2.4G wireless digital remote controller

Product Brief:

This product uses 2.4 G wireless digital remote control technology, remote control one-to-one control, easy operation, strong anti-interference ability.

Parameter:

Input voltage: 180-265V AC50/60Hz
Output voltage: 120-220V
LED output Power: (40-80W)x2
Motor rated power: ≤40W
LED output current: 220MA

RF: 2.4G

Remote distance: ≥20M Battery mdel: AAA 1.5V 2PCS
