Ultra Slim Mouse Mover

User Manual | PN: ZB1011
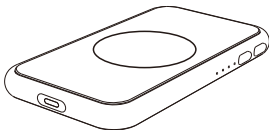

Name: Ultra Slim Mouse Mover

Model: FME01

Size: 82x140x16mm

Features: Ultra Slim and portable, Undetectable by IT, Ultra Silent

Step 1: Using the provided power cable connect the Ultra Slim Mouse Mover to your computer's USB port OR connect to the external wall socket. This ensures a stable power supply for uninterrupted operation.

Step 2: Position the working mouse so that the sensor area of the mouse is aimed at the turntable of the mouse jiggler. This allows the device to mimic mouse movements.
To turn on/off the anti-sleep function, simply press the power on/off button briefly. This feature ensures that your computer doesn't go into sleep mode, making it appear active even when idle.

Step 3: Adjusting movement intervals You can adjust the pause time of the turntable to simulate various movement patterns. Press the interval switch briefly to set the desired pause time. The indicator light will indicate the corresponding pause time of the turntable. This customization allows you to suit your specific requirements.
