Wi-Fi Frequency: 2.4GHz
3-Way switch wiring
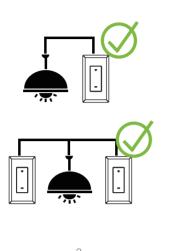

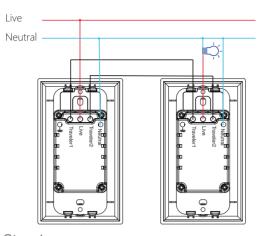

Smart Wi-Fi Light Switch, 3-way Kit

▶BEFORE YOU INSTALL

WARNING! RISK OF ELECTRIC SHOCK.
Incorrect installation could be dangerous or illegal, multiple breakers may need to be de-energized for safe installation. Please call a professional electrician if you are unfamiliar or uncomfortable with electrical work.

▶Install the 3-way Switch Kit

Live
Neutral

Step 1: Find the circuit breaker and turn off the power. Remove your old switches but do not disconnect the wires.

Step 2: Wire your smart switch kit with the 3-Way wiring method,Then install and secure both switches after the wiring.
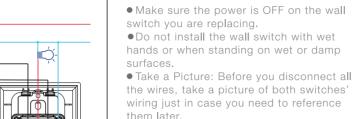

▶Warning and Advice:
● Make sure the power is OFF on the wall switch you are replacing.
●Do not install the wall switch with wet hands or when standing on wet or damp surfaces.
● Take a Picture: Before you disconnect all the wires, take a picture of both switches' wiring just in case you need to reference them later.

▶Wiring Instruction
1, Find the right electric box, Gosund 3way smart switch is designed to be installed in the line side box (the box with live in wire)
a, choose the electric box which is relatively close to the fuse box.
b, Live in wire has voltage, please use an electrical tester to verify it.
c, If you are still not sure, simply choose either electric box to get started. Gosund app will help you detect the right electric box later.
d, Note: For connecting with regular switches, Gosund 3way smart switch must be installed with live wire (in front of regular switch), if not, then the smart switch function won't work.

2, Open the electric box you choose, label the wires as figure shown below. Normally, the live wire is connected to the dark-colored screw, two traveler wires are connected to the two yellow screws, neutral wire is the white wire, and the bare copper wire is your earth ground wire.

3, Connect the 5 wires to the corresponding wires of Gosund SW6, fasten them with the provided wire nuts, then use the Gosund app to connect it to your home Wi-Fi.

▶Install the Gosund App
1. Search for Gosund App on App store /Google Play Store, or just scan the QR code below to download. (For iPhone, you can use build-in camera to scan the QR code. For Android, you may need barcode scanner to do that. Please confirm the App icon before downloading.)
PS: You can also add this smart switch to smart life app directly if you already have it on your phone, it is compatible and works the same way.

2. Register an account and memories the password, enter your email address or your phone number, then obtain verification code to complete the registry.

▶Trouble Shooting
Q: Why my phone connection failed ?
A:* You should try both Easy Mode and AP Mode, read page 6-page 8, make sure to follow the guide and try again.
* Confirm your home Wi-Fi is 2.4GHz and you entered the correct password during the connection.
* Remove&Install the smart switch to start again, see what happens.
Contact the after sales service for further help if you still have problems with the connection after following

the steps above.
Q:Why can't I voice control it with my Alexa/Google ?
A:* Make sure you set up smart switch successfully on Gosund app, and they are working fine.
* Make sure you put correct account when you link Gosund as a skill on Alexa/Google App, and you can find it on your skills.
*Make sure your Alexa/Google device is working fine.
* Check the device names that you set for this smart switch, it should be non-repetitive and recognizable for voice assistant, Also, please make sure your native language is available for Alexa.

If you still having trouble to voice control our smart switch after followed all instructions, do not hesitate to contact us for help.

Q: Do I need to set up the device again if I changed my router?
A:Yes! you must set up the smart switch again if there is any change of the current Wi-Fi status, either you changed your router or your moved the device to a new house. However, you don't need to worry if you are just moving it inside your room, with the same Wi-Fi.

Q: Why does it turns on/off or comes offline surprisingly ?
A:Check your Wi-Fi status and make sure the electricity is fine. Ccheck if you've set timer for it. If everything looks alright, just reset the smart switch on your app again and see what happens.
