WARNING

To reduce the risk of fire or electric shock, do not expose this appliance to rain or moisture.

CAUTION

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

The lightning symbol within a triangle means, “Electrical caution!” It indicates the presence of information about operating voltage and potential risks of electrical shock.

The exclamation point within a triangle means, “Caution!” Please read the information next to all caution signs.

Introduction

NUX Mighty Bass 50BT is a versatile practice bass amp powerhouse. It equips a premium 6.5” loud speaker and is driven by a 50 watt classic D power amp. Compact and portable. Practice in your bedroom at low volumes, or perform at a small club using DI out. NUX's iconic TSAC modeling technology brings you various great sounding amp models and all of the essential effects—with excellent playability & response. Impulse Response technology offers you more Cab sound choices. That's really a Mighty Bass Amp !

Bass lovers, we know you cherish Drum & Bass practice ! So you can engage the drum function by Application, and even record the phrase loop with original NMP-2 Lite foot switch.

Features

- 50 watt compact modeling bass amp with 6.5” loud speaker.
- Gate , EFX , Amp Model, IR, Modulation, Reverb.
- Drum & Loop (60s phrase loop).
- Bluetooth Audio Stream.
- Free APP controller.
- USB recording interface , firmware update, edit software.

Control Panel

Control Panel

Operation

POWER SWITCH

Toggle it to turn on/off the amplifier.

POWER INDICATOR

When you turn on the amplifier, the INDICATOR LIGHT will be on.

INPUT JACK

Connect your bass with cable to the 1/4" jack.

PHONE OUT

Connect your headphone to the 1/8" jack for silent practice. The signal is the same as AMP OUT. (If you toggle IR switch, it's related to AMP IR.)

AUX IN

If you want to use MP3 player for playback, you can connect to the 1/8" AUX jack.

CHANNEL SWITCH & INDICATOR

CHANNEL

You can press the INDICATOR to switch to 3 different channels. CH1 is Green, CH2 is Orange, CH3 is Red. Each channel can store all the parameters and signal block status (Engaged/Disengaged) as a preset.

GAIN

GAIN

Controls the Gain of amp models.

BASS

BASS

Controls the bass frequency level of amp models.
