

Quick Start Guide

D-BOX
HaptiSync Hub

Package Contents

- 1x HaptiSync Hub

- 1x Power Cord

You also need:

(included in seat package)

- 1x D-BOX Haptic Seat (at least)

- 1x Power Cord

- 1x IEC Plug-Lock Insert

- 3 or 4x Stabilization Cups (varies per model)

- 1x CAT.5E Shielded Cable

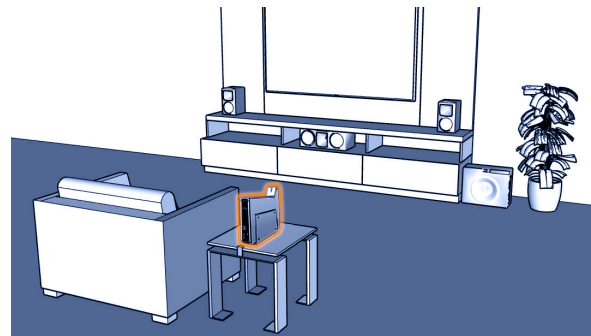

Complete User Manual is accessible at:
<https://www.d-box.com/en/downloads/>

1 Position your HaptiSync Hub

- Install your HaptiSync Hub on a flat surface

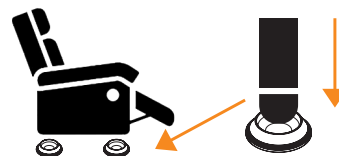

- Center your HaptiSync Hub in the audio environment and aim the integrated audio sensor (front side) towards your front speakers:

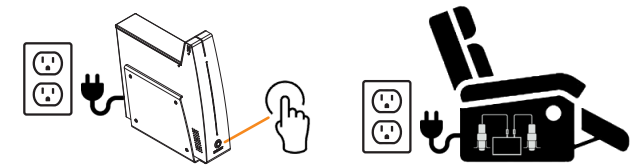

2 Prepare your Haptic Seat

- Install the stabilization cups under your Haptic Seat:

- Make sure nothing will be pinched or damaged while the Haptic Seat is moving.

- Connect the HaptiSync Hub to the Haptic Seat using the CAT.5E shielded cable provided with the system. **See other side of this page or the user manual for a specific wiring diagrams.**
- Plug your HaptiSync Hub and your Haptic Seat into an electrical outlet.
- Press the power button on your HaptiSync Hub to turn it on.

3 Create your D-BOX Connect Account

- Go to the D-BOX Connect website:
<https://connect.d-box.com>
- Create an account using a valid email address;
- Edit your payment information. **(Please note that a valid credit card is required to complete your registration).**
- Purchase your D-BOX connect subscription.

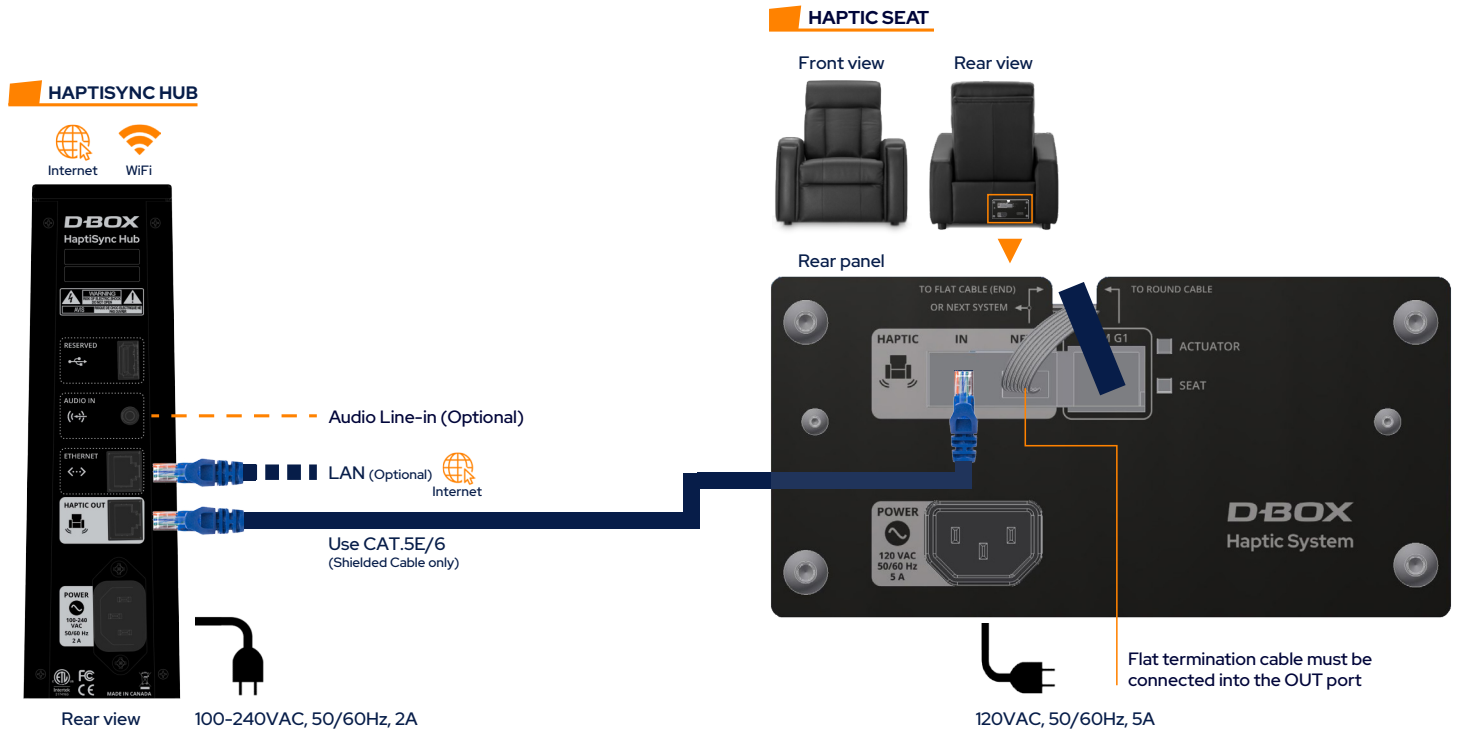

4 Complete HaptiSync configuration from the D-BOX Connect website

- Install the D-BOX HaptiSync App
- Connect your HaptiSync Hub to your network
- Activate your HaptiSync Hub
- Test your HaptiSync System
- **Enjoy your favorite immersive content!**
