Intelligent sound, precise clarity

Stay ahead with a wireless speakerphone designed to meet the needs of today's dynamic professionals. Combining advanced audio capabilities, versatile connectivity options, and a portable design, the Dell Pro Plus Wireless Speakerphone empowers effortless collaboration wherever your work takes you.

Intelligent & robust audio

AI-enabled dual-directional noise cancellation keeps conversations clear, while a premium 60mm speaker driver delivers louder, balanced sound for calls and music. Full duplex audio ensures natural, uninterrupted communication.

Reliable connectivity

Enjoy multiple connection options with Bluetooth 5.3, USB-C, and wireless dongle support, ensuring flexibility and stable performance. Pair effortlessly and securely in just one click¹ with Dell Pair, seamlessly connecting up to 8 devices. Stay productive with up to 12 hours of battery life.²

Optimized integration

Certified for Microsoft Teams and Zoom, it effortlessly integrates into your workflow. The Dell Display and Peripheral Manager and Dell Audio app make customization simple on PC and mobile phone respectively.

¹ Applicable only when the accessory is in Bluetooth pairing mode during initial setup.

² Based on Dell analysis (talk time mode) of battery life usage, Apr 2025. Results vary depending on use, operating conditions, and other factors.

**zoom** Certified**Premium audio quality**

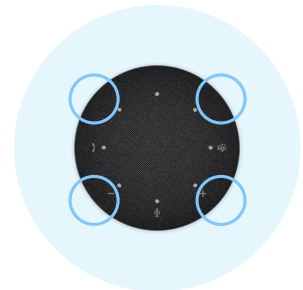

A 60mm speaker driver delivers rich, crisp sound for an immersive experience during calls, with louder output for clearer listening and balanced sound quality featuring crisp highs, warm mids, and controlled bass.

AI noise cancellation

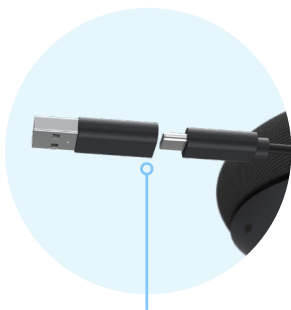

Dual-directional AI-enabled algorithm ensure clear, distraction-free communication by filtering out background noise.

Full duplex audio

Experience seamless, natural communication with the ability for both parties to speak and listen simultaneously.

**Superior sound capture**

Four omnidirectional microphones deliver clear, consistent voice quality from any position.

**Versatile connectivity**

Connect effortlessly with Bluetooth 5.3, a USB-C dongle, or an integrated USB-C cable with an in-box USB-A adapter for maximum device compatibility.

**Compact durability**

Designed for portability with an IP64 rating for dust-tight and water-resistant reliability on the go.

Quick device pairing

With Dell Pair technology, enjoy quick and effortless setup with compatible Dell devices, so you can focus on what matters most.

Seamless integration

Certified for Microsoft Teams and Zoom, with tools like Dell Display and Peripheral Manager and Dell Audio app for quick setups, customization, and enhanced efficiency.

Long battery life

Stay productive with up to 12 hours¹ of continuous use on a single charge.
