E	TB400 5' Extension Set	1x Mid Post + 1 Tube	48 lbs
TB41048E	TB400 4' Extension Set	1x Mid Post + 1 Tube	45 lbs
TB41036E	TB400 3' Extension Set	1x Mid Post + 1 Tube	42 lbs

Flex Impact® TB400 Double Polymer Guardrail

The TB 400 DOUBLE is a double traffic barrier and offers extra protection to pedestrians in the event of a vehicle collision. The TB 400 DOUBLE is constructed with two horizontal tubes that are reinforced by a central post. In essence, the TB 400 DOUBLE is a TB 400 with an extra protective line, making the safety barrier extra robust in the event of a high-impact collision.

Order Ref	Description	Includes	Weight
TBD41060S	**TB400 Db 5'10" Starter Set**	**2x End Post + 2 Tube**	**157 lbs**
TBD41060E	TB400 Db 5' Extension Set	1x Mid Post + 2 Tube	94 lbs
TBD41048E	TB400 Db 4' Extension Set	1x Mid Post + 2 Tube	89 lbs
TBD41036E	TB400 Db 3' Extension Set	1x Mid Post + 2 Tube	83 lbs

Flex Impact® Flip

Boplan FLIP range of kickrails offers full ground level protection and is available in different strengths and versions depending on the needs. The innovative and robust I-shaped rail absorbs impacts of 5,000 Joules (Flip180B) up to 17,000 Joules (Flip200F). FLIP is quick and easy to install and can be combined with other Boplan traffic barrier systems for maximum safety.

Size (inch)	Flip180B (5,000 Joules)	Flip200F (16,000 Joules)
24 (2 fix)	PL1810-0610-0001YB	PL2020-0610-0001YB
36 (2 fix)	PL1810-0915-0001YB	PL2020-0915-0002YB
48 (2 fix)	PL1810-1220-0001YB	PL2020-1220-0002YB

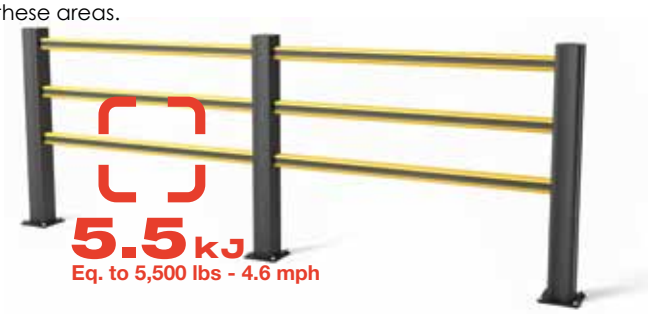
72 (3 fix)	PL1810-1828-0001YB	N/A

Flex Impact® HP Plus Handrail

The HP PLUS is the strongest handrail in the FLEX IMPACT® product range. Boplan has 2 or 3 rails and a heavier post to screen off pedestrians in areas with heavy traffic. The HP PLUS 2 and 3 RAILS provides guaranteed safety forpedestrians in these areas.



Order Ref	Description	Includes	Weight
HP1060S	**HP Plus 5' Starter Set**	**2x End Post + 3 Rails**	**49lbs**
HP1060E	HP Plus 5' Extension Set	1x Mid Post + 3 Rails	30 lbs
HP1048E	HP Plus 4' Extension Set	1x Mid Post + 3 Rails	28 lbs
HP1036E	HP Plus 3' Extension Set	1x Mid Post + 3 Rails	26 lbs

RackBull®

Our FLEX IMPACT® RACKBULL® is an innovative rack protector that prevents racks from collapsing due to a collision. The lack of an international standard for the dimensions of stacking racks makes it especially difficult for companies to find rack protectors that fit all of their stacking racks. There are just too many rack supports in too many different diameters. Our RACKBULL® solves this problem. You no longer have to worry about the exact size with these rack protectors, since RACKBULL® is the first universal rack protector on the market.

Order Ref	Description	Qty	Height	Weight

NoTrax®
MATS FOR PROFESSIONAL USE

Ergonomic, Anti-Fatigue & Safety Matting

Cushion Trax® #479
Diamond surface provides non-directional slip resistance. Choose your level of comfort for a variety of single or multi-shift dry applications needing fatigue prevention and sure footing.

Diamond Sof-Tred™ #419
The only mid-priced/high-performance anti-fatigue sponge mat available. Durability approaches that of competitive "laminated" mats. Extends service life by 50%.

Saddle Trax™ - Grande™ #979
The durable vinyl diamond-plate design provides non-directional traction and is easy to clean. Vinyl top surface made from 100% recycled PVC.

Cushion-Ease® #550
Recommended for wet environments where comfort and durability are critical. A resilient rubber compound and unique support design offers exceptional fatigue relief. Large hole drainage design keeps moisture and debris free from worker platform.

Cushion-Ease® Solid #556
Recommended for dry environments where comfort and durability are critical. A resilient rubber compound and unique support design offers exceptional fatigue relief. Can be locked together on-site with Cushion-Ease® #550.

Beveled Drain Step Classic #504
Features molded-in beveled edges to reduce trip hazards. Drainage system removes liquid and debris from worker platform. Low profile for easy cart access.

A. Cushion Trax® #479

Durable vinyl diamond-plate top surface is combined with dense closed cell foam base utilizing NoTrax® exclusive UniFusion™ technology. Top surface is made from 100% recycled PVC. RedStop™ backing virtually eliminates the slipping and sliding of mat. Overall mat thickness is 9/16". Sloped beveled foam on all four undersides affords easy access onto and off of mat. Laminate.

B. Diamond Sof-Tred™ w/Dyna-Shield® #419

Diamond-plate top pattern to fit the needs of work stations where longer lasting fatigue protection is required. Unlike urethane or acrylic top coats that are applied after the mat is produced, Dyna-Shield® is manufactured into the mat to provide long-wearing protection. Outperforms competitive products in tear resistance and tensile strength. Mat thickness is ½". All four sides are beveled to minimize trip hazards. Sponge.

C. Saddle Trax™ - Grande™ #979

Saddle Trax™ is thicker, heavier and stronger, engineered to meet the toughest requirements of today's industrial applications and is particularly suited for multi-shift operations in dry work areas. At a full 1" thick, it is the ultimate anti-fatigue product, maximizing worker productivity and comfort. Laminate.

DURABLE CORPORATION SINCE 1923

Ergonomic, Anti-Fatigue & Safety Matting

Durite 108

One of the toughest, long-lasting anti-fatigue mats available today. The original tire-link mat helps create foot comfort and safety traction, especially where people stand for long period of time – indoors or out. The open mesh construction provides excellent drainage and dirt retention. Durite 108 mats are easily rolled up for thorough cleaning and convenient storage.

Diamond-Dek Sponge HD

Heavy duty matting with diamond tread pattern provides sure footing in a variety of applications. Beveled edges and colored safety borders promote safety while the industrial grade sponge reduces fatigue on legs and back.

Diamond-Dek Sponge

Heavy duty matting with diamond tread pattern provides sure footing in a variety of applications. Beveled edges and colored safety borders promote safety while the industrial grade sponge reduces fatigue on legs and back.

Comfort Stand HD

The ultimate comfort from a single layer sponge. Comfort Stand HD is ideal in industrial, commercial, and retail applications where standing for long periods of time is required. The nitrile sponge mat is 2-3 times more resilient than a standard vinyl sponge mat.

rousseau

Complete Workbenches

The Rousseau system offers a multitude of possible layouts, thanks to numerous accessories which allow you to create a work center that responds to your exact need.

The Rousseau Advantages

- The upper frame structure can be installed on most industrial workbenches on the market.
- Reconfiguring your upper frame is easy and can be done without tools.
- High-quality drawers feature: 100% full extension; 100-lb. capacity per drawer; precision ball bearing slide system

Under the Work Surface Accessories Available

- Pedestals; drawer unit; shelf; ergonomic footrest; keyboard tray; and much more

tennsco Storage Made Easy

Adjustable Height Workbenches

Workbench height is adjustable from 29½" to 37" to meet changing work requirements. Welded 13-gauge legs have knockouts for one duplex electrical outlet in each leg. Stringer across the back ties the legs together, adding rigidity to the bench. Standard bench includes top, stringer and legs. Choose from four top options: steel, plastic laminate, compressed wood or hardwood butcher block. Accessories include a 12" high shelf riser, 3" high side and back rail kit, lower shelf/foot rest, stackable drawer with optional cam lock, wiring kit and caster kit. Shipped unassembled. Color: medium gray.

Accessories for Work Stations

Shelf Risers — 12" High

Adds extra storage to benches for tools and testing equipment. Can be double stacked. Riser is 16-gauge steel with a load rating of 200 lbs./square foot evenly distributed. Riser (except 48"W) has knockouts for four duplex outlets and a switch (order optional wiring kit).

CAT. NO.	DESCRIPTION	LBS.
R-1048	Standard Riser w/End Supports 48"W x 10"D	19
RE-1060	Electric Riser w/End Supports 60"W x 10"D	27

tennsco Storage Made Easy

Foreman's Desks

- Angled writing surface with compartmentalized storage riser at the back for forms and papers
- Locking drawer, 22"w x 23"d x 3½"h; supplied with two keys
- 34½"w x 29"d
- Mobile units have 5" PVC casters
- Medium gray powder-coated finish

PACKING TABLE

MADE IN USA

1. ROLL DISPENSER
Ideal for holding rolls of packing material.

2. CHOICE OF TOP
1-1/2" steel and 1-3/4" butcher block tops available.

3. ADJUSTABLE LEGS
Bench height is adjustable on 1-1/2" increments from 27-7/8" to 35-3/8"

4. TASK LIGHT (Optional)
Task light provides ample light across your entire workspace.

5. POWER RAIL (Optional)
Mounted power rail is very convenient for electric tools.

6. 14" DEEP LOWER SHELF
Easily accessible lower shelf allows for storage of bulky items

7. CONVENIENT DIVIDER SHELF
Perfect for storing boxes or oversized cartons.

8. BIN RAIL (optional)
Accommodates plastic or metal bins for storing parts. (Bins not sold by Tennsco)

9. EYE LEVEL SHELF
Perfect for storing items within arms reach.

Increase your shipping efficiency with Tennsco's Packing Table. With our modular design, Tennsco's Packing Table is scalable with the needs of your business – add or remove accessories as required. All tables feature either a 12 gauge steel or butcher block work surface, and are available in 30" or 36" deep varieties. Each table comes standard with a heavy duty 14 gauge lower shelf with a 350 lbs capacity and 14 gauge adjustable legs that adjust from 27-7/8" - 35-3/8". Sturdy rear uprights support an upper divided shelf, roll dispenser and storage shelf for your packing and shipping supplies. Optional accessories include a power rail, a bin rail for plastic bins and a task light. All Tennsco Products are Proudly Made in the USA.

Packaging Supplies

Polypropylene & Polyester Strapping

Excellent for rigid, heavy loads. Features great ability to retain high tension. An economical alternative to steel strapping.
Primary characteristics include high elongation recovery but low retained tension. Available in both hand and machine grades and can be sealed using buckles, seals, heat seals, or friction welds. An excellent choice for light-duty palletizing, unitizing, carton closing, and bundling. Usable in all semi-automatic strapping machinery.

SHIPPING INFORMATION: 3-5 Days, F.O.B. Cincinnati, OH

BGR YOUR PACKAGING RESOURCE

Packaging Supplies

Steel Strapping

Maximum footage with average 26% more feet per coil. Maximum tooling productivity with no new tooling required. Maximum break strength—it is lighter in gauge and the same break strength as regular oscillated.

Deluxe Tensioner

Designed for high volume work. Easy and fast package securing.

Sealer

Provides secure crimping action. Built for daily hard work.

Shipping Supplies

Bailing Wire

Special wire used to bail newspaper, etc. Corrugated for recycling.

Hi-Bulk Newsprint

Made from 100% recycled paper. Inexpensive newsprint paper is the economical and ecological choice for void fill applications.

Tape Dispenser

Carton seals quickly, efficiently and in one smooth operation. Engineered for long wear and ease of use.

Heavy Duty Poly Tape

Use this extra-strength poly tape for heavy cartons or packages. Ensures additional holding power for overweight items. Self-adhesive … goes on fast with hand-held dispenser. Resists moisture, chemicals and oils.

SHIPPING INFORMATION:
3-5 Days, F.O.B. Cincinnati, OH

NELSON WRAP DISPENSER

Nelson Wrap Dispensers are lightweight and help to reduce fatigue and work-related strain and injury. They accommodate various shaped pallets, from the floor up to 8' high and are manufactured with a patented brake system to ensure a tighter wrap and less film waste. Self-oiling materials provide smooth, consistent action, while tension control allows for preferred stretch. Both regular and coreless dispensers can handle 11'-20' rolls of film.

- Durable fiberglass air deflectors for adjusting airflow
- Fits conveniently in corridors and between sprinklers
- Specially designed cable, pole and wall mounts available for proper placement to deliver maximum airflow
- Can be used with variable speed drive for smooth speed adjustment requiring as little as 300 watts of power, leading to best in class energy efficiency of 40 cfm/watt
- Single phase model available by special order
- 2-year warranty

CAT. NO.	DESCRIPTION
BD72-208460-3	72" Ceiling Hung Circulation Fan w/Directional Louvers, 208-460V, 3 Phase

E. VersaKool Deep Guard Circulation Fan

- Deep guard design for unmatched performance, low noise levels and safety without sacrificing airflow
- Matched high quality motors and blades for maximum efficiency
- Powder coated steel guards for increased durability and corrosion resistance
- Hot dipped galvanized guards on VK12-GA and VK20-GA models for even greater rust protection
- Powder coated steel mounting bracket and power cord included
- Wide variety of mounting options available for flexible and easy installation
- Variable speed controls available
- Misting kits available for even greater cooling
- 2-year warranty; made in the USA

CAT. NO.	DESCRIPTION
VK36	Fan Circulation 36" VersaKool 1Ph
VK36-3	Fan Circulation 36" VersaKool 3Ph

F. WayKool High Velocity Portable Evaporative Cooler

- 27 mph, reaches 70' from fan
- Reduces the temperature by up to 30° F*
- Unique oscillating outlet covers an area up to 4700 square feet
- Automatic low water shut off eliminates pump damage
- 24 gallon reservoir for up to 6 hours of cooling
- Garden hose connection for continuous use
- 2-year warranty

Industrial Fans

Heavy-duty pull chain switch. 12' - 3 conductor SJT type cord. Coated steel blade. Meets OSHA standards. UL Listed. One-year warranty.

Industrial Floor Fans

Fan head rotates 360º to deliver air flow to any spot in the room. 10' long, 3 conductor SJT cord. Meets OSHA standards. UL Listed. One-year warranty.

Workstation Fans

Work station mounts with one bolt or lag screw. Fan head rotates 360º horizontally and vertically. 10' long, 3 conductor SJT cord. UL Listed.

Belt-Drive Portable Blowers

Powder-coated 20-gauge steel housing. 10" hard rubber wheels, 12' long 3 conductor SJT type cord on 120V 1 phase models. UL Listed.

A-WALL™ BUILDING SYSTEMS BY WARWICK PRODUCTS

The Flexible Alternative to Permanent Construction

A-WALL modular systems are installed faster and are more flexible than permanent construction. A-WALL can be disassembled, relocated or reconfigured as your needs change.

Additional benefits include....

- Quiet, Fire-Safe Construction
- Prefinished Panels - No Taping, Sanding or Painting
- Factory-Installed Receptacles, Switches and Data Boxes
- Significant Tax Savings
- Simple Assembly Using Common Hand Tools

Two-Story Building

Single-Story Buildings

SHOP & WAREHOUSE

Fast, Flexible, Affordable Construction

Freestanding Partition Walls

Create Controlled Environments

A-WALL environmental rooms create the conditions you require to meet today's strict manufacturing standards. Whether you need a cleanroom to improve process quality or meet a regulatory standard, an isolation room to segregate a "dirty" process from the rest of your facility or a temperature controlled CMM room, A-WALL offers a cost-effective solution.

Build Greener with A-WALL

A-WALL panels, connecting components, wood doors and windows are manufactured using partially recycled materials. Ultimately, the entire wall system can be recycled. Unlike conventional construction, A-WALL is easily disassembled, relocated and re-used, which reduces demand for raw materials, minimizes waste sent to landfills and saves energy.

One-Stop Shop

Factory Installation

A-WALL™ BUILDING SYSTEMS
A-WALL Building Systems by Warwick Products

Custom Cabinetry

Carpet Tiles

Sound-Dampening Panels

Guard Rails

A-WALL is faster than conventional construction.
Everything is pre-engineered. Wiring and windows are factory-installed in durable, prefinished panels for fast assembly. This means less disruption to your business and projects that are completed on schedule.

A-WALL changes with your requirements.
Pre-engineered A-WALL panels are interchangeable and 100% reusable. Your building can be expanded, rearranged or relocated to a new area or facility. You can't do that with stud and drywall.

Free site surveys, design assistance and estimates.
When you need to enclose personnel,a process or products, compare A-WALL to the cost of permanent construction. Your local A-WALL dealer, supported by factory engineers and talented installers, is prepared to assist you with your project from conception to completion.

WILDECK.

Industrial Steel Work Platforms (Mezzanines)

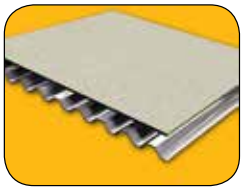
Create space by building up, not out!

- Designed and manufactured to your specification requirements
- Designed for easy, fast assembly
- Specially engineered steel components quickly bolt together to form a strong and secure unitized structure
- Heavy-duty 5" x 5" x 3/16" thick columns are a standard minimum (larger sizes available), along with 12" x 12" x 3/4" thick base plates, providing rigid support while eliminating obstructive bracing

Available with Wildeck® Pallet Access Gates and Safety Gates

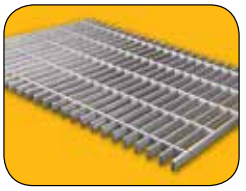
Decking Options

Multiple decking options exist to ensure your Wildeck® mezzanine is able to perform under your application requirements.



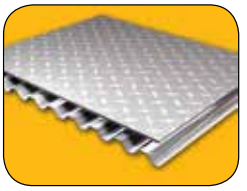
Roof Deck & Resin Board

Most economical system. Satisfactory for most mezzanine usage.



Bar Grating

Open design for ventilation and/or fire regulations; enables light to pass through.



Roof Deck & Floor Plate

Ideal where local loads could be abusive or where non-combustibility is required.

Framing Options

Five structural framing options are available to meet your specific load and application requirements. Special framing options exist for seismic regions. *Displayed by smaller applications (left) to larger applications (right).* Capacities vary by span and framing option specified.

Bolted C-Section

Beam & C-Section

CREATE SPACE BY BUILDING UP, NOT OUT

Wildeck® structural mezzanine platforms are your best solution to fully utilize existing overhead space to operate more efficiently and profitably.

You can gain valuable space for:

- **Work Stations**
- **Conveyors**
- **In-plant Offices**
- **Manufacturing**
- **Material Storage**
- **Distribution**
- **Specialty use**

WILDECK

Increase safety and achieve the operational efficiency you desire from your system. Wildeck designs and manufactures a wide range of access and safety gates that can be easily integrated with your mezzanine.

PFlow Does the Heavy Lifting!

SHOP & WAREHOUSE

- Safely transport materials between two or more levels
- Install in new or existing buildings
- Customized to your application
- Hydraulic, mechanical, package handling, custom vertical lifts
- Multi-level, fully automatic systems
- Capacities from 10 lbs. to 100,000 lbs.
- Unlimited vertical rise
- Standard carriage sizes up to 30' x 30'
- Guaranteed code approval
- Over 20,000 proven applications

PFlow Industries has been a leader in vertical material handling since 1977, delivering over 20,000 vertical reciprocating conveyors (VRCs) worldwide. PFlow offers custom-engineered material lifting solutions for diverse applications and load capacities—from a few pounds to over 100,000 pounds. Every VRC is designed for maximum safety, durability, and efficiency, ensuring seamless integration into your operations. With decades of experience and ongoing support, PFlow is your trusted source for reliable, long-lasting vertical lifting solutions.

Call Crown Lift Trucks today for a quote.

PFLOW INDUSTRIES

Vertical Reciprocating Conveyors

Vertical Reciprocating Conveyors (VRCs) provide fast, efficient, convenient and safe access to/from mezzanines and between levels in multiple-story buildings. They can be installed for through-floor, interior or exterior applications.

The principal components of VRCs include guide columns, carriage and a mechanical or hydraulic actuating mechanism.

HEARTLAND ENGINEERED PRODUCTS

offers a unique concept of structural platforms as the foundation for integrated material handling technology. With experience and expert engineering, they will provide you solutions on unique custom designs and standard platform applications.

Using different types of construction, they offer design flexibility to meet your exact specifications. Their platforms can be designed for extreme load capacities and wide clear spans.

Available deck options, include Resindek (coated and uncoated), bar grate, concrete ready, diamond plate and wood.

Heartland Engineered Products can also provide accessories for your existing facility and other applications. Their platform accessories include, Stairways, Landings, Catwalks, Steep Assent Ladders, Caged Ladders, Crossovers, Slide Gates, Swing Gates, and Handrail.

Heartland Engineered Products stairways are fabricated to be rugged and long lasting. Treads are furnished in black diamond plate up to 48" wide with bar grating available.

One piece stringers are constructed of hot-rolled channel, with heavy duty railing. The brackets for base and landing mounts, as well as all hardware is supplied.

Standard handrail and stringers are yellow, with other colors available.

Stairways are shipped unassembled for the most economical shipping cost but no field welding is required. We also offer options such as vertical pickets, 4" sphere guarding and top support columns for a free-standing stairway.

SHOP & WAREHOUSE

TRI ARC

Steel Rolling Ladder

- 450 lb. rated capacity
- Perforated or serrated tread
- Ships unassembled
- 1 1/16" tubular steel construction
- Powder coat gray finish
- Springploaded casters 2-5 step models
- Step lock 6-16 step models
- Complies with applicable OHSA & ANSI standards

Mobile Foldaway Step Stand

Combines the features and benefits of a rolling ladder and step stand.

- Easily folds for storage
- 10" deep top platform
- 7" deep steps
- 300 lb. rated capacity
- Perforated tread
- Ships knocked down
- 1 1/16" tubular steel construction
- Powder coat gray finish
- Complies with applicable OHSA & ANSI standards

Tilt & Roll Ladder

- 450 lb. rated capacity
- Perforated or serrated tread
- Ships unassembled
- 1 1/16" tubular steel construction
- Powder coat gray finish
- Complies with applicable OHSA & ANSI standards

TRI ARC

Safety Angle Rolling Ladder

- 17" deep top platform
- 50° safety angle incline
- 450 lb. rated capacity
- Perforated or serrated tread
- Ships unassembled
- 1 1/16" tubular steel rails
- 1" x 2" reinforced back & bottom frame
- 8.5" deep steps, 10" deep 1st step
- Powder coat gray finish
- Step Lock all models
- Complies with applicable OHSA & ANSI standards

U-Design Configurable Crossovers

- 1" x 2" rectangular tube construction
- Modular, configurable components
- Standard perforated or Grip-Strut slip-resistant tread design
- 24" step width
- Custom crossover sizes available
- Powder coated yellow finish
- 1000 lb. rated capacity

Perforated U-Design Configurable Crossover - 50° Incline Steps

Invest in the Possibilities

Over **1900** companies | **488** unique applications | **1** **revolutionary solution**

The Wave® has excelled in a variety of applications - from stocking shelves in retail stores to collecting parts for the assembly of goods in the manufacturing process, and everything in between. The Wave Work Assist Vehicle is smooth enough to handle historical artifacts in the Smithsonian Institute, yet rugged enough to be used in the welding process of large scale ships. The Wave has even been noted for its quiet operation at the Mormon Tabernacle.

Challenge yourself to safely increase your productivity by employing the Wave.

Faster. Safer. Smarter.

WAV 60 Series

◄ USE THIS

INSTEAD ► OF THIS

It all adds up.

1 Number of free hands **OSHA** requires someone to have when moving up or down a ladder.

2 Number of people it takes to perform dozens of tasks that **can be completed by just one person using a Wave**.

5 mph Speed of the **Wave**. That's almost **twice as fast** as the average walking speed.

14 months Average time it takes for the **Wave to pay for itself.**

15 Average number of **days lost** from work per person **due to a ladder injury**.

50 Percent **increase in efficiency** reported by existing Wave users.

The **Wave Work Assist Vehicle** can **improve your bottom line** by replacing your labor-intensive manual methods of material handling with a safer, faster solution. See for yourself just how fast the **Wave can pay for itself.**

In independent time studies, the **Wave proved to increase productivity** while decreasing risk of injury and accidents. Because with the Wave, there's no wobbling while climbing up and down ladders with heavy loads. It's smooth *wavelike* motion allows an operator and a load to navigate the tightest aisles and travel safely at working heights up to 17 feet.

Invest in the Wave®.

You can't afford not to.

Genie®

QUALITY BY DESIGN

From the first compressed air material lift in 1966 that started an industry, to the modern machines coming out of their factories today, Genie has been the leading name in mobile elevating work platforms (MEWPs). For more than 55 years, Genie has been committed to customers, focusing on high-quality, well-designed solutions and expert support for a superior end-to-end experience.

PORTABLE MATERIAL LIFTS
AERIAL WORK PLATFORMS
ARTICULATING BOOMS
TELESCOPIC BOOMS
SELF-PROPELLED SCISSOR LIFTS
TRAILER MOUNTED BOOMS
TELEHANDLERS

Contact your local Crown Lift Truck Representative for more information.

Genie® GS™ Scissor Lifts

Genie® GS™ slab scissor lifts are exceptionally mobile, letting operators easily maneuver around tight indoor and outdoor worksites with firm, level surfaces. Characterized by low noise levels, they provide excellent capacity and large platform workspace.

GS-2632

Ideal for maneuvering in tight spces, the quiet, zero emission electric Genie® GS™-2632 slab scissor lift is excellent for indoor and outdoor construction, maintenance and installation applications on firm, level surfaces

Max Working Height (indoor)	32 ft 1 in
Max Working Height (outdoor)	25 ft
Capacity	500 lb
Machine Width	2 ft 8.2 in
Machine Length	8 ft

GS-3246

Compact dimensions and zero inside turning radius make the Genie® GS™-3246 E-Drive slab scissor lift ideal for indoor and outdoor construction, maintenance, and installation tasks on level ground and in tight spaces. Boasting the state-of-the-art Genie AC electric E-Drive system, it offers unmatched efficiency and runtime when a significant amount of driving is required.

Max Working Height (indoor)	38 ft 1 in
Max Working Height (outdoor)	28 ft
Capacity	700 lb
Machine Width	3 ft 10 in
Machine Length	8 ft

GS-1932/ GS-1932m

GS-3232

The Genie® GS™-3232 E-Drive slab scissor lift is an electric model ideal for operation in emission and sound-sensitive indoor and outdoor jobsites where space is limited. The standard, state-of-the-art Genie AC electric E-Drive system offers unmatched efficiency and runtime on installation, maintenance and constrution jobs, especially when a significant amount of driving is required.

Max Working Height (indoor)	38 ft 1 in
Max Working Height (outdoor)	24 ft
Capacity	500 lb
Machine Width	2 ft 8.2 in
Machine Length	8 ft

GS-4046

Increase productivity in high-rise spaces with the Genie® GS™-4046 E-Drive slab scissor lift. With a compact footprint ideal for work in narrow aisles, it features the state-of-the art Genie AC electric E-Drive system for unmatched performance annd runtime in high indoor and outdoor jobsites that require a significant amount of driving on level ground.

Max Working Height (indoor)	45 ft 2 in
Max Working Height (outdoor)	29 ft
Capacity	770 lb
Machine Width	3 ft 10 in
Machine Length	8 ft 2 in

GS-1932 / GS-1932m

Productive performance in indoor and outdoor con-struction, maintenance and installation applications on firm, level surfaces, the Genie® GS™-1932 slab scissor lift maneuvers easily and precisely in tight splaces.

Max Working Height (indoor)	24 ft 2 in (GS-1932m) 25 ft 3 in (GS-1932)
Max Working Height (outdoor)	21 ft (GS-1932m) 20 ft 8 in (GS-1932m)
Capacity	500 lb
Machine Width	2 ft 8 in (GS-1932m) 2 ft 8.2 in (GS-1932)
Machine Length	4 ft 7 in (GS-1932m) 6 ft (GS-1932)

GS-1432m

Designed for low-level access on sensitive flooring and space restricted applications, the Genie® GS™-1432m E-Drive scissor lift delivers quality and durability while improving total cost of ownership and productivity.

Max Working Height (indoor)	20 ft 1 in
Max Working Height (outdoor)	18 ft
Capacity	500 lb
Machine Width	32 ft
Machine Length	4 ft 7 in

GS-2646

The Genie® GS™-2646 E-Drive slab scissor lift is suitable for work indoors and outdoors on firm, level surfaces where space is limited. Its state-of-the-art Genie AC electric E-Drive system offers unmatched efficiency and runtime on installation, maintenance and construction jobs where a significant amount of driving is required.

Max Working Height (indoor)	32 ft 1 in
Max Working Height (outdoor)	25 ft 8 in
Capacity	1000 lb
Machine Width	3 ft 10 in
Machine Length	8 ft

GS-4655

The Genie® GS™-4655 E-Drive slab scissor lift is a robust and eco-friendly machine engineered with the state-of-the-art Genie AC electric E-Drive system, for unmatched performance and runtime in high indoor and outdoor jobsites requiring a significant amount of driving.

Max Working Height (indoor)	51 ft 9 in
Max Working Height (outdoor)	27 ft 6 in
Capacity	770 lb
Machine Width	4 ft 7 in
Machine Length	10 ft 2 in

Other lift heights and capacities available. All Genie equipment to be used on improved hard flat surfaces.

Genie® Boom and Vertical Mast Lifts

Both Genie® articulating boom lifts and Runabout® lifts are designed to enhance productivity in the workplace. Each model offers a variety of options and accessories to customize the machine to match the application.

Z-30/20N RJ

The Genie® Z®-30/20N RJ articulating boom lift offers quiet, emission-free operation in the most sensitive work environments, and includes a rotating jib for 180° of horizontal rotation. Similar to the Z®-30/20N, when the machine must be driven significant distances.

Max Working Height	35 ft 2 in
Max Horizontal Reach	20 ft 6 in
Max Up and Over Clearance (riser extended)	12 ft 8 in
Platform Capacity	500 lb

Z-34/22N

The Genie® Z®-34/22N electric articulating boom lift offers quiet, emission-free operation in the most sensitive work environments, as a 48V DC machine.

Max Working Height	40 ft 6 in
Max Horizontal Reach	22 ft 3 in
Max Up and Over Clearance (riser extended)	15 ft 3 in
Platform Capacity	500 lb

Z-30/20 NRJ

Z-45 FE

Two machines in one, the Genie® Z®-45 FE hybrid articulating boom lift is the ideal, environment-friendly solution for increased efficiency and low cost of operation. In "all-electric" mode it offers a full workday of emissions-free run time on a single battery charge. In "hybrid" mode, it offers one week of run time with a single tank of diesel.

Max Working Height	51 ft 8 in
Max Horizontal Reach	22 ft 9 in
Max Up and Over Clearance (riser extended)	24 ft 7 in
Platform Capacity	660 lb

Z-45/25J DC

The Genie® Z®-45/25J DC electric articulating boom lift offers quiet, emission-free operation. With this Genie electric boom lift, operators can easily work close to buildings or around obstacles, and access overhead work from aisles and other congested areas.

Max Working Height	51 ft 9 in
Max Horizontal Reach	25 ft 1 in
Max Up and Over Clearance (riser extended)	23 ft 9 in
Platform Capacity	500 lb

GR-26J

GR-26J

The Genie® Runabout® GR-26J™-lift is a jib machine that offers outreach capability to get virtually any job done. A 140° rotating jib and 350° non-continuous hydraulic turntable allows for exceptional range of motion and precise positioning. These capabilities combined with the efficient elecric drive motors and a low machine weight make the Genie Runabout GR-26J lift the solution for hard-to-reach jobsite needs.

Max Working Height	31 ft 11 in
Capacity	440 lb
Stowed Height	6 ft 6 in
Machine Width	3 ft 3 in
Weight	5,842 lb

Genie

ES2632

ES Series Scissor Lifts

Experience the benefits of reduced charging time and longer runtime with the ES Series. Choose from a wide range of model options offering up to 1,200-lb capacity, with indoor-only and indoor/outdoor capabilities, and full proportional controls that come standard for ease of operation. Optional accessory packages enhance your productivity.

	Platform Height	Working Height	Width	Platform Capacity	Weight
ES1330L	13-ft	19-ft	2-ft 6-in	500-lb (indoor/outdoor)	1984-lb
ES1530L	15-ft	21-ft	2-ft 6-in	500-lb (indoor/outdoor)	1940-lb
ES1932	19-ft	25-ft	2-ft 8-in	507-lb (indoor/outdoor)	3450-lb
ES2632	25-ft 6-in	31-ft 6-in	2-ft 8-in	507-lb (indoor) / 275-lb (outdoor)	4400-lb
ES2646	26-ft	32-ft	3-ft 10-in	1200-lb (indoor/ outdoor)	5295-lb
ES3246	32-ft	38-ft	3-ft 10-in	705-lb (indoor) / 507-lb (outdoor)	5620-lb
ES4046	39-ft 3-in	46-ft	3-ft 10-in	770-lb (indoor) / 550-lb (outdoor)	6230-lb

AE1932

All Electric Scissor Lift

The new industry benchmark—the DaVinci Series AE1932—is a fully electric scissor lift that has zero hydraulic components, which means you experience zero leaks. Its electric driveline components contribute to a 70% decrease in power consumption, enabling this machine to do more work while consuming less energy. The lower energy consumption also allows this lift to use a single, maintenance-free Lithium-Ion battery that lasts the life of the machine.

	Platform Height	Working Height	Width	Platform Capacity	Weight
AE1932	19-ft	25-ft	2-ft 8-in	606-lb (indoor/ outdoor)	3510-lb

ERT2669

Electric Rough Terrain Scissor Lifts

Our family of JLG® electric powered rough terrain scissors offers four models ranging in platform heights from 26 ft to 47 ft. Each of these models is capable of driving at full height, ensuring this line provides the broadest range of machines to handle any application.

	Platform Height	Working Height	Width	Platform Capacity	Weight
ERT2669	26-ft 2-in	32-ft 2-in	5-ft 9-in	1500-lb	8250-lb
ERT3369	33-ft	39-ft	5-ft 9-in	1000-lb	9457-lb
ERT4069	40-ft 3-in	46-ft 3-in	5-ft 9-in	800-lb	10,558-lb
ERT4769	47-ft	53-ft	5-ft 9-in	800-lb	15,200-lb

Contact your local Crown Lift Truck Representative for more information.

All JLG equipment is to be used on firm, level surfaces.

EC600SJ

Electric & Hybrid Boom Lifts

Today, more people are demanding environmentally friendly equipment. And more municipalities are requiring “green” building for new construction and renovations. The JLG line of electric boom lifts feature longer run time, greater uptime and higher productivity. These machines are specifically designed so you have fewer scheduled services, a quieter work area, less dependency on hydraulic oils and zero emissions.

	Platform Height	Working Height	Horizontal Outreach	Up and Over Height	Width	Platform Capacity	Weight
H340AJ	33-ft 10-in	39-ft 10-in	19-ft 11-in	17-ft	6-ft 4-in	500-lb	9860-lb

Toucan Mast Boom Lifts

With the JLG Toucan® vertical mast lift, you can meet your overhead challenges head-on. Work up, over and around assembly lines, shelving, ductwork or partitions more easily and without interferences. These mast boom lifts feature thick rubber non-marking tires, clean and efficient electric power and 25% gradeability.

Toucan 26E

X430AJ

Compact Crawler Booms

Compact Crawler lifts feature low weight and rubber tracks that allow you to go more places around the job site. They are environmentally friendly with standard AC power, gas or an optional lithium-ion electrical system that doesn’t produce emissions. These lifts climb slopes with ease thanks to their tracked wheel carriage, and their narrow chassis allows for access through gates, yards, standard doorways and public buildings. This makes a Compact Crawler lift ideal for various jobs both indoors and out.

	Platform Height	Working Height	Horizontal Outreach	Up and Over Height	Width	Platform Capacity	Weight
X430AJ	43-ft 6-in	49-ft 6-in	21-ft 7-in	23-ft 0-in	2-ft 5-in	500-lb	4392-lb

Mobile Work Positioning Solutions

Scissor Lifts

Elevate comfort and productivity with Crown's hand pallet truck with scissor lift. Available with manual or electrically powered hydraulics, scissor lifts provide ergonomic advantages for raising and transporting open-bottom containers and skids.

PTH 50S
Capacity: 2,000 lbs.
Max Lift Height: 31.3 in.

PTH 50PS
Capacity: 2,200 lbs.
Max Lift Height: 31.3 in.

Walkie Stackers

Designed with flexibility in mind, Crown stackers satisfy a wide range of applications with easy to use features to meet multiple needs. These include: stacking vertically on a rack system, positioning a portable work station at optimal height, simplifying maintenance tasks, shipping and receiving at ground level.

M 3200 Series
Capacity: 2,000 lbs.
Max Lift Height: 144 in.

Contact your local Crown dealer or visit crown.com to learn more.

ES 4000 Series
Capacity: 3,500 lbs.
Max Lift Height: 132 in.

SOUTHWORTH

Dandy Lifts

These inexpensive lifter transporters make any job easier. Dandy Lifts are essential anywhere that lifting, positioning, assembling, stacking, unstacking, transporting or the need for an adjustable height work surface is part of the job.

Scissors Lift Tables

ADVANCE LIFTS®

LOWEST COST PER CYCLE

Our warranties start at **250,000 cycles** for (P) tables, which is by far the best in the industry. We go up from there to **1,000,000 cycles** for (HC) High Cycle Lifts and **3,000,000** cycles for (UHC) Ultra High Cycle Lifts. **This outstanding longevity means lowest cost per cycle and best value for you.**

WE DO THE HARD STUFF!

Because of our continuous R & D programs, we are continually pushing the boundaries of lift table performance. We go well beyond "clean sheet" custom design. Many of these developments can be applied to other customer applications:

- Position control systems with guaranteed accuracy of ± .030"
- Simpler, less expensive position control with ± 1/8" accuracy
- 200 feet per minute down speeds
- Multi-lift synchronization on a single power unit
- "Intrinsically Safe" wiring as a low cost alternative to some explosion proof applications
- Customer control interfaces with sophisticated programmable controllers
- Super large – Super high capacity – Super unusual custom platform and lift configurations

A SAMPLING OF WHAT HAS BEEN DONE

WE DO CUSTOM DESIGNS EVERY DAY. CALL WITH YOUR REQUIREMENTS AND WE WILL RESPOND WITH COMPLETE SPECIFICATIONS AND CURRENT PRICING.

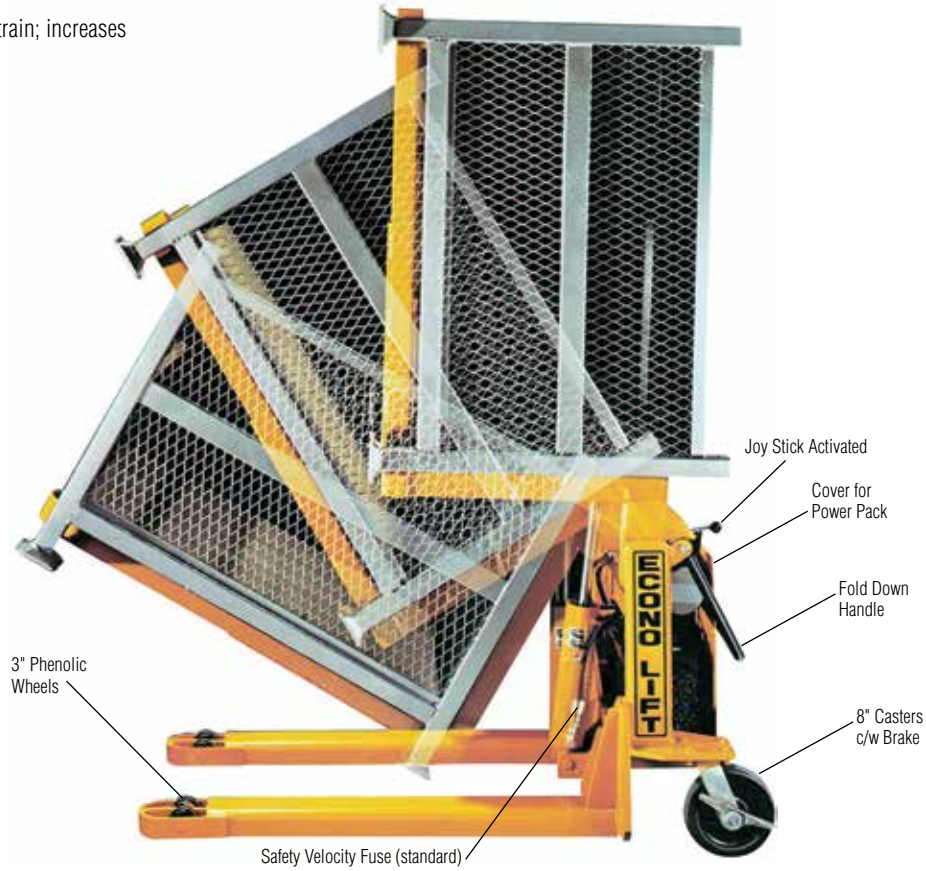
Tote Box Tilters

2000/4000/6000 lbs.

The portable tote box tilter is designed to make the lifting, handling and positioning of small parts containers easy on the worker's back.

- Tilts hydraulically to 94°
- Makes parts easily reachable - prevents back strain; increases productivity



POWER SUPPLIES

D/C Battery
Joy stick controlled

Air/Hydraulic
Foot pedal
(80 psi, 20 cfm min.)
Hand-held pendants optional

PalletPal® 360 - Spring Actuated

Dampener provides smooth, gradual raising and lowering without overshoot or bounce.

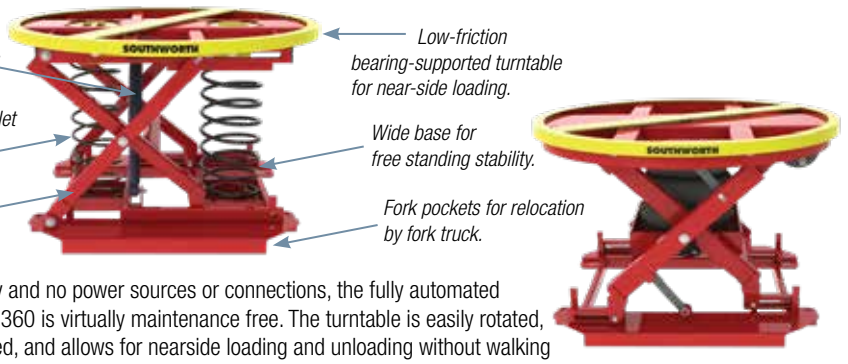
Low-friction bearing-supported turntable for near-side loading.

Heavy-duty springs bring pallet to most convenient height.

Wide base for free standing stability.

Rugged tubular steel frame for loads to 4500 lbs.

Fork pockets for relocation by fork truck.



With inherent stability and no power sources or connections, the fully automated mechanical PalletPal 360 is virtually maintenance free. The turntable is easily rotated, even when fully loaded, and allows for nearside loading and unloading without walking around the unit. It has a rugged tubular steel frame for loads up to 4500 lb. Heavy duty springs bring pallet to the most convenient loading and unloading height and the low friction bearing supported turntable aides near-side loading and unloading.

CAT NO.	CAPACITY (LBS.)	TURNTABLE DIAMETER	LOWERED HEIGHT	RAISED HEIGHT	LBS.

PalletPal 360 Air	400-4500	43.625"	9.5"	27.75"	460

Note: Phenolic frame cover is available.

SOUTHWORTH

PalletPal®

Eliminate lifting, bending and stretching — the primary causes of back injury. This simple, automatic unit is ideal for most applications. It incorporates a turntable to allow nearside loading and a system of springs and shock absorbers, which lower and raise the unit as pallets are built up and broken down, to maintain a constant working height. No power or air supply is required. Pallet loads up to 4500 lbs. can be handled.

Floor Height / Floor Level Lift Tables

Southworth Floor Height / Floor Level lift tables are low-profile lift tables that feature a unique pan-style platform that lowers to floor or near floor height so that they can be fed and offloaded by hand pallet trucks.

- Pan-Style platform lowers to floor height
- Floor level platform can be loaded and unloaded with hand pallet truck
- Safety yellow, elastomeric edge protects workers

PalletPal® Pallet Rotator / Inverter

The PalletPal Pallet Rotator / Pallet Inverter eliminates the need for manually restacking pallots. Rotate a pallet load 180 degrees in under 1 minute. Uses include:

- Replace broken pallets
- Switch loads to/from in-house or shipping pallets
- Transfer from pallets to slip sheets
- Replace damaged goods at the bottom of the load

LiftMat Low-Profile Lift Tables

- 2200 lb. capacity
- 3.25" lowered height
- 31.5" raised height
- 24" x 66" or 48" x 72" platforms available

SHIPPING INFORMATION: 4-5 Weeks, F.O.B. Manila, AR

CAT NO.	OVERALL CAP. (LBS.)	RAISED HEIGHT	LOWERED HEIGHT	STANDARD BASE & PLATFORM	MAXIMUM PLATFORM	MOTOR HP	VOLTAGE/ PHASE/HZ	SHIPPING WEIGHT (LBS.)
LM2.2-28	2200	34.65"	3.15"	24" x 66"	48" x 96"	1.0	115/1/60	600

Options & Accessories:

- Hand Pallet Truck Accessible Ramp - 30" long ramp with diamond plate
- Bellows Accordion Skirting - Black and yellow vinyl skirting wraps entire unit to keep underneath free from debris. Pleats expand and contract as unit raises and lowers.
- One Touch Auto Leveling - Lift platform will raise or lower a preset increment at the touch of a button. This is especially helpful in palletizing applications where box dimensions remain constant from load to load.

Backsaver Hydraulic Scissor Lift Tables

- Available in many basic sizes and capacities to lift and position loads up to 6000 lbs. at heights up to 48"
- Wide range of power options, controls, tabletops and base configurations that can be specified for each of the many basic sizes gives the user an almost unlimited choice of variations

SOUTHWORTH

LiftMat Low-Profile Lift Tables

Get the advantage of four sided accessibility without the expense or hassle of digging a pit for your lift table. LiftMat Low-Profile lift tables have a collapsed height as low as 3.25 inches. An optional ramp allows the low-profile lift table to be fed with a hand pallet truck. A full perimeter Toe Guard stops the descent of the lift table when it comes into contact with any obstruction. LiftMat Low Profile Lift tables are best suited to applications where the load is evenly distributed.

Scissor Lift Tables

Southworth Backsaver Hydraulic Lift Tables are extremely rugged and reliable. Thousands of Backsaver Lifts are in use throughout the U.S. for machine feeding, work positioning, assembly, order picking, pallet loading and a wide range of other applications.

ROLL-A-WAY

Flexible Expandable Conveyors

Lets you save valuable floor space when the conveyor is not in use. And because it's so flexible, you can position the conveyor wherever you need it. With expansion ratios up to 4:1, you can store 12 feet of conveyor in a 3-foot area. Lengths available up to 60 feet.

Accordion Roller Conveyors

Medium-duty flexible conveyors for packages with flat or irregular bottoms. Box stop, pull handle and couplers standard.

- Customized to your specifications
- Available in various mesh sizes
- Offers lightweight, durable containment
- Will not rust or dent
- Keeps views of conveyor unobstructed
- Optional non-porous liner

SHIPPING INFORMATION: 2 Weeks, F.O.B. Colchester, CT

Model FE - Fork Extensions

PRODUCT FEATURES:

- Ideal for oversized loads.
- Easy installation onto existing forks.
- Fits standard fork thicknesses.
- Standard fork extension widths 4" through 7".
- Standard fork extension lengths 42" through 96".

INSTOCK PROGRAM

QUICKSHIP PROGRAM

⚠ WARNING

- Extensions shall not exceed 1 1/2X the length of the existing forks.
- Extension capacities are reduced beyond existing fork tips (Approx. 60%).
- Do not tip-load the fork extensions.
- Load center of gravity must not extend past existing fork tips.
- Capacity of lift truck and attachment combination may be less than capacity shown on attachment. Consult lift truck manufacturer.

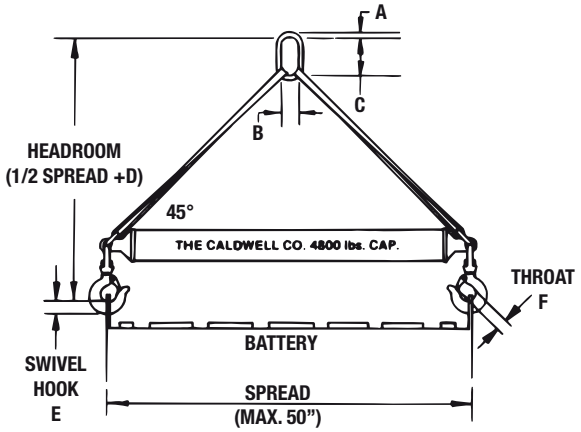
Models 36 & 36E - Fiberglass Battery Lifting Beams

Used for applications that require a non-conductive beam such as lifting industrial fork lift truck batteries.

PRODUCT FEATURES:

- Lightweight units — 70% lighter than other beams.
- Models are available for handling batteries of equal length or of different lengths.
- Heavy duty 4,800 lb. and 7,000 lb. capacities.
- Non-conductive fiberglass beam construction.
- Acid-resistant, coated polyester straps and hooks.
- Standard drop sling length is 10", other lengths available upon request.



Model 36 - Fixed

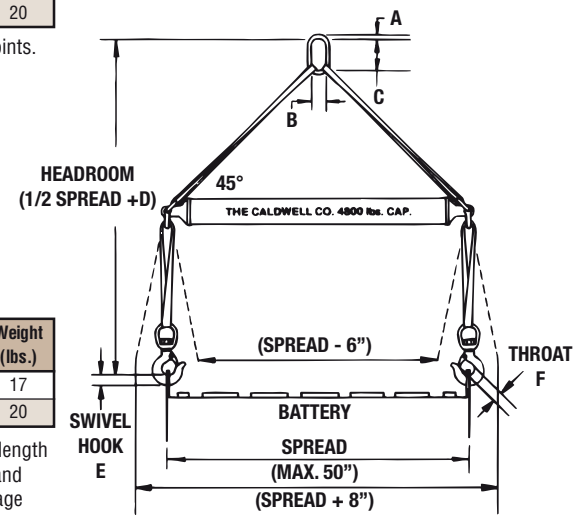
(Batteries of Equal Length)

INSTOCK PROGRAM

SPECIFICATIONS

Model Number	Rated Capacity (lbs.)	Standard Spread (in.)	Dimensions (in.)						Weight (lbs.)
			A	B	C	D	E	F	
36-2.4	4800	36	5/8	3	6	11	27/32	21/32	16
36-3.5	7000	36	3/4	2-3/4	5-1/2	12	1	1	20

NOTE: For battery beams other than standard spread. Measure distance between lifting points. Specify Model 36 with beam spread (in even inches) equal to length measured.



Model 36E - Adjustable

(Batteries of Different Length)

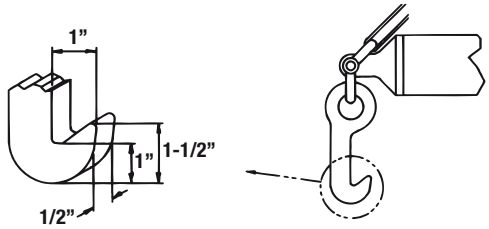
SPECIFICATIONS

Model Number	Rated Capacity (lbs.)	Standard Spread (in.)	Dimensions (in.)						Weight (lbs.)
			A	B	C	D	E	F	
36E-2.4	4800	36	5/8	3	6	21	1	1	17
36E-3.5	7000	36	3/4	2-3/4	5-1/2	22-1/2	1-1/8	1-1/8	20

NOTE: For Model 36E lifting beams, battery length cannot differ more than 6 inches from length of beam spread. For battery beams other than standard spread. Take average of shortest and longest batteries, and specify Model 36E with beam spread (in even inches) equal to average lengths. Battery length must be within 12 inches, shortest to longest.

OPTION J: J-Hooks available in place of swivel hooks at a reduced cost.

NOTE: When ordering **J-Hook** option show Model 36 as 36J, and Model 36E as 36EJ.



SHOP & WAREHOUSE

Model RLR - Rug Lifting Rams

PRODUCT FEATURES:

- Available for both Class II and Class III lift trucks.
- Carriage locking pin standard.
- Minimum lost load center.
- Pole made of alloy steel.
- Class II carriage, hanger and baseplate are 1 piece.
- Class III carriage, hanger and baseplate are welded.
- Standard and heavy duty designs available.
- Fork-mounted base unit available.
- Made to order.

LIFTEX corporation

Lifting Slings

Lifting Webbing Slings

- Long-lasting polyester slings are built for dependable lifting, year after year.
- Soft non-scratch slings permit handling of delicate polished surfaces.

Here's a way to lift and move heavy tubing, machinery, supplies and cargo. Made from special high-strength fabrics for extra strength, wear resistance, and extreme flexibility. No factory, warehouse, work yard, or load dock should be without a time and work saving sling.

C.

C. Cargo - Integral Eye (CIE)

Adds load stability and capacity when lifting extra-wide and awkward loads. Designed as a basket hitch.

Fork Lift Truck Scales

A fork lift truck scale eliminates the need for a floor scale and attaches to an existing forklift truck cleat carriage. Each electronic scale has four application designed weigh-tronix weigh bars, a weight summing assembly, coiled interface cable, choice of instruments which includes instrument overhead tilt & swivel brackets, power cable, miscellaneous installation hardware and user manual.

jesco®

Low Profile Super Heavy-Duty Formed Base Dumpers

- 7-gauge body; 8-gauge base
- Stackable 3-high empty
- Non-stock item; manufactured to order

Large Volume, Low Profile Super Heavy-Duty Structural Base Dumpers

- 7-gauge body; ¼" base
- Non-stackable
- Wide-body design and convenient working height of 46" make these units naturals for handling large, long bulky items. Lids not available.
- Non-stock item; manufactured to order

Caster Options

- Hoppers with casters are easy to roll
- Casters are welded to base of hoppers unless otherwise specified
- Capacity must match or exceed capacity of hopper

Towable Rotator Box

- Designed for the collection and storage of bulk materials.
- The towing tongue (wishbone style) allows for towing at up to 4 MPH.
- Rolls on 8" x 2½" polyurethane casters.
- Fork openings are 3" x 8" to be dumped with a rotating forklift attachment (not included). The box seams are continuously welded.
- Applications: machine shops managing shredded materials, recycling material, bulk material storage.

jesco®

Low-Profile Manual Tilt Trucks

- Units are designed for manual handling of lightweight materials and roll on 6" x 2" mold-on rubber casters.
- Not to be used with forklift or rotator. Do not exceed your lifting capability. Units are not watertight.

Low-Profile Portable Hopper

- Will need to use knees to return unit to an upright position
- Manufacted to order

Low-Profile Manual Tilt Trucks

- Manufactured from 13-gauge steel with reinforced corners
- Overall height to the top of the push handle is 30"; bucket measures 24" from the floor to the top edge
- Painted Vista Green
- Palletized for shipping
- Manufactured to order

Akro-Tilt Trucks

Lightweight tipping trucks make it easy for one person to handle bulky, heavyweight (up to 2000 lb.) jobs

Full, wrap-around tubular frame is constructed of 1" powder-coated steel with enhanced appearance and rust protection. All trucks available in gray or black.

Akro-Carts

Non-tipping carts for large, medium-weight (up to 450 lb.) jobs

Polyethylene container has latch bars that extend around the frame for added strength. Joints are riveted and heavy-duty 90 gallon joints are welded. Frame is made from 16-gauge zinc-plated steel tubing on medium-duty models and powder-coated steel on heavy-duty models. Heavy-duty piano hinge keeps lid propped open during use. All carts available in gray, blue and green (black lid).

myers™ INDUSTRIES | AKRO-MILS®

Akro-Tilt Trucks

- Ergonomic design makes trucks easy to maneuver.
- Caster wheel has roller bearings for extra stability when pushing, pulling or turning.
- Handle is arc welded and reinforced for optimum durability.

Self-Dumping Hoppers

50+ models: standard, narrow, low profile, large volume. All-welded construction for strength and durability. Handle scrap easily. Units can be moved with forklift or rolled with casters (optional). Forklift must be used to empty the hopper. Stackable formed base when empty. Hoppers are engineered to dump when the locking handle is tripped and will return to the upright locked position when empty. Units are designed to empty when heaping full to fill up the sloped front to shift the center of gravity to the mouth of the unit. View video www.jescoOnline.com.

Safety lock, Safety retaining chain and trip rope assembly are standard. Painted Vista Green optional choices available.

MAGLINER®

Gemini

- Convertible 2-in-1 hand truck.
- Converts from 2 to 4 wheels in seconds.
- Lightweight aluminum reduces user fatigue.
- Optional build accessories available to meet all delivery needs.

Hand Trucks

- 500 lb. capacity.
- Magliner hand trucks are made with aluminum components for the highest strength-to-weight ration in the industry. Lightweight trucks put less strain on users, reduce user fatigue, and lead to fewer injuries - and that means increased productivity. Plus, lightweight hand trucks are easier to lift and store on delivery vehicles.
- By customizing hand trucks, users can greatly reduce the effort involved to move loads and improve safety. Mix and match parts from the modular component system for the customized hand truck to meet your needs.

Custom options are available to be built for your specific application. Over 1000 configurations are possible. Call for pricing.

Brake Trucks

Magliner brake trucks are designed specifically to make your deliveries easier and safer.

- Brakes can be safely activated with one hand for maximum load control.
- Provides safer load control on ramps and inclines.
- Manages speed from a gradual stop.
- Modular, lightweight aluminum design permits rapid repair of hand trucks and reduces driver down time.

Truck becomes a functional platform truck capable of moving up to 1000 lbs.

A. Gemini® Convertible Hand Trucks

- 10½" platform height from floor
- 18" x 7½" aluminum nose plate

MAGLINER®

Powered Stair Climbing Hand Truck

- Lightweight aluminum construction and ergonomic design promote proper posture and reduce awkward movements by operator.
- Takes only 1.5 hours to charge a totally discharged battery to 90%.
- Power assist in climbing and descending modes.

Appliance Trucks

- Easily move heavy or bulky items up and down stairs.
- Lightweight aluminum makes load handling easier.
- Break back bar prevents the truck from rolling when breaking back or uprighting loads.
- Appliance Trucks ship fully assembled.

Pallet Dollies

Don't wait for a forklift! Pallet dollies provide easy access to any pallet load, increases safety and productivity.

- Heavy-duty aluminum channel frame construction.
- Rounded corners for safety.
- Steel hexagonal axles interlock with frame to prevent rotation.
- Optional floor brake available.
- Tow hitch option available (requires tilt model and TPU rollers).

LITTLE GIANT

Industrial Strength Hand Trucks

- 8" D x 14" noseplate
- Four curved ribs with vertical center strap
- Heavy 1.05" tubular steel for added strength to frame and stair glides
- Extra high 29" stair glides provide rigidity and longer frame life
- Zinc-plated "D" axle is interchangeable in tri-hole axle bracket

Reinforced Nose Trucks

- 12" D x 14" W reinforced noseplate safely handles larger, bulky loads
- 10-year guaranteed noseplate
- Four curved ribs with vertical center strap
- Heavy 1.05" tubular steel for added strength to frame and stair glides
- Extra high 29" stair glides provide rigidity and longer frame life
- Zinc-plated "D" axle is interchangeable in tri-hole axle bracket

SHIPPING INFORMATION: 1-2 Weeks, F.O.B. Watertown, SD

Commercial Platform Truck

- Turns 360º to maneuver around tight spaces
- Aluminum structure will never rust
- Removable handle can be used at either end of unit

B. Commercial Platform Truck

CAT. NO.	DECK SIZE	CAPACITY (LBS.)	LBS.
BDLK1112	16" x 60"	1200	53
306167	Replacement Handle	—	8

SHIPPING INFORMATION: 1 Week, F.O.B. Standish, MI

Heavy-Duty Platform Trucks

- Sturdy all-welded unit is constructed of a formed 12-gauge steel deck with extra reinforcement on underside
- Removable pipe handle is 1⁵⁄₁₆" OD and has two crossbraces
- Two swivel and two rigid casters with choice of wheels
- Durable powder-coated finish
- Ships fully assembled

Caster Steer Trailers

Versatile unit can be used as an independent platform truck for manual order picking and then quickly connected into a train of trailers. The caster steer design means wheels stay under the load at all times, providing better stability with unevenly distributed loads. The two swivel casters rotate 360°, providing excellent maneuverability even in tight areas.

C. Heavy-Duty Platform Truck

- Capacities: 2000 lbs. for 6" x 2" mold-on rubber
  2400 lbs. for 8" x 2" mold-on rubber
  3600 lbs. for 8" x 2" polyurethane non-marking tread with wheel brakes*

Floor Lock Option - Prevents unwanted movement when loading or unloading

STEELE CANVAS BASKET CORP

Bulk Truck Accessories

Self-elevating spring lift platforms are available for canvas, vinyl and polyethylene trucks. Call for information.

Vinyl and Nylon Caps available in white for all bulk trucks. Call for information.

Canvas and Vinyl rope-on liners available. Call for more information.

STEELENE Polyethylene Trucks

Available in Standard Duty (.225" thick, Model 92PC) or Heavy Duty (.250" thick, Model 92PD). Standard caster arrangement is all swivel corner mounted. 2 swivel / 2 rigid corner mounted and diamond mounted available upon request. Standard base is wood. **Metal base available upon request.**

Enclosed Wire Shelf Truck

Complete truck consists of four shelves, four posts, side and back panels and swivel casters. Chrome finish panels keep contents securely on shelves and creates an enclosed storage environment. Includes joining clips to secure panels to each other.

Fold Up Security Truck

Help protect inventory from theft and damage with this completely enclosed truck. Open construction reduces dust accumulation and increases visibility. Fold to 6" for compact storage. Heavy gauge 1" x 2" wire mesh. 1" square tubing covered with 20 gauge sheet metal. Solid center shelf divides truck into two 34" H compartments and increases strength of the unit. 2000 lb. capacity.

A. Shelf

Unique design offers high volume, easy access storage in chrome and silver finish. Open wire truss reinforced shelves feature front to back welded surface ribs for added strength. Increases light penetration, free air circulation and merchandise visibility. Minimizes moisture and dust accumulation. Easily adjustable and expandable to change with your needs. Shelves adjust on 1" increments.

4-Shelf Starter Unit

The 4-Shelf Starter Unit is available in 2 finishes. The chrome is electroplated nickel chrome resulting in a brilliant high gloss finish. It is a quality finish that is both hard and durable with a high tech look at an economical price. This finish is perfect for display and dry storage. Limited 1-year warranty against rust and corrosion. Starter units consist of four shelves and four posts.

The Silver EP Series carries a limited seven-year warranty against rust and corrosion. NSF listed for both wet and dry applications.

Polymer Utility Cart, myCart™ Series

- Personalized: Each cart comes with two labels for easy identification.
- Ultimate Cleanability: Smooth polymer shelf surfaces with contoured edges are designed to resist staining and wipe clean easily.
- Contains Spills: 7/16" (11mm) ship's edge retains small spills and prevents items from sliding off during transport.
- Easy-to-Adjust: Optional center shelf adjusts on 1" (25mm) increments.
- Easy, No-Tool Assembly: Ships knocked down.

QUANTUM™ STORAGE SYSTEMS

Stem Caster Carts

Made out of durable steel and finished with bright chrome plating, these rugged carts can support 1000 lbs. of product.

The wire style cart provides great visibility and does not collect dirt or dust. It's perfect for any dry environment.

B. 3 Wire/1 Solid Shelf Mobile Cart

Stem caster cart with solid bottom shelf. The unique combination of wire and solid shelves allows for air circulation and high visibility. The solid shelf in the bottom position prevents dust and dirt to rise, and contains spillage.

Each unit consists of:
4 - posts
3 - wire shelves
1 - solid shelf
4- donut bumpers
4 - 5" poly stem casters, 2 with brakes

speed//cartt™

SpeedCartt is a mobile order picking cart that provides a flexible solution for restocking, order fulfillment, seasonal demands, and more! Constructed from the same lightweight, yet heavy-duty materials as UNEX SpeedCell, SpeedCartt is designed for years of low-maintenance, demanding warehouse environment use. SpeedCartt increases pick facings, reduces travel times, increases order accuracy, and maximizes pick efficiency.

SHIPPING INFORMATION: F.O.B. Zeeland, MI

LITTLE GIANT

Three-Sided Bulk Trucks

Ideal for transporting or staging of bulkier materials. All models have a 12-gauge reinforced deck and two swivel, two rigid casters with a pushbar handle on swivel caster end. All-welded units have a powder-coated finish and ship fully assembled.

Removable Drop-Gate Truck

Three-sided bulk handling truck converts into a four-sided box truck with the addition of a removable half "drop-gate" panel. Hinged in the center, it can easily be lowered to provide better access while loading or unloading, or raised and latched to secure contents for transport or storage. Expanded metal sides allow better visibility and airflow.

Order Picking Truck

Large capacity, three-shelf truck designed to securely attach to your order picker. Two full-width fork pockets on 24" centers and 1½" steel grab bar make attachment easy. Shelves have 19" clearance.

Three-Sided Bulk Trucks

A. Mesh Sides - 6 x 2 Polyurethane

- 13-gauge flattened expanded metal with 1½" angle iron corners and top trim
- 48" interior height
- Capacity: 3600 lbs.

LITTLE GIANT

Multi-Shelf Trucks

Heavy-duty trucks with three, four or five shelves. All-welded 12-gauge steel shelves provide plenty of space to transport large loads. Also used as portable storage racks that can be moved for cleaning or to different locations. Two rigid and two swivel casters with 6" x 2" phenolic wheels welded to sub-frame. Comfortable formed 1" tubular steel push handle. Shelves available flush or with 1½" retaining lip. 3600 lb. capacity.

Extra-Heavy-Duty Shelf Trucks

All-welded construction features flush 12 gauge steel shelves with extra reinforcement and 2" x 2" corner angles for increased capacity. Top shelf is 36" high. Clearance between shelves is 23" for 2-shelf models, and 10½" for 3-shelf models. More maneuverable with heavy-duty 8" phenolic kingpinless casters. Durable powder coated finish.

Merchandise Collectors

2400 lb. to 3600 lb. capacity. Shelves are formed from 12-gauge steel with structural angle sub-frame and shelf reinforcements. Shelves are available with 1½" lip, or with flush edges. Raised offset handle includes cross brace hand guard for added safety. These welded units are shipped set up and ready for immediate use, with 2 swivel and 2 rigid casters. Shelf clearance 18" with lipped shelves, 19½" with flush shelves.

Heavy-Duty Shelf Trucks

3600 lbs. capacity. 12-gauge shelves handle the heaviest of loads. Available in 2 or 3 shelf models. Shelves available with flush edges, or with 1½" retaining lip. 2 swivel and 2 rigid casters with 6" x 2" hard tread phenolic wheels for added maneuverability under heavy loads. Swivel casters have wheel brakes to stop unwanted movement when loading and unloading. 36" overall height.

LITTLE GIANT

Welded Service Cart

Little Giant durability in an economical shelf truck for medium-duty applications. These all-welded units ship fully assembled. Features include heavy 12-gauge shelves and non-marking 5" polyurethane casters with ball-bearing wheels. Bottom shelf has retaining lip for small parts. Top shelf is 35" above ground, and is available with lip up or down (flush top).

6-Inch Deep Shelf Truck

Features 6" high shelf lips and heavy 12-gauge welded construction. Polyurethane casters roll quietly and easily under heavier load conditions. Clearance between shelves is 16½".

Low Deck Truck

Top deck is 24" high to minimize bending & lifting. Bottom shelf has 1½" retaining lip; top shelf is available with a lip or flush. Clearance between shelves is 14". Rolls easily on 5" non-marking polyurethane casters, two swivel with wheel brakes and two rigid.

Three-Sided Mesh Shelf Truck

Heavy 12-gauge shelves are enclosed on three sides, 48" high above the deck in sturdy 1½" angle iron corners and top trim. Mesh sides allow visibility and air circulation. Two swivel, two rigid 6" x 2" polyurethane casters.

Pick-Pack Truck

Upper shelves are sloped to keep contents from falling off. Bottom shelf has a 1½" retaining lip. Expanded metal divider and ends permit visibility while securing contents. Quick turn diamond caster pattern for narrow aisle maneuvering-steers from either end.

A. Welded Service Cart

LITTLE GIANT

Wire Reel Caddy

- All-welded Wire Reel Caddy has four 16" wide rods for holding multiple wire reel configurations
- Top three rods are 7" on-center
- Wheels are off the ground while standing so it does not "walk" while pulling wire

Wire Reel Cart with Cabinet

- All-welded Electrician's Cart carries everything you need for a wiring project
- Supplied with five 15" long spool holder rods to allow numerous wire reel configurations
- Heavy 12-gauge steel shelves have a 1½" lip to retain small parts
- Hanger bar on side of cart for convenient ladder storage
- Casters are 5" polyurethane - 2 swivel and 2 rigid; swivel casters feature total-lock wheel brake that locks both the swivel and the wheel

Order Picking Truck

- Convenient 21" x 12" writing shelf for paperwork
- Bottom shelf has 1½" retaining lip; top shelf is available with a lip or flush
- Two swivel and two rigid casters feature non-marking 5" polyurethane wheels with ball bearings

A. Wire Reel Caddy

- Full width handle
- Convenient tool tray for storage and transport of hand tools
- Heavy-duty angle iron frame
- Wheels are 8" x 2½" solid rubber with ball bearings
- Durable powder-coated gray finish
- Ships via UPS

53987

A. Double-Sided Picking Cart

Designed for high-volume picking, this versatile cart features slanted T-bar shelves with ample space for picking product and a spacious base that accommodates additional totes or boxes. A comfortable push handle and a storage tray for supplies or RFID scanner ensure efficient and convenient operation. With its durable construction and user-friendly design, this picking cart is a valuable asset for any busy facility.

- Slant shelves allow users to see inside totes easily and automatically pull items forward, reducing reaching and other repetitive motions that lead to injuries.
- T-Bar shelves are strong and durable without being bulky.
- Spring-loaded center caster that helps the cart naturally roll in a straight line and provides a zero-turn radius for maximum mobility!

Single Man Maintenance Cage

Convert your forklift into a work platform. Base and 4" side curbs are formed from one piece of heavy gauge sheet for extra strength. Back panel is ½-#13 expanded metal mesh. Deck has a slip resistant surface. Hinged gate with pin safety lock built in for extra security.

All attachments require a new lift truck capacity data tag. Please contact your local Crown representative.

Mid-States MATERIAL HANDLING EQUIPMENT

Hitch stores away vertically when not in use; towing ability with rear receiver.

Order Picking Carts

- 4 x 4 wire mesh panels
- Ergonomic push handle(s)
- Heavy-duty floor lock
- Extended swivel lead on casters
- Fork guides and grabber bars standard
  - Grabber bar options:
    - Std. 2 x 4 pine
    - Solid 2 x 4 oak
    - Composite rubber
    - Steel

Can be custom made to your specifications; Call Crown for details and pricing.

MSOPCR-2-604058
Two upper shelves; no hitch.

MSOPCR-3-504287
Three upper shelves; no hitch; two ergonomic handles; no-slip grit tape on front

Proven Pulling Power

Towing is tough on motorized tuggers and operators. Crown's line of tuggers provide the pulling power and strength needed to significantly improve through-put while transporting heavy loads. Crown tuggers can fulfill many needs.

Replenishing parts to a manufacturing line utlizing a mother/daughter cart system.

Delivering multiple items on a trailer/train system.

Towing long heavy loads on a trailer.

CROWN

TOUGH. DURABLE. DEPENDABLE.

Order Picking Platform *Solutions* to Keep Your Business *Moving* Forward

SAFETY FEATURES

Forkguides with Stirrups

Prevents tipping off electric order picker

Hardwood Clamp Block

Allows secure attachment to electric order picker

Flush Interface

Level & flush alignment prevents tripping and falls

CUSTOM DESIGNED WITH YOU IN MIND

WE KEEP INDUSTRY MOVING

SINCE 1891 Nutting BY ACCO

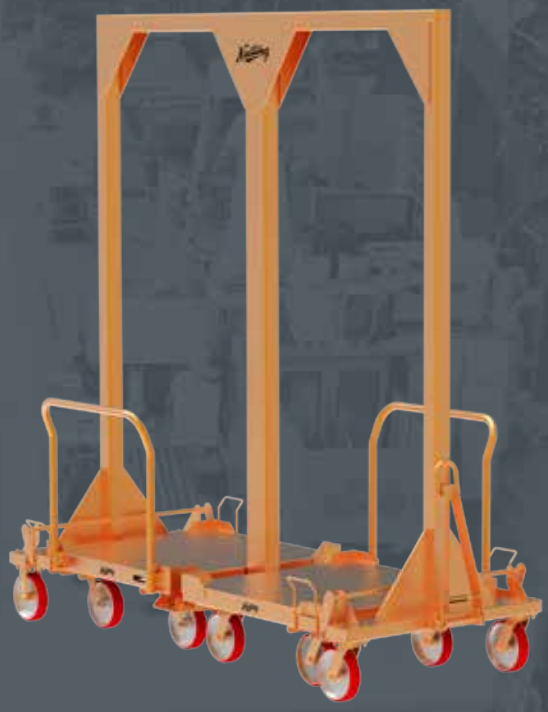
MOTHER/DAUGHTER TRAILERS

Create a continous work-flow with the Nutting Mother/Daughter Trailer System

Nutting® CARTS & TRAILERS

Mother/Daughter Trailers

- The M/D concept uses a tow tractor with a base trailer (mother) from which carts can attach and detach (daughter).
- The key difference between M/D systems and the typical tugger/trailer concept is that the mother remains connected to the tow tractor during cart exchange, so only the daugher carts move.
- The daughter carts can be easily detached and attached without having to disconnect and rearrange trailers in the train.
- Benefits include low capital investment, improved productivity and efficiency, and additional routing flexibility.



Product Features

- Robust steel frame construction
- Industrial grade casters and wheels
- Couplers designed to interface with a tow vehicle hitch
- Quality paint finish

Applications

- Warehousing & Distribution
- Manufacturing / Industrial Plants

ACCO MATERIAL HANDLING SOLUTIONS

Innovative Ideas in Motion!

Series 53 Link Caster Steer Carts

Designed for use in distribution centers, warehouses, plants, and terminals. Link caster steering is controlled by a towing tongue with linkage arms connected to specially constructed caster assemblies. This design provides easy, accurate steering plus equal four-point stability even when making turns.

Series 53-007 – Two-wheel steer (dual-steer)
Series 53-007 – Four-wheel steer (quad-steer)

Series 35-007 Order Picking Shelf Carts

Designed specifically for use with electric order pickers for increased productivity and safety. Adjustable shelves. Equipped with swivel and rigid casters. Also available with rigid skid legs for stationary applications or with couplers for towing applications.

Series 52-016 6-Wheel Pivot Steer Carts

Cart will turn in own diagonal length – perfect for tight confines. This dual-purpose function is particularly important when considering manual positioning requirements for order picking, work station and assembly cell replenishment, lean manufacturing, and other material handling applications. Economical alternative to quad-steer trailers.

A. Series 53-007 – Two-Wheel Link Caster Steer

Can be custom made to your specifications; call for details

8" x 2" WHEELS - CAPACITY 2000 LBS. - STEEL DECK

Custom carts available upon request

Series 35-007 custom model

Series 52 custom cart

Series 54 custom cart

Innovative Ideas in Motion!

Series 35 Order Picking Platform Trucks

Designed specifically for use with electric order pickers for increased productivity and safety. All models include safety features — forkguides with stirrups, hardwood clamp block, and flush deck interface between platform and electric order picker. Standard models available with swivel and rigid casters for mobile applications. Also available with rigid skid legs for stationary applications or with couplers for towing applications.

Series 52 Caster Steer Carts

Specially designed for use on good surfaces in distribution centers, warehouses, industrial plants and terminals. Carts turn by swiveling on the front caster wheels. Two rigid casters are mounted in the back. The most popular of the four basic steer types, caster steer carts have excellent trailing characteristics and have rounded corners for safety and to prevent interlocking on sharp turns.

Series 54 Fifth Wheel Steer Carts

Designed for docks, distribution centers, warehouses, plants and terminals. Carts turn by means of a fifth wheel (turntable) assembly utilizing a precision ball bearing for ease of maneuverability.

Series 54-007 – Single Fifth Wheel Steer (two-wheel steer)

Series 54-006 – Double Fifth Wheel Steer (four-wheel steer)

SHIPPING INFORMATION:
4-6 Weeks, F.O.B. Watertown, SD

The CarryMore mother-daughter cart system works with any tugger or AGV on the market. The mother cart mechanically lifts the daughter cart off the ground during transport, reducing replacement caster cost and noise and assuring safe ergonomic mobility.

Caster & Wheel Guide

Caster Options

Field Installable Lock

Side Foot Brake

Welded Swivel Lock

Side Foot Brake - This husky, all-steel wheel brake has been redesigned to be even more positive lock-friendly while accommodating more casters in our series. Stepping down on either end of the pedal produces cam action that locks the wheel. Note: Not available with wheels having tapered bearings.

Swivel Lock - Depending on the caster, either a welded unit or a field installable lock which converts a swivel caster to a rigid one for straight line steering.

Wheel Types

Duralast®

Ergo-Tech®

Metal

Forged Steel

Phenolic

Duralast® - Hamilton's protective wheel that wears like steel. Approximately 1/2" polyurethane tread is liquid cast and chemically bonded onto a heavy-duty iron wheel center. The distinctive green treads are chemically inert, non-sparking, non-conductive, impervious to ozone, grease and most oils & solvents, and will not mark floors.

Ergo-Tech® - These wheels are an ergonomist's favorite and designed to minimize push/pull forces and reduce the risk of work-related injuries. The unique donut-type tread combines with maintenance-free precision ball bearings and provides minimal rolling resistance.

Metal - The most popular metal wheel sizes have larger hubs and thicker cross sections and represent the most durable metal wheels in the industry.

Forged Steel - Forging technology produces the ultimate tensile strength and virtually indestructible industrial wheels.

Phenolic - Fiber-filled phenolic resin, molded under extreme pressure, gives Hamilton Plastex wheels the ability to carry heavy loads without damaging floors in intermittent service. They are non-marking, resist corrosion from oil, water, grease and commonly used acids or solvents, and will not spark.

HAMILTON

Standard Duty Casters

Swivel Construction - formed steel mounting plate and horn base; legs ¼" x 2" plate steel, contoured and continuously welded to horn base. Kingpin - ⅝" diameter orbitally formed rivet. Main Load Bearing - Hardened and polished steel balls rotate in two heat treated raceways. Axle -½" dia. hex head with lock nut. Top plate - 4 " x 4½". Bolt holes - Slotted 2⅝" x 3⅜" to 3" x 3". Wheels are 2" wide. Finish - Zinc plated. Optional Field Installable 4-Position Swivel Lock: Model No: 4SL-52. Call for availability.

Duralast® Wheels

Description: Hamilton classic liquid cast 95A polyurethane tread bonded to heavy duty iron center. Wheel Centers - Heavy Duty cast iron. Hardness - 90-95 Durometer (Shore A). Abrasion Resistance - 5-10 times ordinary rubber. Temperature Range - -50° to +200° F intermittent; 0° to 180° F continuous. Featured Wheel Bearing - Precision Ball Bearings: double sealed, maintenance free. Spanner Bushings - Top Hat spanner bushings for ½" or ¾" axle included. Optional Extras - Keyways and/or Set Screws. Other sizes and bearings available.

QUANTUM™ STORAGE SYSTEMS

Ultra Stack and Hang Bins

Organize your inventory with strong injection-molded plastic bins. Front, back and side grips for easy handling. Built-in rear hanger allows bins to hang from louvered panels or rails. Optional clear plastic window increases bin capacity and provides quick view of bin contents. Dividers maximize flexibility and keep contents organized. Wide stacking ledge and anti-slide lock keep stacked bins steady and prevent forward shifting. Waterproof bins resist rust and corrosion. Large molded front label slots for ID labels. Available in blue, yellow, red, green, ivory and black.

Economy Shelf Bins

Replace worn out corrugated bins permanently with these tough, durable, high-density plastic bins. These polypropylene bins are 4" high and feature a molded-in label holder, built-in rear hanglock which allows bins to tilt out for complete access when on shelving. A wide hopper front allows complete access to the contents of the bins. Edges are reinforced for added strength. Available in blue, yellow, red, green, ivory and black.

Bin Cups

Available in two sizes: 3¼" x 1¾" x 3" and 5⅛" x 2¾" x 3" and two colors: blue and yellow.

QUANTUM™ STORAGE SYSTEMS

Giant Stack Containers

Multipurpose, wide open hopper front provides easy access for large part storage. Ideal for multiple applications in recycling, storing parts, tools and warehouse items. This bin will stack up to six bins high, creating a sturdy, tall storage system. Injection molded from high-density polyethylene, easy to clean, resists rust and corrosion and impervious to most chemicals. Six ¼" drill hole pattern on bottom of bin allows for easy hole insertion for drainage.

Rackbin 42" Containers

- Extra large bins offer 42" (3½ feet) in length to store large items
- 42" length ensures no wasted space on 42" deep rack
- Heavy-duty front, back and side grips allow for easy handling
- Wide stacking ledge and anti-slide lock keep stack bins steady and prevent forward shifting
- Has eight ¼" drill hole pattern on bottom of bin for easy hole insertion for drainage and air circulation if needed

Dividable Grid Containers

Can be used in industrial, commercial, electronic and health care industries. Safe and efficient compartmentalizing and protecting small to medium sized parts. Dividers allow you to customize the container's interior to meet your exact needs.

SHIPPING INFORMATION:
1-2 Weeks, F.O.B. Fresno, CA; Miami, FL; Chicago, IL

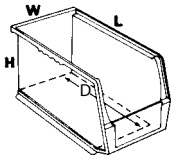
myers INDUSTRIES | AKRO-MILS

Polypropylene Storage Bins

Choose from a wide selection of sizes to establish more efficient storage systems in plants, warehouses and maintenance operations.

Bins allow color-coding of like and unlike items for fast identification.

Durable polypropylene won't rust or corrode, remains unaffected by moisture, as well as greases and oils.

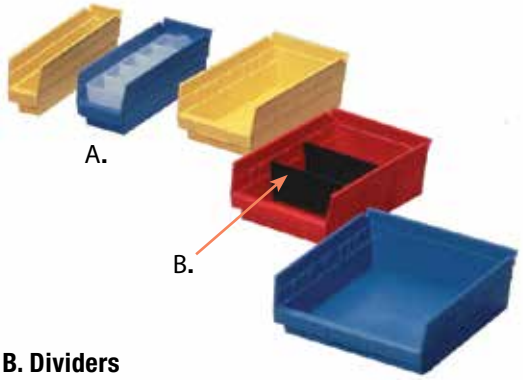


PRODUCT WARRANTY INFORMATION: Akro-Mils warrants the products will be free from defects in material or workmanship for a period of one year from date of purchase.

SHIPPING INFORMATION:
1-2 Days, F.O.B. Warrenville, IL

A. Shelf Bins

Molded of durable polypropylene for years of service. Special built-in hanglock allows easy access to the entire bin. All boxes are 4" high. Wide label holder molded in. Available in red, yellow, blue, white or green. Thirteen sizes to choose from. Bins are seamless, waterproof, and unaffected by grease or oil.



B. Dividers

Dividers are polypropylene and fit all models except 30110. Up to 7 per bin.

myers INDUSTRIES | AKRO-MILS

Clear ShelfMax Bins

Clear 6" ShelfMax Bins expand storage capacity up to 85% over standard 4" bins.

- Exclusive rolled top edge for added strength when filled to capacity
- Durable clear polypropylene construction is far superior to corrugated bins
- Width dividers sold separately

Clear Shelf Bins

4" Shelf Bins are the industry standard for quality, durability and value. Bins are molded from durable polypropylene for easy indentification of parts and supplies.

- Wide hopper front and molded-in label holder
- Built-in rear hanglock allows bin to tilt out for full access
- Width dividers sold separately

Clear Super-Size AkroBins

20", 24" and 30" deep clear bins for super-size storage. Large-capacity bins for organizing heavy or bulky items.

- **Heavy-duty bins molded in clear polypropylene, unaffected by weak acids or alkalis**
- **Sturdy, one-piece construction is water, rust and corrosion proof**
- **Extra large stacking containers feature anti-slide stop to prevent bins from shifting forward**
- **Reinforced side ribs add strength and prevent spreading when stacked or loaded**
- **Optional window inserts optimize interior space and keep contents visible**
- **Length and width dividers sold separately**
- **Available in 12 sizes**

Clear Stak-N-Store Bins

Sturdy stacking storage bins for heavy and bulky items. Create tall, stable storage to save floor space. Extra-wide hopper front.

- Rolled top edge for added strength and durability
- Large comfort-grip handles for easy lifting

Nest & Stack Totes

- Ribs under the lip will prevent jamming when nested.
- Textured bottoms provide a no-slip grip on conveyor belts.
- Smooth surfaces are easy to clean.
- Comfortable grip makes handling easy.
- Available in 9 sizes and 3 colors: red, blue and gray.
- Stack together for dense storage.
- Works with existing shelving.

Attached Lid Containers

- Textured bottoms provide a sure grip on conveyor belts.
- Strong molded-in handle grips are ergonomically designed for easy lifting and carrying.
- Padlock eye gives a security option.
- Reinforced hinge pins for years of smooth lid operation.
- High-density polyethylene.
- Designed to stack and nest for optimal space use.
- Color: gray or blue.

- **FDA Approved**
- **High-Density Polyethylene**

Storage Made Easy

30-DRAWER ORGANIZERS

MADE IN USA

1. DURABLE CONSTRUCTION
Steel, all-welded construction provides years of reliable use.

2. LABEL IT - FIND IT
Large indexing area provides plenty of room to label contents.

3. REMOVABLE DRAWERS
Drawers can be removed and interchanged for convenience.
Safety stop prevents drawers from accidentally falling out of unit.

4. OPTIONAL DIVIDERS
Sort contents of drawers with slide-in dividers.
Great for organizing small items and parts.

5. WINDOW FRAME CONSTRUCTION
Drawers slide in and out within individual steel compartments.

6. RAISED BASE
Base offers protection by keeping materials off of the floor.

7. COMBINE UNITS
30-drawer organizers and literature sorters can be bolted back-to-back, side-to-side or double stacked.

8. DURABLE, ATTRACTIVE FINISH
Powder-coated durable finish.

Optional drawer divider available in black only.

- ***Perfect for small parts organization such as hardware, PPE and tools.***
- ***Drawers feature integrated label holders and pulls.***

Welded Wire Storage Lockers

Mesh: 10-ga. (.135). 2" x 2" (center to center) square welded wire design. **Doors:** Framed in 1¼" x 1¼" x 13-ga. angle and pre-hung at the factory. All doors supplied with door strikes, padlock lugs, and 2½" x 2½" spun-pin hinges welded into place. **Panels:** Framed with 1¼" x 1¼" x 13-ga. angle. **Backs (optional):** 16-ga. galvanized sheet metal. **Tops (optional):** Constructed of the same fabric as the standard locker. **Shelves/Bottoms (optional):** 16-ga. formed galvanized steel adds strength and versatility. **Hardware:** Standard grade ⅜" plated nuts and bolts will be supplied for assembly, ⅜" mechanical anchors for wall and floor mount. **Finish:** All non-plated parts are powder-coated gray. Other colors are available for an upcharge. Product is finished for interior applications. Materials are shipped loose and subject to nicks and scrapes while in transit. Touch-up paint is provided. All lockers are shipped knocked down, ready for assembly.

SHIPPING INFORMATION: 2-3 Weeks, F.O.B. Louisville, KY

tennsco Storage Made Easy

Assembled Lockers

Heavy-gauge steel doors on single and double-tier lockers are designed with door stiffeners to reduce noise and operate smoothly. Black door handles on single and double-tier lockers are recessed to give a clean look as well as to discourage vandalism. All lockers are standard with a padlock hasp. All doors have louvers for ventilation. Lockers are available in one-wide and three-wide units. Overall height includes the 6" legs. Assembled lockers have a welded body with a riveted door assembly. Plastic number plates included (specify numbers 1-1999). Available in durable powder-coated finishes of medium gray and sand.

Single-Tier Lockers

Each 72"H locker has a shelf, three garment hooks and a removable coat rod. Locking system secures the door at three points.

Double-Tier Lockers

Each 36"H locker has three garment hooks and a two-point locking system.

Five & Six-Tier Lockers

Each locker measures 12"W x 12"H (choose 15" or 18" depth).

WireCrafters

Welded Wire Storage Lockers

Service lockers manufactured by WireCrafters are made of their RapidWire Locker design. 10-gauge welded wire is in a 2" x 2" square pattern. The sheets of mesh are then welded into a 1¼" x 1¼" x 13-gauge rolled formed angle. These welded wire panels are then fabricated into the service lockers which measure 2'0" x 2'0" x 1'9" high. Four tier lockers are combined to reach a height of 7'0". They are open in the back and have a lockable front (padlock not included)

Storage Made Easy

CUBBIES

Tennsco Cubbies are ideal for open organization of your items.

- Open design provides easy access to items being stored.
- Shelves are adjustable on 1" centers and can be removed or added.
- Each cubby ships with 3 coat hooks.
- Optional clear bins add more storage options to Tennsco Cubbies, providing greater organization space for smaller items.
- Welded body construction provides a rigid structure.

HARPER

Drum Handling Equipment

Harper Trucks manufactures a complete line of all-welded tubular steel, aluminum and nylon hand trucks. Noted for quality, Harper hand trucks have become an industry accepted standard. Raw materials, design, manufacturing and finishing methods are carefully combined to provide units with maximum strength and service. All Harper hand trucks are completely manufactured and finished in Wichita, Kansas in the United States. The color of the hand trucks is dark green.

A. Model 7889

Design enables one person to quickly, easily and safely move drums weighing up to 1200 lbs. Replaceable chime hook and lifting toes ensure a long product life. Lifting toes create a cradle for easy break-over. Spring loaded swing axle keeps truck in upright position when not in use. Handles drums from 21" to 43" high.

MORSE

Drum Handling Equipment

Morse Drum Handling Equipment is warranted against defects in workmanship or materials under normal use for a period of 2 years from date of purchase when used within the capacities specified. Motors and other purchased parts carry the warranty of their manufacturers.

Portable Drum Rollers

Morse Drum Handling Equipment is warranted against defects in workmanship or materials under normal use for a period of 2 years from date of purchase when used within the capacities specified. Motors and other purchased parts carry the warranty of their manufacturers.

Stationary Drum Rollers

Mixing contents inside a sealed drum eliminates the risks of spills and splashing of dangerous contents on workers during transfer, and greatly reduces clean-up, and the risk of contamination. It also eliminates use of special mixing vessels.

SHIPPING INFORMATION:
F.O.B. East Syracuse, NY

OSHA requires an enclosure with interlock for all drum rollers

A. Mobile Drum Dispenser

Can handle the full weight of a 55 gallon drum, yet be locked in horizontal position for faucet drain. Can be rotated 360º, tipped, or held manually at any angle. Move and steer on two 8" polyolefin roller bearing wheels with 4" swivel caster. Shipped partly disassembled.

WESCO LEXCO

Pail Tipper

- Adjustable chime hook
- Ships knocked down; easy assembly

Steel Drum Dolly

- Wesco's Stability Advantage: By design, Wesco casters are mounted past the dolly and drum rim. The casters are mounted further apart than standard designs (which have casters completely underneath the drum and closer together). The further the casters are apart, the greater the stability.
- All-welded steel frame construction with reinforced outriggers
- Four bolt-on 3" swivel sintered iron casters

Drum Racks

- Two and three 55-gallon steel drum models
- Welded and bolted construction
- Quick and easy to assemble
- Standard models ship knocked down and boxed - via UPS

Drum Funnel with Lockable Cover

- Red polyethylene 4-quart funnel with 2" NPS fitting to screw into bung opening
- Equipped with black polyethylene lockable cover

Gator Grip Drum Grab

- Patented Auto Grip Lock automatically locks the jaws closed, even over rough terrain
- Single and dual grips available
- Made in USA

Ergonomic Drum Handler

- Ergonomic solution for lifting, transporting and placing drums on spill or standard pallets
- Spring-loaded clamp holds any 3/16" or higher drum rim
- Operator does not need to touch drums to operate
- Exclusive Auto Grip Lock will not drop a drum
- Works with most drums with locking rings

HARPER

Series 140

Deluxe models have refinements and features such as dual handle bars and hand grips for better control and stability when moving the loaded unit. All models come equipped with a tool box and have a cylinder hold chain, hose hook and welding rod holder tubes. Designed for small, medium and large cylinders. 140 and 141 models are available with 6", 7" or 8" wheels. 142 available with 10" wheels only.

Series 150

Continuous handle model supplies a wide range of wheel sizes. Cylinder hold chain and large tool box are standard equipment. Designed to handle a medium oxygen and small acetylene cylinder. Available with optional "Belly Band" - designate "B" in part number (Example 150B-15).

Series 700

Provides a wide range of utility for handling oxygen, acetylene, nitrogen, helium, argon and other gas cylinders. Base plates are designed for hauling boxes when needed. 701SC is equipped with stair crawlers for delivering cylinders up and down stairs. 786-40 & 701BC86-40 have retractable rear casters that lock into place for additional load handling safety and retracts into frame when not needed. 764-39 has rugged stationary rear assembly with heavy duty casters. Handles medium to large cylinders.

BM30

Safety Flammable Cabinet

- All sizes are FM Approved!
- All welded double wall 18 gauge construction with 1-1/2" insulating air space.
- Doors are double-walled, 14 gauge outside & 18 gauge inside.
- 2" leakproof sill to contain leaks.
- Lockable flush mounted handle with 2 keys.
- Doors have a 3-point locking system and radius edges.
- 4" heavy-duty welded hinges with brass pins.
- Twin 2" flame arrester vents.
- Adjustable leveling feet and grounding connector.
- Powder-coated yellow finish.
- Safety signage in large red letters.
- Galvanized steel shelves adjust on 3" centers.
- Meets OSHA, and NFPA code 30 standards.
- 2 Doors - Manual close doors (open to full 180°).
- Chemical storage maximum - Class I & II - 60 gallons, Class III - 120 gallons

10" x 14" plastic, safety yellow and black, four holes for easy installation.

TURTLE PLASTICS®
THE RECYCLED PRODUCTS COMPANY

Wheel Chocks

- Prevents accidental movement onto workers
- Use at both front and back of tire for extra security
- Used in aerospace, transportation, rolling equipment repair
- High-visibility yellow
- Bottom grit surface available

Car Stops

- Durable and damage resistant
- Will not crumble, crack, or deteriorate
- Resists oils and most chemicals
- Made in the U.S.A. from 100% recycled plastic
- High-visibilty yellow
- Hardware not included

Folding Steel Security Gates

Now, provide day and night security with low cost steel folding gates. Does not obstruct air flow or light. All gates pivot and fold flat to the side. Double gate features drop pin at center to prevent movement. Rolls on casters.

Features:

- Made of sturdy ¾" steel channel construction.
- Black enamel finish.
- Installs easily with all hardware included.
- Standard locking system will accept a padlock up to ½" diameter shaft.

Save-T® Insulated Curtain Walls

TMI's line of Insulated Curtain Walls and Partitions are the perfect alternative to permanent wall structures in cold storage or warehouse environments and an ideal solution for refrigerated trailers. Easy to install and even easier to maintain, Insulated Curtain Walls provide temperature separation in cooler and freezer environments.

Insulated Pleated Curtain Walls

- 18.5 oz. blue opaque with layer of bubble-pack insulation
- All openings include universal mounting sliding track hardware
- Stationary for warehouses or sliding for trailers and coolers
- Stationary walls include valance that attaches to hardware and curtain to create a top seal
- Stationary walls include black vinyl floor sweep to create a seal on the floor
- Layer of bubble pack and reflective aluminum foil to isolate temperature (R value 12)

Aleco® provides a full line of environmental control products to help conserve energy, increase productivity, and improve worker safety. With 40 years of experience supplying industrial and retail industries, Aleco has earned its name as a trade leader in strip doors, impact doors, partitions, custom enclosures, and floor protection products.

ABSOLUTELY NO TOOLS REQUIRED FOR HANGING STRIPS WITH MAXBULLET® STRIP DOOR HARDWARE.

- Reduce installation time by 75%
- Reduce replacement strip time by 90%
- Pair MaxBullet with Clear-Flex II strips for the ultimate strip door installation

ALECO by E·S·ROBBINS

Strip Doors

The most common benefits of a strip door installation includes the ability to reduce energy costs, prevent contamination, improve environmental control and promote better workflows with increased employee safety. Aleco makes strip doors easy. Designed for quick installation and ease of use, Clear-Flex® II strip door formulations combined with MaxBullet® hardware provides the best quality, fastest installation available today.

A. Auto Riser

Trailer Stand

Safety stand prevents tipping over of spotted trailers due to landing gear failure. Ergonomically designed positioning handles and the gas activated leveling system allows the Auto Riser to be the industry's easiest and fastest trailer stand to position. 100,000 lbs. static load capacity.

TM A SENNECA COMPANY

Phoenix® Docklites®

- Improves productivity
- Reduces costly accidents

For decades, and in tens of thousands of installations, Docklite continues to quickly pay for itself by illuminating truck, trailer, and railcar environments — without interfering with workers or machines. Workers face less eyestrain and muscle fatigue.

Economy Steel Dockboards

- The Economy Steel dock board is designed to meet the demands of today's active docks that require moderate to high usage.
- Structural steel side curbs are fully welded to protect equipment run-off and for increased strength. Re-enforced steel legs prevent dockboard from moving between truck and dock. Lift chain allows for easy moving of this board.
- Economy Steel truck dock boards are available in capacities of 10,000 lbs. and 15,000 lbs. Special size boards are available upon request.
- These boards feature 3/8" steel treadplate with welded steel side curbs.
- Lifting chain is standard.

Rail Dockboards

- Steel rail dockboards are designed for usage on all types of rail applications, such as box and refrigerated cars. Industries such as paper and lumber rely on these heavy-duty steel rail boards to move product in and out of rail cars.
- Every steel rail board is built to match the specifications of your dock. A completed rail dockboard work sheet is required with every order to assure proper sizing and capacity.
- All steel rail dockboards feature built-in lift loops for ease of moving. A durable box under structure fills up much of the gap between the dock and the rail car, and standard D-rings complete the locking of the board to the rail car and dock.
- Rail boards can be manufactured with flairs on either car or dock side to assist you with tight turning areas. Please contact Crown for these applications.
- Steel rail boards are available in capacities up to 80,000 lbs.
- Rail Dockboards rectangular or flared boards are available in capacities up to 40,000 lbs. Lift loops and spacer rings standard.
- Available in 15,000, 25,000 and 40,000 lb. capacities

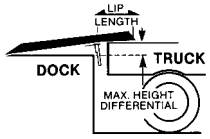
BLUFF MANUFACTURING

Dock Equipment

Aluminum Dockplate

- Aluminum alloy for extra strength
- Hand slots for easy positioning
- 30" to 72" width options
- 24" to 72" length options
- ANSI approved

Aluminum Dockboards/ Steel Side Curbs



- Aluminum board absorbs stress
- Rolled edge for tire protection
- Bolted locking legs
- Lightweight for easier handling
- Positive traction
- Quality engineered
- ANSI approved

Steel Dockboard (T)

- All-welded steel construction
- Capacities from 15,000 to 40,000 lbs.
- Two four-hole pin pockets placed on each edge
- Fold-down lifting loops
- Double-bend design
- ANSI approved

Steel Red Pin Dockboard (C)

- For difficult trailer-to-dock positions
- Dual-pin locking system
- All-welded steel construction
- Capacities from 15,000 to 40,000 lbs.
- ANSI approved

BLUFF MANUFACTURING

Container Ramps

The Bluff Container Ramp allows you to safely navigate the transition from ground to the bed of the container. Ramps feature:

- Full-width stiffener which adds strength against the container
- Locking chains with a specially designed keeper that easily locks it into the container
- Sturdy grab notch bracket welded to the sides of the ramp

Speedy Board®

Fork cutouts are added to the leading edge of the board, allowing your driver the ability to "scoop" the board and move it into place and to retrieve it for storage when the job is done — all without the driver leaving the safety of the fork truck cage. The Speedy Board® (SB) Option can be added to TFL, TNB and SC boards at no charge. Use of the Speedy Board® is NOT recommended for below dock loading.

MAGLINER®

Van Walk Ramps

- Twin-touch deck for better traction when traveling in either direction
- Strong, lightweight interlocking aluminum construction makes ramps easily portable and convenient
- All Apron models complete with 8" apron; 3¼" position stop; safety chains
- All hook models complete with two heavy-duty safety hooks
- 4¼" side rail height
- 3¼" curb height

SHIPPING INFORMATION:
5 Days, F.O.B. Standish, MI

KOKE INC.

Yard Ramps

Ramps are built for ground to dock and ground to trailer applications. The double acting pump brings the yard ramp up to the desired height quickly for fast, efficient product transport. Serrated steel grating provides for traction, as well as offers escape for snow, ice and debris build-up. Standard ramp positioner attaches to forklift fork and makes moving the dock ramp a breeze! This portable yard loading ramp is easy to move, goes anywhere and lets you move freight quickly. Large 16" solid pneumatic tires work well on hard packed surfaces. Optional tandem wheels are ideal for loose soil conditions.

Wheel Risers

Wheel risers provide a way to raise trucks up to dock height. Top deck of ramp is a level off for rear wheels to rest on. All trailers should be even with the dock or above the dock. Wheel risers provide a ramp for the truck to back up on Wheel risers are designed to accommodate over the road trailers, as well as single-axle trucks.

Industrial Bicycles

Bicycle

- A true industrial-grade bike, ideal for locations such as corporate campuses, chemical plants, refineries and other facilities for basic, reliable transportation.
- 26" x 2.125" wheels, featuring 11-gauge extra thick spokes, industrial rims.
- Fully lugged, hand-brazed frame made of heavy gauge 1" tubing.
- ½" x 3/16" chain, coaster brake, industrial knockout front hub, thickly padded seats and wide fenders.

Tricycle With Rear Basket

- Fully lugged, hand brazed one-piece frame with integrated rear steel platform.
- 450-lb total capacity.
- Rear coaster (foot) brake, automotive type front drum brake, Worksman Clincher wheels, 7/8" steel rear axle, pillow block axle bearings, 26" x 2.125" front tire with 24" x 2.125" rear tires, ½" x 3/16" chain.
- 21" x 15" x 9" rear basket.

Industrial Bicycles

- Heavy-duty bicycles designed, welded, painted and assembled in the USA.
- Both models are available in black, safety orange and safety yellow.

CAT. NO.	DESCRIPTION	LBS.
INB	Industrial Bicycle	60
ADB-CB	Industrial Tricycle with Rear Basket & Air Tires	130
ADB-CB-L4B	Industrial Tricycle with Rear Basket & Airless Solid Tires	120

INB Industrial Bicycle

The Classic American Bike - but with a big difference. These are built for day-in, day-out use. The features are what make the "Industrials" the bike of choice among leading companies all over the world. Many styles are available. Contact Crown Lift Trucks for other options.

ADB-CB Industrial Tricycle
(shown with optional front basket & rear fenders)

SHIPPING INFORMATION: 2-4 Weeks, F.O.B. Conway, SC

MouseCart

The MouseCart is making its way through distribution centers and warehousing operations in the United States. You can't help notice as the carts glide effortlessly past the old-style push-pull carts as order picking and routine tasks become quicker and easier.

Made in the U.S.A., the MouseCart has been designed for faster, more efficient use of time in filling parts orders, stock items, janitorial, maintenance, materials handling, and simply moving around for a host of reasons.

MouseCart

The MouseCart is highly maneuverable in both large facilities, where it's important to get from one end to the other and back in a timely manner, and smaller applications with tight aisles or restrictive spaces.

- Made of durable non-abrasive polyethylene plastic
- Foot brake
- Parking brake
- Back side storage
- Rubber casters
- Color: Gray

TERMS & CONDITIONS:

• Safety Standards

You acknowledge that it is your sole responsibility to provide proper safety devices for your particular application or use and to comply with all federal, state and local laws, rules and regulations relating to safety standards.

• Freight Damage

Please ensure that all goods are carefully inspected for transit damage or loss before accepting delivery. If loss or damage has occurred, you must immediately note it on the freight bill and have the driver acknowledge your note. Please do not refuse the shipment; file a claim with the carrier. The cost of replacement is the trucker's responsibility. Our responsibility ends when the trucker accepts the shipment.

• Limitation of Liability

Prices and product specifications are subject to change without notice. Crown's sole liability on any claim of any kind whatsoever shall be limited to, at Crown's option, repair or replacement of, or cash or credit refund for, the merchandise in question. In no event shall Crown's liability exceed the purchase price of the merchandise in question, and no other claim or remedy of any kind (including, but not limited to, incidental or consequential damages) shall be available in connection with the use or performance of merchandise purchased from us.

Steel surcharges that we were aware of prior to the printing of this catalog have been included in the price. Due to the volatility of this situation, additional surcharges may need to be added to orders once they have been placed. Unfortunately, these charges will be included in our final billing.
