

Stable Transmission

1

The 8 pure copper core contacts have good contact performance, excellent transmission effect, and strong signal stability and reliability

2

The RJ45 female head is shielded, which can shield electromagnetics and ensure that the transmission signal is not interfered with

Material

PVC Shell

Corrosion-resistant

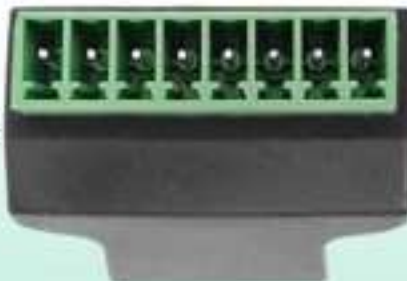

Smooth and Durable

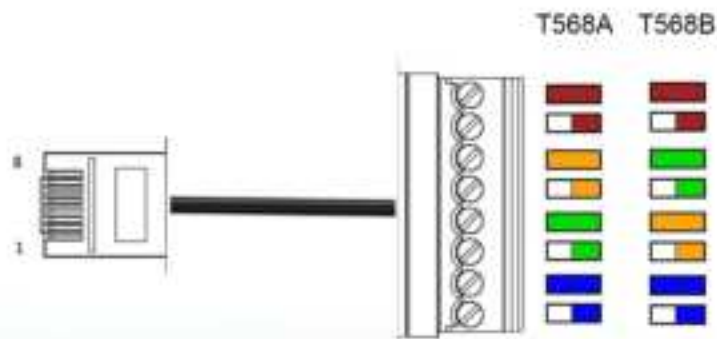

8 Copper Core Contacts

Good Contact Performance

Excellent Transmission

Stable Transmission

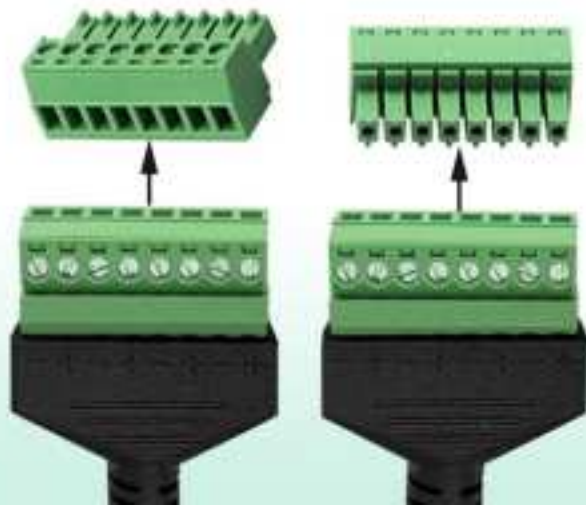

RJ45 8P8C to Terminal Block Adapter cannot be used for T568A on one end of the cable and T568B on the other end.

Only one standard can be used at the same time.

No Soldering

No soldering is required. Just use a small screwdriver to open the terminal block, slide the stranded wire or solid core wire in and tighten it again
