GNSS TABLET

Clear & Smooth Field Experience

SMOOTH USER EXPERIENCE

8" sunlight-readable touch screen of T8 tablet provides users with a clear graphic interface and flexible experience with any operations in field. The T8 features a 9000mAh large battery, light weight and IP67 waterproof & dustproof level, ensuring your uninterrupted work all day long even in harsh environments.

STRONG HARDWARE DESIGN

Powered by Android 10 OS, T8 tablet is compatible with most Android-based field surveying software for your use. With a strong CPU for data processing, large internal memory for GNSS data recording, abundant sensors for various requirements of different users, the T8 tablet is equipped with robust hardware design meeting your demands.

FLEXIBLE COMMUNICATION

Integrated with 4G/WiFi/Bluetooth/USB communication ways, T8 tablet is easy to connect and transmit with all kinds of external GNSS devices. Furthermore, the GPIO interface of T8 tablet is especially designed for developers to integrate additional features. SingularXYZ also provides a high precision version tablet – T8 Pro by using the GPIO integration.
