HZ001/HZ002 USER MANUAL

HZ001

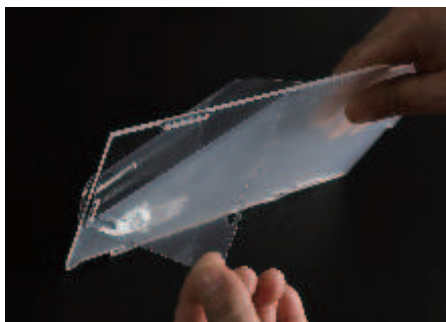

HZ002

The versatile Hygger-zoo acrylic reptile terrarium is compact and easy to assemble. With its robust construction and thick material, this non-deformable reptile terrarium is especially suitable for all types of reptiles and amphibians or invertebrates. This terrarium can also be used to keep lizards, spiders, tarantulas, bearded dragons, snails, beetles, scorpions, frogs, snakes, hermit crabs, and other insects. This terrarium is designed with a top opening and a front opening, triple ventilation openings for easier use and management, and easy to clean and maintain. With this Hygger-zoo reptile terrarium, the small pets will have a great wildlife experience. This terrarium is the perfect home for your pets!

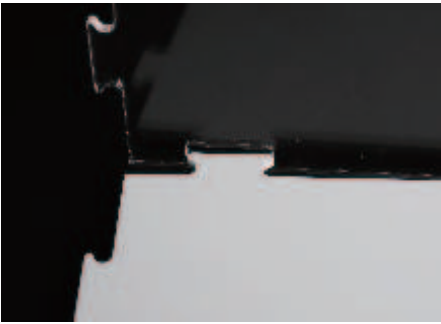

1.PRODUCT FEATURE:

1. This compact and easy to assemble terrarium has ventilation openings on three sides and a hygrothermograph in the top right corner of the front plate. The hygrothermograph can measure the temperature and humidity inside the terrarium in real-time, ensuring a comfortable environment and fresh air for your pets.
2. Various designs, including horizontal models with top opening and upright models with front opening, make feeding, cleaning and maintenance easier. The latch design prevents your pets from escaping. The upright model has a tray for substrate and water.
3. Highly transparent acrylic plates with 360 ° transparent view angle allow you to keep an eye on your pet's behaviors and facilitate feeding.
4. Easy installation. Remove the protective film from the acrylic plates, and then carry out the installation according to the instructions. The plates can be secured with silicone rings. The terrarium is easy to use and can be disassembled for storage when not in use. Suitable for small reptiles and amphibians or invertebrates.
5. This multipurpose terrarium can be used to keep lizards, spiders, tarantulas, bearded dragons, snails, beetles, scorpions, frogs, snakes, hermit crabs, and other insects and provides a warm habitat for your pets.

2.⚠ATTENTIONS :

1. Remove the protective film from the acrylic plates (both on the front and back of the terrarium). To make removal easier, sand down the edge of the film.

2. To assemble the plates, align the raised part of the plate on both sides with the vacant part of the other plate. Do not use excessive force to avoid damaging the plates.

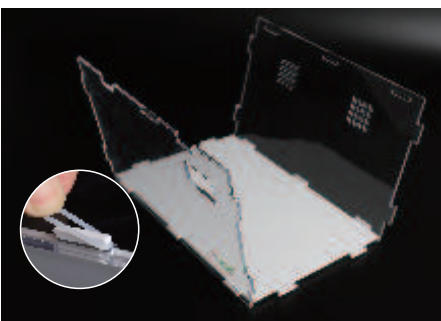

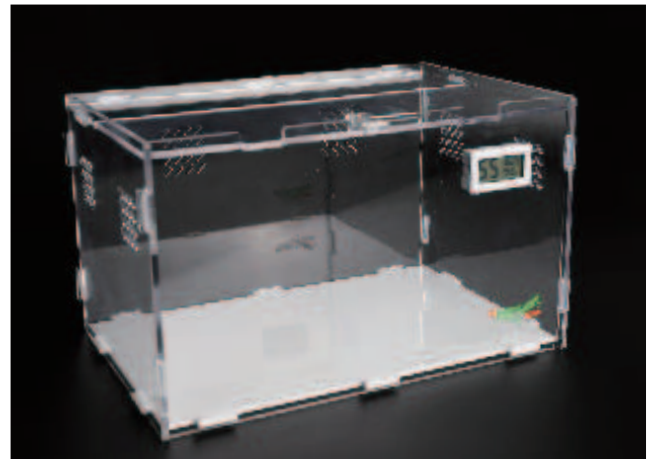

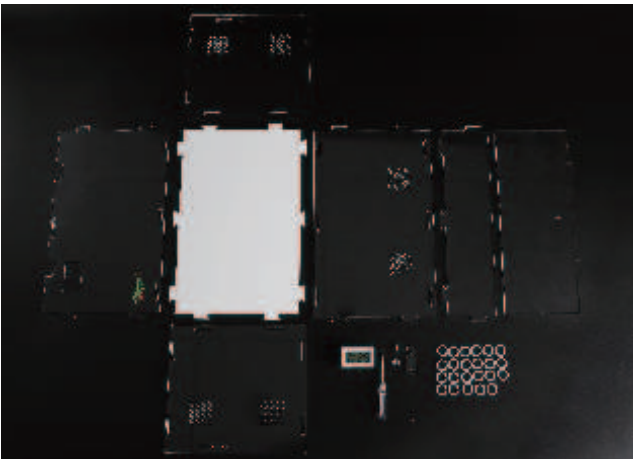

3. The terrarium can be dismantled, the horizontal model cannot hold water. The tray in the upright model can be used to hold substrate and water.

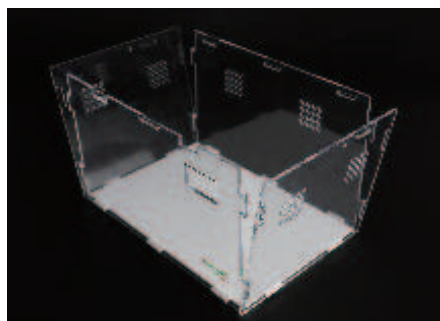

3.INSTALLATION PROCEDURES:

Note: When removing all accessories from the package, extend all the silicone rings so that they are fully stretched for better assembly.

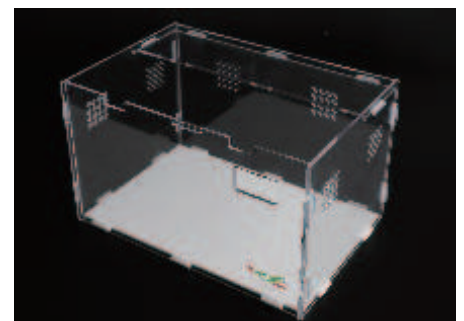

HZ001

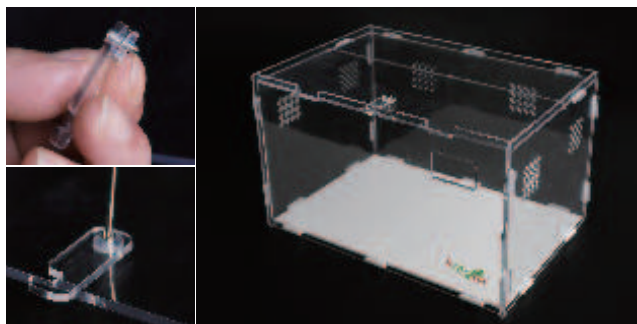

1. Take the transparent plate with ventilation openings and the transparent plate with a rectangular opening, attach them to the front and back sides of the white backing plate, and secure them with silicone rings.

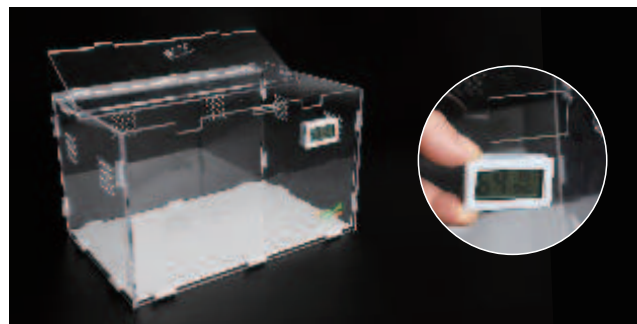

2. Take two transparent plates with ventilation openings, attach them on both sides of the white backing plate, and secure them with silicone rings.

3. Take the transparent top cover plate to cover the top half of the box, and secure it with silicone rings.

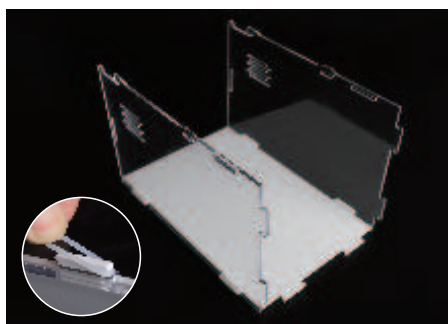

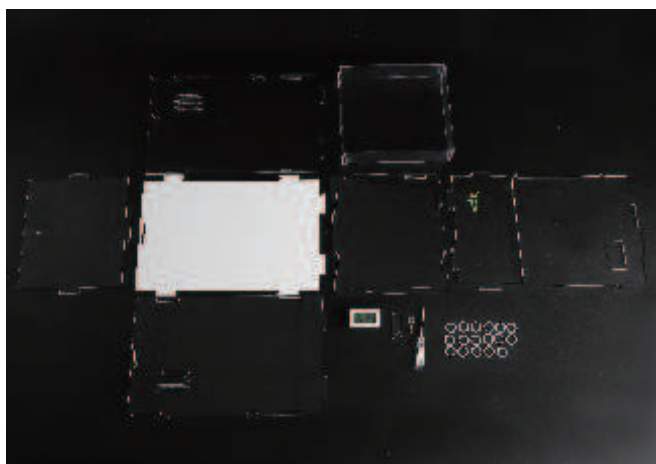

4. Attach the latch to the top cover with an O-ring and screw and place the top cover plate on the top opening of the box.

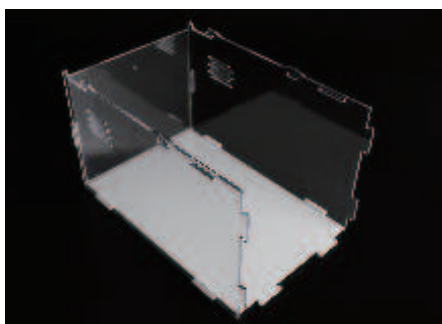

5. Finally, install the hygrothermograph to the rectangular opening at the front plate of the box. The installation is now complete.

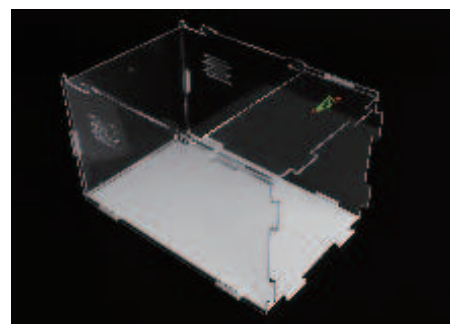

HZ002
