---

07   Extras

07.1   Replace The Battery:

• Slide the opening slider on the back of your FineIn Tag to carefully open the shells.

•Replace the battery with a new CR2016 battery placing it positive side up (text facing up).

• Carefully close the iTag by aligning the top hole on both sides.

07.2   Unwanted tracking:

If any Find My network accessory separated from its owner is seen moving with you over time, you'll be notified in one of two ways:

• 1. If you have an iPhone, iPad, or iPod touch, Find My will send anotification to your Apple device.This feature is available on iOS or iPadOS 14.5 or later.

• 2. If you don't have an iOS device or a smartphone, a Find My network accessory that isn't with its owner for a period of time will emit a sound when it's moved.

These features were created specifically to discourage people from trying to track you without your knowledge.

08   The Fine Print

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) this device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation

This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This device generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this device does cause harmful interference to radio or television reception, which can be determined by turning the device off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
--Reorient or relocate the receiving antenna.
--Increase the separation between the device and receiver.
--Connect the device into an outlet on a circuit different from that to which the receiver is connected.
--Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment
