1. SAFETY INSTRUCTIONS
CAUTION: Keep the device away from children.
Strangulation Hazard: Children have STRANGLING in cords. Keep this cord out of the reach of children (more than 3 ft (0.9m) away). Never use extension cords with AC Adapters. Only use the AC Adapters provided.
Choking Hazard: This product contains small parts, please be careful when unpack and assemble the product.
Read and keep to instructions: All the safety and operating instructions should be read before the video baby monitor is operated. This product cannot replace responsible adult supervision.
Water and moisture: This product is designed for indoor use only. The unit should not be exposed to rain, moisture, dripping or splashing. No objects filled with liquid should be placed on, inside or beside the product, such as a glass or vase. This item should not be used near water.
DO NOT: Use the appliance if the cord or plug is damaged. If your baby monitor is not operating properly or has suffered any damage, contact "VideoBaby" service center to request inspection and repair of the appliance in order to avoid any possible risk.
DO NOT: Do not attempt to repair or adjust any of the electrical or mechanical functions of the unit. Otherwise, the guarantee will be made void.
Ventilation: This baby monitor should not be used on a bed, sofa, rug or similar surface that blocks the ventilation opening, or be placed in an enclosed area such as a bookcase or drawer that may impede air flow.
Keep away from sources of heat: This unit should not be exposed to direct heat sources such as a candle, radiator, heater, grill, stove or other appliance that emits heat. The unit should not be left in direct sunlight.
Power source: This unit should only be used with the AC power adapters included in this package (rated 5V DC 1A).
Damaging requiring service: This unit should be serviced by qualified personnel only when: Owners have fallen or liquid has been spilled into the product; The units have been exposed to rain.

The units do not appear to operate normally or exhibit a distinct change in performance. The units have been dropped or the enclosure damaged.

2. WARRANTY TERMS
We offer one year warranty from the original purchase date against defects in workmanship and materials. If you have warranty or support issues, please contact our sales service via email.

3. INSTALLATION GUIDELINES
* Locate your parent unit and camera unit together, you have to establish a radio link between them, and the range will be affected by environmental conditions.
* Any large metal object, like a refrigerator, a mirror, a filing cabinet, metal door or reinforced concrete between the baby and parent unit may block the radio signal.
* The signal strength may also be reduced by other radio or wireless, like wi-fi, or by radio or electrical equipment, such as TV, computers, cordless or mobile phones, fluorescent lights or dimmer switches.
* Use of other 2.4G Hz products, such as wireless network (Wi-Fi routers), Bluetooth systems, or microwave ovens, may cause interference with this product, so keep the baby monitor away at least 10 ft (3m) from such products, or turn them off if they cause interference.
4. PLACEMENT OF THE BABY MONITOR
The camera can be placed on the desktop or mounted on the wall. Don't place baby monitor away from light sources such as radiators, chime, cameras and direct sunlight; Keep the baby unit away 7 ft away TV sets, microwave oven and radios. If interference occurs, move the camera to elsewhere.
* Place the camera within 5 feet (1.5 meters) of the area being monitored for optimum performance.

5. GETTING STARTED
5.1 TURN ON THE BABY UNIT:
1. Insert the DC plug of the power adapter into the DC jack on the rear of the Baby Unit;
2. Insert the other end of the power adapter into a suitable electrical outlet.
3. Once the adapter is connected, the power LED will light up.
5.2 TURN ON THE PARENT UNIT:
1. Insert the DC plug of the power adapter into the DC jack at the side of the Parent Unit;
2. Insert the other end of the power adapter into a suitable electrical outlet.
3. Press and hold the power key 3 seconds on the front of the parent unit.
4. Once parent unit is on, the power LED will light up and the image will display on the LCD.
