

◆ THE DETACHABLE 2-IN-1 ULTRABOOK™. FOR THE FREEDOM TO CHOOSE.

Now you're free to choose between a fully-featured Ultrabook™ and a media-savvy tablet – all in one beautiful, flexible and highly desirable device. Introducing the detachable 2-in-1 Satellite Click 2 Pro P30W-B. Simply attach or detach the illuminated tile frameless keyboard, for the freedom to move seamlessly between modes. On the one hand, you have the premium performance of an ultra thin, light and responsive Ultrabook™ to help you power through multiple tasks with ease. On the other hand, you have the added convenience of a fully-connected tablet that brings out every brilliant detail of your movies, games and more on the 33.8 cm (13.3") Full HD IPS touchscreen display. You can also choose a model with a special backlit keyboard dock* for when you need increased battery life and extra storage. Both devices are accelerated by Intel® Core™ i5 for Ultrabook™ processors, and boosted by the speed you get from Intel® Turbo Boost technology. It defines sophistication – from the sleek satin gold brushed aluminium casing right through to the premium features inside. Experience the freedom of choice with the Satellite Click 2 Pro P30W-B.

taS_2014. Microsoft, Windows and Windows 8
are either registered trademarks or trademarks of
Microsoft Corporation in the United States and/
or other countries. All trademarks are acknow-
ledged. Product specifications, configurations,
prices and system component/options availabi-
lity are all subject to change without notice. Pro-
duct design specifications and colours are sub-
ject to change without notice and may vary from
those shown. Errors and omissions excepted.

CPU performance may vary from specifications under certain conditions such as the use of battery instead of AC power, certain external peripherals, certain multimedia applications or network connections, complex modeling software and in areas with low air pressure at high altitude (1,000 metres above sea level) and/or certain temperatures. CPU performance may also vary from specifications due to design confi-
guration. Under some conditions, your computer may automatically shut down as a normal protective measure. To avoid risk of lost data, please make periodic back-up copies. For optimum performance, use your
computer only under recommended conditions. Please read detailed restrictions in the product resource guide, visit the Toshiba web site: www.computers.toshiba-europe.com and/or contact Toshiba Technical
Support. - Graphics processor unit (GPU) performance may vary depending on product model, design configuration, applications, power management settings and features utilized. - Part of the main system
memory may be used by the graphics system and therefore reduce the amount of main system memory available. - For PCs configured with 4 GB of system memory, the full system memory space for computing
activities will be considerably less and will vary by model and system configuration. - For information about upgrading your system memory please refer to the user manual or contact your local Toshiba service
provider. - One GB means one billion bytes, accessible capacity may be less. - Wired and wireless communication capabilities to be applied in countries where approved. - Battery life may vary depending on ap-
plications, power management settings and features utilized. Recharge time varies depending on usage. Battery may not charge while computer is consuming full power. After a period of time, the battery will lose
its ability to perform at maximum capacity and will need to be replaced. This is normal for all batteries. To purchase a new battery pack, see your accessories information that shipped with your computer or visit
the Toshiba web site at www.computers.toshiba-europe.com. - Small bright dots may appear on your TFT display when you turn on your PC. Your display contains an extremely large number of thin-film transistors
(TFT) and is manufactured using high-precision technology. Any small bright dots that may appear on your display are an intrinsic characteristic of the TFT manufacturing technology. - Weight may vary depending
on product configuration, vendor components, manufacturing variability and options selected. - Please check your system specifications to ensure optimal results. - Certain notebook chassis are designed to ac-
commodate all possible configurations for an entire product series. Your selected model may not have all the features and specifications corresponding to all of the icons or switches shown on the notebook
chassis. - Performance may vary depending on product model, configuration, video content/format/settings as well as the performance variations of individual hardware components. Results were achieved on
select models and configurations tested by Toshiba at the time of publication.
