6. Can't search the product.
7. Make sure your location services are enabled (GPS is working). The product has enough power. The product does not connect with other phone and under activated state. Then keep the product close to your phone.
8. BT still can not search it, please turn-off BT function and reconnect after 20 seconds.
9. Can't monitor heart rate.
10. Make sure you wear tightly enough to monitor heart rate.
11. Can't receive notifications after enabling it.
Android phone: Make sure the product is connected with your phone. After Joywear 2 App to access notifications. If any security App installed, add Joywear 2 to trust list.
iPhone: Make sure the product is connected with your phone. Reduce your phone and reconnect it with the product.
Is the product waterproof?
The product supports IP67 waterproof which allows the product to be held in water for a maximum of 30 minutes at a depth of 1 meter. You can wear it while washing your hands, having a cold shower or washing your car. Please do not wear it while diving or water skiing.

Do I need to connect BT all the time? Are there data left when product disconnected with mobile via BT?

Data will be kept in product for seven days. When product is connected with mobile, data will be uploaded to mobile automatically. Kindly synchronize product data to mobile in time.
Note: Call and message notifications only work under BT connection status.

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure condition without restriction.

Battery Capacity:	200mAh
Battery Type:	Lithium polymer battery
Standby Time:	Up to 30 days **usb-test result
Watch Size:	42*22*8mm
Strap Size:	240mm
Material:	ABS/PC/PU
Waterproof:	IP67

Setting Up Your Smart Watch

For the best experience we recommend using the Joywear 2 App for iOS and Android.

iOS 8.0 or above
Android 4.4 or above

Setting up the watch on your phone To get started

1. Find the Joywear 2 App in one of these locations, depending on your device:
 The Apple App Store for iPhone.
 The Google Play Store for Android phone.
2. Install the App. Note that if you don't have an account with the store you'll be required to create one before you can download the App.
3. When the App is installed, open it and be guided through a series of questions that help you create your account, or login to your existing account.
4. Continue following the on-screen instructions to connect or pair the product to your phone or tablet.

Your account asks for information such as height, weight, and gender to make various calculations such as stride lengths to estimate distance and basal metabolic rate to estimate calorie burn. You can modify your information in Joywear 2 Profile file.

When you're done pairing, read through the guide about this product and then explore the dashboard.

Getting To Know Your Smart Watch

Wrist Placement:
For all-day wear, your watch should usually rest a finger's width below your wrist bone and lay flat, as you would normally wear a watch.

Charging Your Watch:

1. Pull out the wristband.
2. Insert the device's charging plug into USB port.

Power On/Off:

- When the watch is under shutdown mode, charge the watch or long press the touch screen or side button for 3 seconds to power on the wristband.
- When the watch is turned on, tap to switch the screen to the power-off interface, long press the touch screen for 3 seconds, the watch vibrates and shuts down.

Waking A Dozed Screen:
When you're not using the product, the display is off. To wake it up:
 • Press the side button.
 • Tap your wrist towards you. This behavior, known as Light Up, can be turned off in your smart watch settings in Joywear 2.

Using The Clock Face And Menu

The home screen is a clock. On the clock face you can tap to see your steps taken, distance, calories burned, heart rate, training, message, and other functions. After viewing the clock face, you can swipe through the different menus to see information or use different functions of your smart watch. The following menus are available:

Clock — Long press the screen briefly, then slide and tap to change clock face.

Steps — Stroke your current steps taken, and tap to change clock face.

Shortcut to other functions — Side-swipe to enter other functions directly.

Shortcut to message — Side-up to check the message directly.

Distance / Calories Burned — Stroke your current distance.

Weather — Shows the current weather.

Heart Rate — Automatically monitors and shows your real-time heart rate.

Message — Tap to view message. Slide to check next message.

Training

Tap once to enter and slide through different training modes, such as running, cycling, ping-pong, tennis and badminton. Then tap clear to start training and slide right to choose to end.

Others — Tap once to enter sub-menus.

Brightness — Tap to adjust screen brightness.

Find file — Under paired mode, tap watch, your connected phone and BT address of the watch.

About — Tap once to view the firmware version number and BT address of the watch.

Reset — Tap once to reset the watch and Joywear 2 App.

Power off — Long press to turn off the watch.

Find file — Under paired mode, tap watch, your connected phone and BT address of the watch.

About — Tap once to view the firmware version number and BT address of the watch.

Reset — Tap once to reset the watch and Joywear 2 App.

Power off — Long press to turn off the watch.
