At the same time, the company reserves the right to continuously update the contents of the products. All contents are subject to the actual product.

FAQ:

1. Warranty: 12 months from the date of purchase.

2. Why can't you wear watch for hot water baths, hot springs, saunas, etc.

The bath water temperature is relatively high, it will produce a lot of water vapor, and the water vapor is gas phase. Its molecular radius is small, it is easy to infiltrate from the shell gap of the watch, and when the temperature drops, it will re-condense into a liquid phase. Water droplets can easily cause short circuit inside the watch, damage the circuit board and damage watch.

Special Attention: For other issues of watch usage, you can get detailed answers in the App suggestion feedback.

URBAN LYF

USER MANUAL

App DOWNLOAD
FUN DO

Fun Do

Scan the QR code on the right side to download and install the App to the phone. (Supports IOS 9.0 & above, Android 4.4 & above. It does not support all mobile device models).

SMART WATCH
CHARGING AND ACTIVATED

First time users, please make sure the battery is fully charged. It takes 2 hours to be fully charged. Use the magnetic charger to attract the metal contacts on the back of watch (as shown on the right), and connect the other end of charger to USB charging head or computer USB interface (please use 5V / 500 mA) charging head. The two charging thimbles on the magnetic charger end cannot be attached to metal objects, in case of short-circuit & fire, do not charge with fast charging device.

CONNECT
SMART WATCH

1. Switch Smart Watch: long press the touch area of screen for 3-5 seconds.
2. Please turn on the phone's Bluetooth and location service and make sure the watch is not binded to other devices.

Install & Open FunDo app in your mobile phone → Set your personal information → Enter the device interface → Click on "My Device" → Go to settings in your smartwatch → Click "About" to view MAC address, you can use the MAC address from the device list to determine your device → The device name and the corresponding MAC address are paired → Device successfully connected.

Each time you open the App, the watch will automatically connect to the phone. After right-slide of the main interface of watch to enter the MAC address interface, the Bluetooth icon will appear, indicating that Bluetooth is connected. If there is no Bluetooth icon, Bluetooth is not connected.

NOTE:

1. When using GPS under sports mode, please turn on location services for phone and device. The watch does not have GPS function, you can open the GPS function in the App.

2. The Relevant data can be Synchronized by pulling Down the corresponding page More detailed information analysis and data recording can be viewed from the app

URBAN LYF
