Quick start guide and warranty card

Charging

Before using the "Monster Open Ear AC328", please connect the USB-C cable to a power adapter to begin charging. Fully charge the earphones and the charging case before the first use.

USB-C Port

Power On/Off

Automatically turn on after opening the lid. To turn off the earphones, please place them in the charging case and charge them while turning them off.

Pairing

The earphones will turn on when taken out of the charging case.

For new device connection, turn on the Bluetooth in your device and choose " Monster Open Ear AC328 " from the Bluetooth list to connect. You will hear syste prompts after the earphones are connected to the device. If the earphones have been connected before, they will connect to the last connected device automatically after being turned on.

Wearing

Put the "Monster Open Ear AC328" onto your ears and rotate to fit comfortably to get the best wearing and sound quality experience.

MFB Operation

Reset

In the power on state, touch the MFB of the earphones 5 times (two earphones at the same time), and the earphones will automatically shut down to reset. Put the earphones in the charging case and then take them out, the earphones will turn on automatically, and enter the pairing mode.

## **FCC Caution**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
