

How do I pair my Jabra Freeway with my mobile device?

To pair your Jabra Freeway with your smartphone, tablet, or other mobile device, follow these steps.

1. Turn on the Bluetooth setting on your mobile device.
2. Turn off your Jabra Freeway by sliding the **On/off** switch to the "off" position.
3. To enter pairing mode, simultaneously press and hold (5 seconds) the **Answer/end** button and slide the **On/off** switch to "on". The light flashes blue, and pairing instructions are announced.

4. To pair, go to the Bluetooth menu on your mobile device and select the Jabra Freeway from the list of available devices.
Enter "0000" (four zeros) if you are asked for a pin code.

Note

If pairing is not successful, try the pairing steps again, or try pairing with a different Bluetooth device. For troubleshooting tips, [see here](#).

Optionally, try using the [Bluetooth Pairing Guide](#) which provides detailed steps for pairing with a mobile device.
