1 Welcome

Thank you for choosing this Goodmans product. We have been making electrical products for the British people for over 90 years. Each of our products have been carefully designed to be great at what they do and this one is no exception. We hope you enjoy your new Goodmans DAB / FM Radio.

2 Your DAB / FM Radio

2.1 In the Box

Carefully remove your DAB / FM Radio from the box. Inside the box you will find:

- DAB / FM Radio
- Power Adapter
- Quick Start Guide
- Instruction Manual
- Safety & Guarantee Leaflet

2.2 Mains Power

Your DAB DIGITAL/FM Radio uses a DC 5V 1A power adapter. Please ensure that your mains supply is compatible before use.

2.3 Position DAB / FM Radio

Place on a flat, stable surface that is not subject to vibrations. Avoid the following locations:

- Where it is exposed to direct sunlight.
- Where it is close to heat radiating sources.
- Where the humidity is high and ventilation is poor.
- Where it is dusty.

2.4 Adjusting the Aerial

Fully extend the aerial to ensure good reception in both DAB and FM Radio modes. It may be necessary to alter the position of the DAB DIGITAL/FM Radio and/or the aerial to achieve the best signal.

2.5 Front View

A Speaker

- O DC 5V IN Micro USB Port**
- P Battery Compartment**

Insert 4×1.5V AA batteries into battery compartment (4×1.5V AA battery not included).

CAUTION

Danger of explosion if battery is incorrectly replaced.
Replace only with the same or equivalent type.

3 Quick Setup

3.1 Connecting the Power

1. Insert the power adapter to the 5V DC Micro USB port on your DAB / FM Radio, or insert 4 x 1.5V AA batteries in to battery compartment (4 x 1.5 AA battery not included).
2. Insert the power adapter into a suitable mains socket.
3. Slide the ON/OFF switch button on the back of your DAB / FM Radio.

3.2 Using your DAB / FM Radio

1. Extend the telescopic antenna for the best reception possible.
2. Make sure the DAB DIGITAL/FM Radio has been switched ON.
3. When powering on for the first time, the radio will perform a DAB station scan automatically. After that the radio will tune in to the last station played before it was turned off.
4. Press the Power/Mode button to switch between DAB and FM modes.
5. Press the VOL+ and VOL- control button to increase / decrease the volume.
6. During scanning the screen will display a slide bar that indicates the progress of the scan, and the amount of radio stations that have been found so far. Once the scan has finished, the radio will select the first alphanumeric station.
7. Slide the ON/OFF switch button to OFF position to turn the DAB DIGITAL/FM Radio off.

Note: Press and hold Power/Mode button and unit will go to standby mode. Press the Power/Mode button to turn on from standby mode.

4 Operation

DAB Operation

When you slide the ON/OFF switch button to ON the DAB DIGITAL/FM Radio again after a switch off. It will automatically tune into the same station (DAB or FM) that was last selected. Make sure it is DAB mode.

4.1 Full Scan

1. Extend the telescopic antenna for the best reception possible.
2. Slide the OFF/ON switch to the ON position on the back of your DAB Radio to power up the DAB Radio.
3. A full scan will automatically commence. The unit will search for all available DAB stations.

4.2 Storing Stations

1. You can store up to 10 DAB stations to the memory presets for quick and easy recall of your favourite stations.
2. To store a preset, you must first be listening to the station that you would like to save. Press and hold the PRESET button. The display will show "Preset Store<#:(Empty)>". If a station is already stored. The display will show "<#: Station name>".
3. Press the PRE/NEXT buttons to select the preset station number 1-10.
