

Assembly & Installation Instructions

turn off the power

PREPARATION before INSTALLATION:

1. If an existing fixture is being replaced, remove it and note to which wire in the outlet box the original fixture was attached.
2. Before discarding the carton, double-check the packaging to make sure all parts have been found.
3. This fixture was designed to be mounted on an octagon outlet box. The box must be securely mounted to the structure of the building.

IMPORTANT:

1. **WARNING** - Disconnect power before relamping or wiring the fixture. Turn off the entire electrical circuit to which the lighting fixture is attached.
2. Installation and maintenance of this fixture should be completed by a licensed electrician.
3. Failure to install the fixture correctly could result in serious injury or death.
4. Read all instructions before starting installation.

INSTALLATION STEPS:

1. Secure the mounting bracket to the junction box with screws.
2. Connect the supply wires to the fixture wires using wire connectors: black to black (hot), white to white (neutral), and green or bare copper to ground. Make sure no bare wires are exposed during wiring.
3. Cover the mounting bracket with the ceiling plate, then tighten the screws to fix them in place.
4. Install the bulbs (not included).
5. Attach and tighten both shades onto the fixture.
