

MX Master 3

Advanced Wireless Mouse

THINK IT. MASTER IT.

MX Master 3 is instant precision and infinite potential. Designed for designers and engineered for coders, it's our most advanced Master Series mouse yet. The near-quiet electromagnetic MagSpeed wheel provides up to 90% more speed¹ and 87% more precision.² App-specific button customisations speed up your workflow in the apps you use most.³ 4000 DPI Darkfield sensor means you can track virtually anywhere – even on glass.⁴ It's faster and 5x more accurate than the basic mouse.¹ Your hand rests perfectly on the sculpted form and Flow allows you to work across multiple computers and operating systems – transferring files, images and folders in one fluid workflow.³

¹ Compared to regular Logitech mouse without an electromagnetic scroll wheel.

² Compared to Logitech MX Master 2S mouse with Logitech Options installed and Smooth Scrolling enabled.

³ Requires Logitech Options software, available at www.logitech.com/options.

⁴ 4 mm minimum glass thickness.

⁵ Battery life may vary based on your use.
