

30" Series 11 Integrated Column Freezer, Ice & Water

Series 11 | Integrated

Experience the pinnacle of refrigeration design with our most advanced model. Featuring a left hinge and an elegant interior, this Column embodies premium functionality and style. Designed to optimise energy efficiency, it seamlessly integrates alone or paired with another Column.

- With a premium interior for a refined look and feel, this model is the highlight of our Integrated Columns collection
- Designed to optimise energy performance and efficiency
- Flexible storage with two Variable Temperature Zones: choose Pantry, Fridge, Soft Freeze or Freezer mode

- Mix and match columns, install separately or pair, and customize with cabinetry or stainless steel panels

DIMENSIONS

Height	84 "
Width	29 3/4 "
Depth	24 "

FEATURES & BENEFITS

Premium interior

Our Series 11 Columns are designed with a premium interior that balances form and function. Every element, from the seamless finish to the considered interior lighting, creates a sleek, understated aesthetic that integrates effortlessly into any kitchen.

Clever energy

With highly efficient vacuum insulation reducing heat transfer, this fridge uses only the energy it needs while keeping your food fresher for longer.

Variable Temperature Zones

There's more than one way to freeze food, and different temperatures and techniques can affect food care and convenience. Optimal freezing depends on what you're storing, how fresh it is, and when you plan to use it. Switch a compartment to Soft Freeze for everyday convenience, or choose Freeze or Deep Freeze Mode to preserve freshness and lock in natural goodness for longer.

Mix & Match

Integrated Column Refrigeration offers the flexibility to mix and match. Choose from different-sized Column Fridges and Freezers that can be installed individually or paired together. Complete the look with your own customized door panels to blend seamlessly with your kitchen cabinetry, or purchase our stainless steel door panels.

Perfect Fit

These models fit flush and have only 1/8" gaps around them with no visible hinges or grilles. Our Integrated models can be seamlessly hidden behind your cabinetry for an understated and clean look with any kitchen layout.

Deep Freeze Mode

Deep freezing (-13°F) halts bacterial activity, allowing food to be stored safely for extended periods. Freezing food quickly helps to protect quality and retain nutrients, ensuring they are preserved when defrosted.

Easy install

Integrated Column Refrigerators and Freezers have been developed to make installation easy. The joiner kit is included when pairing refrigerators and freezers. All models come with front-adjustable leveling feet and they've been designed to easily slide into place as separate units.

SPECIFICATIONS

Accessories (sold separately)

Door panel stainless steel Left hinge 84"	RD3084WLD
Door panel stainless steel Right hinge 84"	RD3084WRD
Handle kit Classic	AHCLRD3084W
Handle kit Contemporary round, aluminium	AHSRD3084W
Handle kit Contemporary square fine, aluminium	AHD5RD3084W
Handle kit Contemporary square fine, black	AHD5RD3084WB

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
