

Jabra Engage 65 Mono

How do I set up my Jabra device to work with Content Guru storm?

In Content Guru storm, you can use your Jabra headset via the Web iPath for microphone and sound.

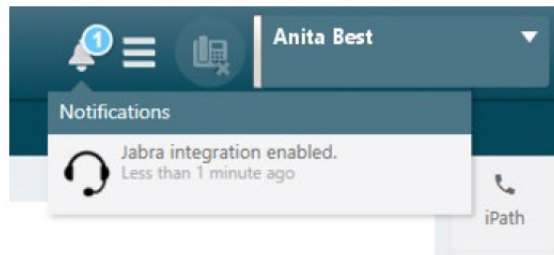

To gain support for call control, such as answer/end calls, mute/unmute, volume up and down, you must install the DTA Web iPath Jabra integration packages by following these steps.

1. Download and install the latest version of [Jabra Direct](#).
2. Install the [Jabra Browser Integration Extension](#) from the Google Chrome Web Store.
3. Download and install the [Jabra-Browser-Integration](#) JavaScript host libraries from GitHub. Select Windows or macOS.

Native Chromehost downloads		
Operating systems	Chrome host native download	Description
Windows (Windows 7 or newer)	JabraChromeHost2.1.0.msi	Chromehost 2.1.0
macOS (El Capitan or newer)	JabraChromeHost2.1.0.dmg	Chromehost 2.1.0

Note: Windows System Administrators can mass-deploy the Jabra Chrome Host across a domain by following [these instructions in GitHub](#).

4. When you log into Content Guru storm, you will be notified that the Jabra integration is enabled.
