

Combination Steam Oven, 23", 23 Function

Series 11 | Contemporary

Stainless Steel

With a subtle black glass finish, this Contemporary style oven has 23 functions including steam-only, to effortlessly create healthy and delicious dishes.

- Precise temperature control with steam-only cooking, convection-only, or a combination of both
- 23 oven functions including Steam, Sous Vide, Air Fry and Vent Bake
- Designed to match with companion products such as vacuum seal drawers

- Guided touchscreen cooking makes it simple to cook by food, function or recipe

DIMENSIONS

Height	23 9/16"
Width	23 7/16"
Depth	22 1/4"

FEATURES & BENEFITS

Complementary design

Every detail has been carefully crafted from the finest materials to support a considered kitchen design. This Contemporary style oven has a stylish black finish with stainless steel contrasts, designed to help you achieve a kitchen aesthetic that suits your design style. Pair with a Vacuum Seal Drawer for the ultimate kitchen solution.

From Steam to Sous Vide

Fine amounts of steam are released with accuracy and precision at a range of temperatures, to ensure food is cooked gently and evenly. Perfect for entertaining, you can sous vide proteins such as steak and salmon before guests arrive, and simply sear when ready to serve. The flexibility of timing and accuracy of temperature control ensure perfect, predictable results every time.

Gentle and healthy

Steam functions allow you to cook food in its own juices to retain nutrients, moisture and flavor. With five steam-only cooking functions including Sous Vide, plus four combi-steam functions, this oven lets you enjoy the benefits of flavorful and healthy restaurant-quality meals at home.

Multi-function flexibility

<>

Cook with confidence

Using the intuitive touchscreen interface, you can cook with a favorite method, a hero ingredient, or a go-to cooking function or recipe. Your oven will guide you through steps, or change temperature and heat type automatically, depending on your selection.

Reheat and restore

Reduce household food waste by reheating foods with steam, which helps to regenerate moisture levels and ensure meals come out fresh and delicious. Use Steam Regenerate to reheat leftover meals such as roast and risotto, while Crisp Regenerate is perfect for refreshing pastries, bread and pizza.

Exceptional convection performance

AeroTech™ circulates heat evenly for a consistent temperature throughout the cavity, while ActiveVent technology ensures optimized moisture levels when using convection functions. Achieve perfect results even when you're using multiple shelves.
