

CARING FOR ALUMINUM

Lightweight, yet sturdy, aluminum is a highly durable metal and rust resistant, making it perfect for outdoor furniture. Follow these tips to maintain the weather resistance in order to remain beautiful long-term.

CLEANING INSTRUCTIONS

Combine warm water with a mild soap, rinse gently with a hose, and then dry with a soft cloth. If the furniture is kept near a saltwater environment, rinse it often with a hose.

DEEP CLEANING

A solution of 1:1 white distilled vinegar and water can be used to remove water spots. Rinse well with clean water and dry with a soft cloth. Do not use harsh solvent-based, abrasive, or stainless-steel cleaners.

EXTRA PROTECTION

Metal furniture can be waxed annually to protect the finish. Before waxing, furniture needs to be thoroughly cleaned and dry. Your local hardware store can advise the correct wax product to use.

STORING AND COVERING YOUR SET

For longer lasting beauty and durability, please use outdoor furniture covers when not in use. At the end of the season, store away in a cool, dry place like a garage or basement.

CARING FOR OUTDOOR CUSHIONS

Outdoor cushions are durable and easy to clean. The performance fabric options include polyester, olefin, and acrylic. UV protection is added to the materials so that they can be fade resistant, making them perfect for the outdoors. Follow these tips to maintain the weather resistance in order to remain beautiful long-term.

CLEANING INSTRUCTIONS

For spot cleaning outdoor cushions, mix a solution of lukewarm water and mild liquid soap. Then, spot wash and rinse thoroughly with clean water to remove soap. Let the cushions air dry.

DEEP CLEANING

If applicable, remove foam inserts and machine wash cushion covers on a delicate cleaning cycle using cold water and a mild detergent. Hang to dry.

STORING AND COVERING YOUR SET

For longer lasting beauty and durability, please use outdoor furniture covers when not in use. At the end of the season, store away in a cool, dry place like a garage or basement.
